CAST RANGES

SHAPLEIGH'S
HARDWARE COMPANY

FOR COAL OR WOOD

***Streamlined--Many New and Exclusive Features
Medium Priced***

Beautiful, Modern Styling

Compares with largest, most expensive Ranges on the market. Corners are rounded, bolt heads are concealed—all surfaces smooth and easy to clean.

Correct Scientific Construction Throughout

All construction details carefully designed and tested. The new exclusive skyscraper type of base construction is a special feature. It is the most rigid, secure and easily fitted ever built for a coal-wood range. Chipping of base skirts is eliminated, too.

Material

The body of the Range is heavy cast iron. Oversize flues correctly baffled to insure even distribution of heat in the oven. Heavy cast iron smoke box cannot burn out. Door springs are located outside, away from the heat, where they are easily adjusted and where they will retain their temper longer. The modern oven door thermometer is a feature of this Range. Every construction detail is designed to insure long, satisfactory service.

Scientifically Designed Firebox

The firebox has been carefully designed to give both fuel economy and long service. The extra heavy ventilated three-piece fireback interchanges with the three-piece front grate. With end linings removed for burning wood, the firebox measures 20x8x6 inches. For coal the firebox dimensions are 16x8x6 inches.

Full Opening Slide Damper

The slide damper is extra large, with single opening, to insure entirely satisfactory operation. When closed all heat passes uniformly over all parts of the oven and insures quick and uniform heating of the oven and satisfactory baking. When the slide damper is in the open position, the firebox is directly open to the flue which insures ease of starting the fire.

Cooking Tops

Series 22 and 23—includes one reducing cover, one non-burn cover and four common covers—all 8 inches in diameter, fitted with hot blast short center in the hot plate over the firebox.

Series 25 and 26—includes two common 8-inch covers and a short center mounted in a loose key plate and a single French plate.

Full-Size Oven

No corners are cut in the oven of this Range. The full-sized ovens are surrounded by extra large flues to insure quick, even heat distribution.

STEEL RANGES

HILLCREST

For Coal or Wood

Buffet Model

Modern flush front design. With high shelf. All white porcelain enamel with black base.

Body—Made of No. 20 gauge Armco Iron, double construction throughout asbestos lined. Flues extra large.

Oven—Roomy, made of No. 20 gauge oven steel, securely braced at bottom with cast iron channel bars to prevent warping. Non-breakable steel hinges and stop. Controlled by a unique compression spring arrangement assuring perfect oven door operation. Heavily insulated with rock wool.

Top—Full polished. Fitted with T center with ample room for contraction and expansion. Two 8 inch covers and two solid French plates ribbed and braced to prevent warping.

Fire Box—Large and roomy with extension box for long length wood. Fitted with one-piece fire-back and duplex grate. Ash door panel conceals inner drop fire door and ash pan front.

Thermometer—Latest type furnished.

Reservoir Compartment—Fitted with 20 quart tank.

High Shelf—Artistic design, well proportioned and sturdily built.

Dimensions:

Reservoir Cooking Top—21 $\frac{1}{2}$ x37 $\frac{1}{2}$ inches.

Height to Cooking Top—31 inches.

Oven—17x18x11 inches.

Each

RESTAURANT RANGES

FOR MANUFACTURED, NATURAL, OR BOTTLED GASES

For Restaurants, Schools, Institutions, Clubs, Boarding Houses, Summer Resorts, Churches

BODIES—Heavy steel with flush doors; flush to wall ends. Perfect streamlining, so several ranges can be ganged together to form a complete unit. Reinforced by concealed angles and bands. Cast iron feet.

OVEN—Rock wool insulated. Single oven model, oven size 30" x 22" x 14½". All other models, oven sizes 24" x 22" x 14½". Heavy baffled porcelain finish oven bottom; porcelain finish linings. Rock wool insulation. Channel iron oven runners, three positions. Heavy oven rack. Improved "H" type oven burner—Robertshaw oven heat control—Automatic oven lighting with 100% safety shut off. Oven doors reinforced by concealed high tensile casting. Heavy door hinges, two way action, springs out of heat zone.

COOKING TOP—7" star burners with automatic lighting; centered 11½". Cast iron top grates, extra heavy, each 11½" x 27".

TOP GRIDDLE AND BROILER—On griddle and broiler models special heavy Econalloy casting, highly polished 23" wide, 27" deep; raised splash guard; grease slot in rear draining into large porcelain drip pan. Four tubular type burners. Extra heavy broiler rack.

HIGH SHELF—Heavy steel, no brackets. Oven vent pipe built into rear of shelf. Width 12". Height above top 17½". Overall height 22".

FINISHES—Silvertone. Baked black enamel. Stainless Steel.

GASES—Made for all kinds of gases with universal gas valves.

Castle MODELS FOR SMALLER INSTALLATIONS

FOR MANUFACTURED, NATURAL, OR BOTTLED GASES

For Lunchrooms, Taverns and Small Restaurants

To meet the need for a smaller range for limited installations, here's a CASTLE Range, same heavy sturdy construction—with a smaller (20 inch) oven, but the same large, deep cooking top grates and griddle plate.

BODY—Heavy steel with flush doors, flush to wall ends, perfectly streamlined. Reinforced with concealed angles and bands. Overall size 48" wide, 29" deep, 36" high.

OVEN—Back wall insulated. Size 20" x 22" x 14½". Aluminized oven linings. Channel oven ramers with three positions. Heavy oven rack. Oven door strongly reinforced. Heavy door hinges, two way action, springs out of heat zone. Improved "H" type oven burner—Robertshaw oven heat control—Automatic oven lighting with 100% safety shut off.

COOKING TOP—Four open top burners with automatic lighting. Two cast iron top grates, each 11½" x 27". Griddle plate 23" x 27". Top size 48" x 27". Height to cooking top 34½".

TOP GRIDDLE AND BROILER—Griddles special heavy Ecanalloy casting, highly polished. Raised splash guard, grease slot in rear draining into large drip pan. Griddle size 23" x 27". Extra heavy broiler rack.

HIGH SHELF—Heavy steel, no brackets. Oven vent pipe back of shelf. Shelf width 12". Height above top 17½". Overall 22".

FINISHES—Sivertone, Baked black enamel, Stainless Steel.

GASES—For all kinds of gases. Universal gas valves.

NO. A3208 (Black Finish) Code ACAPA
NO. A73208 (Sivertone Finish) Code ASAPA
NO. SA3208 (Stainless Steel) Code ASASACAPA

Shipping weight 460 pounds.

NOTE—Stainless Steel model has black porcelain grates, feet and oven linings.

Counter Griddle Ranges

Griddle Ranges are perfectly styled with bright chrome mirror finish front panel. Ends and back silvertone finish . . . Constructed extra strong with angle iron frames and bracing, entirely concealed. Body of heavy gauge steel. Will install flush to wall.

Griddle plates made of heavy Ecanalloy casting, highly polished. Grease slot in rear. Plates have raised back acting as splasher. Grease drains into black porcelain drawer . . . Super powerful "H" type griddle burners give even and easily controlled heat . . . Heavy cast iron black enameled cooking top grate with built in cups to catch spillage. Round burners with bright aluminum alloy heads . . . Lighters furnished under all griddle plates. Universal gas valves.

ELECTRIC RANGES

SHAPLEIGH'S

Backguard—Streamlined, functional back panel provides soft, diffused light over entire work top. "Tru-Time" International clock and 3 hour-60 minute electric minute minder, 2 convenient electric appliance outlets, one of which is "time controlled" like the oven. Jewel signal lights to indicate when current is "on". Wilcolator thermostat with automatic "pre-heat" arrangement. Seven-heat rotary switches.

Work Top—Divided top with 4 T.K. quick heat, flat top "swivel action" surface units, 2 giant (2100 watts), 1 standard (1250 watts), 1 Hi-Speed (1450 watts). Porcelain enameled drip and reflector bowls with bright chrome rings. One piece "waterfall" top, free from grease catching crevices, easily cleaned.

Oven—Balanced heat, economy oven 19x16x16 $\frac{1}{4}$ inches (4940 cu. in.)—large enough for all family requirements yet uses low current input. Oven made of one piece, seamless, porcelainized steel with rounded corners for easy cleaning and is thoroughly insulated with thick blanket of Fibreglass. Oven heating element rated at 2000 watts. Two nickel plated, rust-proof racks with positive stop positions. Oven door hermetically sealed, high tempered, double glass window, guaranteed not to "fog". Electric light in oven. Oven may be controlled manually or by electric clock. Oven will turn itself on at the right time, maintain selected temperature and turn itself off at the time selected.

Broiler—Broiler in oven provides even "Charcoal-like" broiling over 12 inch area and has 2-piece "smokeless" porcelain enameled, easily cleaned pan and grill. Broiler element rated at 3000 watts.

Storage Area—Large storage compartment and 2 capacious storage drawers, all porcelain enameled. Drawers glide smoothly on plastic roller bearings.

Dimensions—Floor to top of backguard 45 $\frac{1}{4}$ inches. Back to front 25 inches. Floor to cooking top 36 inches. Length 36 inches.

Maximum Connected Wattage—13,220.

Fully inspected and listed under the extremely exacting safety standards of Underwriters' Laboratories.

Each
21-S56GAL-C N-X177D95★ \$266.95
One in crate. Wt. crate 245 lbs.

Backguard—Streamlined, functional back panel provides soft, diffused light over entire work top. Two convenient appliance outlets. Jewel signal light indicates when surface units are "on". Wilcolator thermostat oven and broiler switch has "pre-heat" arrangement and signal lights. Seven heat rotary switches.

Work Top—Divided top with 4 T.K. quick heat, flat top "swivel action" surface units, 2 Giant (2100 watts), 1 Standard (1250 watts), 1 Hi-Speed (1450 watts). Porcelain enameled drip and reflector bowls with bright chrome rings. One piece "waterfall" top, free from grease catching crevices, easily cleaned.

Oven—Balanced heat, economy oven 19x16x16 $\frac{1}{4}$ inches (4940 cu. in.)—large enough for all family requirements yet uses low current input. Oven temperature rises quickly to desired "pre-heat" level and is maintained to close tolerance by accurate Wilcolator thermostat. Oven made of one piece, seamless, porcelainized steel with rounded corners for easy cleaning and thoroughly insulated with thick blanket of Fibreglass. Oven heating element rated at 2000 watts. Two nickel plated, rust-proof racks with positive stop positions.

Broiler—Broiler in oven provides even "charcoal-like" broiling over 12 inch area and has 2-piece "smokeless" porcelain enameled, easily cleaned pan and grill. Broiler element rated at 3000 watts.

Storage Area—Large storage compartment and 2 capacious storage drawers, all porcelain enameled. Drawers slide smoothly on plastic roller bearings.

Dimensions—Floor to top of backguard 45 $\frac{1}{4}$ inches. Back to front 25 inches. Floor to cooking top 36 inches. Length 36 inches.

Maximum Connected Wattage—13,220.

MARQUETTE

Approved by Underwriters' Laboratories, Form "O"

**"Super 30" Electric**

Full-sized performance within a compact area.

The practical answer to color—just change the soft white fluorescent light in "Panoramic" lighted backguard to color desired. Six interchangeable colors are possible—yellow, green, pink, red, dark blue and light blue.

Hi-speed "pan-hugging" surface units with great utensil contact area for faster, more efficient and better cooking at lower cost. Lift-up coil and removable pan for easy washing. Monotube coil—no complicated settings. Seven uniform cooking speeds.

Two convenient appliance outlets located on range backguard. One is "timed" and can be used in connection with clock to turn any electrical appliance on and off.

Pushbuttons take guess work out of cooking—Press a button for any one of 7 measured cooking heats.

Pushbutton controls conveniently placed 14 inches above cooking top and work surface—away from high heat zone and above tops of cooking utensils.

Giant 24-inch oven—big enough for 6 pies or cakes or 10 loaves of bread.

Picture window oven door with clear-vue glass and oven light. Check baking or roasting progress without opening door. Heat-proof and non-fogging glass.

Automatic oven control provides complete range of temperatures from 175° to 550°. Neon signal light turns light on and off automatically.

Indicator light for each top unit shows when units are in "on" position.

General Specifications:

Finish—Acid-resistant Titanium finish on all white porcelain enamel.

Insulation—3-inch blanket of Fiberglass wool all around oven.

Flush to Wall Construction.

Recessed Toe Space.

Surface Units—T and K Monotubes

BUILT-IN GAS RANGES

Space-saver top has stainless steel burner bowls, center-control burners, hypo-needle pilots.

Rotisserie with electric motor available as optional equipment.

Eye-level controls... distinctive styling on glass door for better oven vision.

SUPER THIN DROP IN TOP

Gas

- ✓ No front cutout required
- ✓ Doesn't waste valuable drawer space
- ✓ Interchangeable—gas and electric
- ✓ Easiest tile installation
- ✓ Cheaper to install—only one cut out required
- ✓ Pulls down flush to counter—no space for spillovers to run into cabinet
- ✓ No worrying about thickness of cabinet front or counter top
- ✓ Only 3" deep—thinner than the length of a cigarette!

MAGAZINE HEATERS

These **SHAPLEIGH** Heaters are several inches taller than other heaters because of the large combustion chamber at the top. This combustion chamber allows the gases to ignite, reducing the possibility of puff back and cutting down escaping smoke when fuel is added.

Secondary air is introduced through register in front into the cast manifold at the top of the fuel bed. This preheated air is uniformly distributed into the combustion chamber through ports in the manifold, giving better combustion to gases and greatly increasing efficiency of the heater.

The heavy steel drum is lined with two rows of eight interchangeable firebrick. The brick are so constructed that the joints between them when assembled form eight vertical channels equally spaced around the drum. These channels are directly over holes in the grate ring and conduct part of the regulated air from the ashpit around the coal, causing the gases formed by coking of the coal to be ignited properly.

Furnished with high grade automatic draft control.

MADE IN TWO STYLES—SEE FOLLOWING PAGE

Missing page(s)

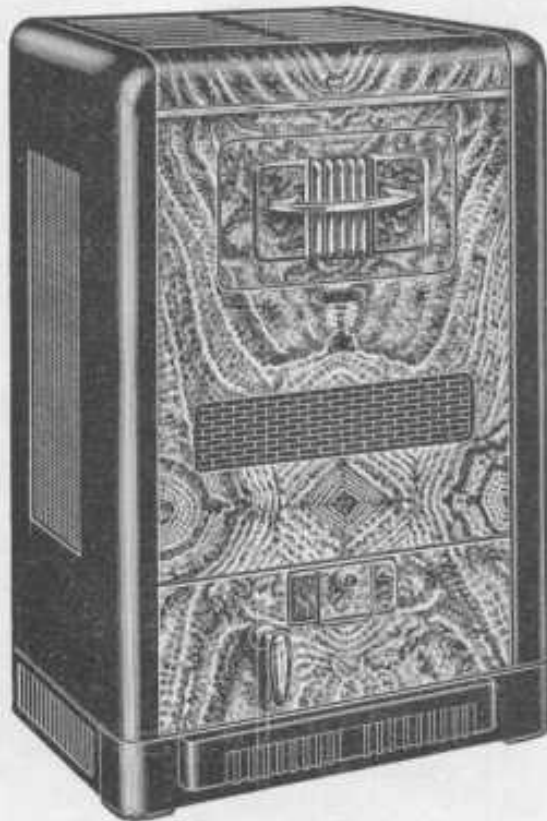

Missing page(s)

COAL MAGAZINE HEATERS

CIRCULATOR TYPE

Beautiful porcelain enamel. Front swing-type feed door. Coal chute and smoke screen. Face ground ash door. Inner unit same as SHAPLEIGH'S radiant heaters shown in cross section on preceding page.

Each		Height, ins.	Width, ins.	Depth, ins.	Pipe Collar, ins.	Ca- pacity, lbs.	Weight Each, lbs.
21-S109-E	N-X84D85	46	27	23	7	100	415

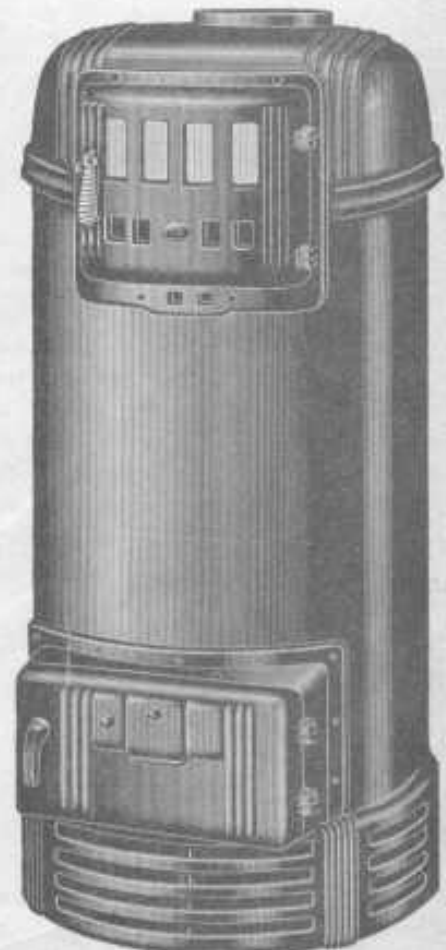

RADIANT TYPE

Manifold—Placed at top of brick line admits secondary air, giving better combustion and more efficiency.

Lining—Interchangeable fire brick with slots running from ash pit to top of firing zone.

More Heat—Large combustion chamber above brick permits ignition of gases, reduces puffing and produces more heat with the same amount of coal.

Each		Height, ins.	Diam., ins.	Pipe Collar, ins.	Capacity, lbs.	Weight Each, lbs.

New IMPROVED TWO STAR ★★

... with weighted self-closing Draft Door — dual
"built-in" Spark Arrestors — new screw Draft Regulator.

Continued improvement in "ALL STAR" Heater design and construction now make them an even greater value than ever before! All numbers have new interlocking leg cleats ... easily operated flush swing lids that provide maximum top cooking surface ... heavy-gauge inner linings that assure long life ...

double seamed rounded tops and reinforced double seamed bottoms, that add strength and attractiveness ... built-in check draft ... and new RIB-O-NIZED St. Louis Blue Tempered Steel bodies with modern WROUGHT IRON legs. They are smart looking, efficient and low priced.

"ONE STAR" Heaters have a nicked Screw Draft Regulator with Spark Arrestors built into the steel pouch and also the heater lining.

Improved "TWO STAR" Heaters have a new weighted, self-closing 7" steel door with dual "built-in" Spark Arrestors and nicked Screw Draft Regulator. Door has strong riveted hinge and smooth turned edge. Will stay open for easy ash removal.

"THREE STAR" Heaters have a cast iron clean-out pouch and hinged cast-iron door fitted with nicked Screw Draft Regulator. Door will remain open while ashes are being removed.

"ALL STAR" Heaters Are Packed One Per Carton

New BOTTOM-INTERLOCKING
LEG CLEATS

(Patent Pending)

On all Models — Can't come loose!

New self-locking design eliminates all welding, bolts, nuts, etc. Cleats cannot open up or come loose. Also lock legs in proper position to most effectively support full weight of Heater.

HEARTH DESIGN

. . . LINED and UNLINED TYPES IN ALL POPULAR SIZES

Beautiful walnut brown hammered
enamel
finish.

"J-E" Stove Boards are embossed and finished to provide a modern ceramic tile appearance that harmonizes nicely with any style of heater. They are made of heavy bonderized steel, with a sub-

stantial bead around the edge that adds materially to their rigidity. The steel is curled under on all sides, eliminating raw edges. Lined sizes are fitted with special "J-E" insulating material.

PORTABLE OIL HEATERS

PERFECTION

All models include air-cooled handle and zinc-coated steel reservoir holding $\frac{5}{8}$ gallon. Each burner will burn a minimum of twelve hours and a maximum of seventeen hours on one filling. Producing 11,000 B. T. U.'s per hour, each can heat 1100 cubic feet of space from 0° to 70° or 1500 cubic feet of space from 20° to 70°. These are approximate and vary with climate and construction of home.

(750-755)

Hearth Glo

FIREPLACE HEATER

Polished Chrome Hearth

The perfect answer for transforming old style fireplaces into smart, modern, comfortable heating units. Has heavy fireclay backwall for maximum radiation . . . attractive pine cone design ceramic radiants with sparkling glow points . . . chrome guards and hearth plate . . . bonderized metal coating . . . non-chip Copper-tone hammered enamel finish. A.G.A. approved for Natural or L.P. gas.

Model No.	B.T.U.	Radiants	Height	Width	Depth	Shipping Wt.
K-110	20,000	5	18¾"	25½"	12"	41½ Lbs.
K-112	24,000	6	18¾"	28¼"	12"	47½ Lbs.

HOW TO FIGURE HEATER SIZES . . .

30° below zero	= 13 B.T.U. per cu. ft.
20° below zero	= 12 B.T.U. per cu. ft.
10° below zero	= 11 B.T.U. per cu. ft.
0° zero	= 9 B.T.U. per cu. ft.
10° above zero	= 8 B.T.U. per cu. ft.
20° above zero	= 7 B.T.U. per cu. ft.
30° above zero	= 6 B.T.U. per cu. ft.
40° above zero	= 5 B.T.U. per cu. ft.

1. Table shows approximate number of B.T.U. per cubic foot required to maintain 70° inside at various outside temperature levels. These B.T.U. factors are estimated on average good home construction with normal exposures and heat loss.
2. Estimate cubic foot content of space to be heated by multiplying width × length × height.
3. Determine B.T.U. factor for average low temperature where heater is to be installed, as indicated by above table. Multiply cubic foot content of area by B.T.U. factor. For example—a 450 sq. ft. home with 8 ft. ceiling, would contain 3600 cubic ft. In a 10° above zero weather zone (with 8 B.T.U. factor) a heater with 28,800 minimum B.T.U. rating would be called for.

NOTE: For poorly insulated homes or homes with extra large glass area, increase B.T.U. factor by two. Viz, 8 plus 2 = 10 B.T.U. factor in above example.

Realistic FIRESIDE LOGS . . .

Model No. F-25 — Gives a cheery, realistic wood-fire effect. Efficient 25,000 B.T.U. burner concealed between non-cracking ceramic, imitation oak logs. (White birch

imitation logs supplied on special request). Heats fast. Low priced. Height 18", Width 23", Depth 12". Shipping Weight 70 Lbs. A.G.A. approved for Natural or L.P. gas.

For Small Room or Bath . . .

Model No. L-106—12,000 B.T.U. rating. A highly efficient, fast selling unit, with long life ceramic radiants. Choice of smart White and Chrome or Brown and Chrome finish, with

porcelanized top. Height 15", Width 12¼", Depth 7". Shipping Weight 15 Lbs. A.G.A. approved for Natural or L.P. gas.

JE

Hearth Glo Matic

"DUO-LOOK"

**RADIANT GAS
CIRCULATOR**

*Approved by
American Gas
Association*

U. S. Patent No. DE5 162969

IT'S NEW! IT'S DIFFERENT!

**A cheery, glowing radiant heater in winter
...a smart, modern furniture piece in summer.**

With the gas turned on (above right) this beautiful new HEARTH-GLO-MATIC model is automatically transformed into a cheery, glowing radiant heater. With the gas turned off, it is a strikingly attractive modern furniture piece, with all heating elements completely screened from view by the streamlined chrome grilles (see inset).

HEARTH-GLO-MATIC's advanced styling and engineering will keep it strikingly new and efficient for years to come. Special alloy steel combustion chamber and extra large heat exchangers provide maximum heat transfer. Aluminized cabinet interior

keeps outside of cabinet cooler. Newly designed burners eliminate flash back and noise. Exclusive new non-breakable stainless steel radiants are guaranteed not to break or burn out.

HEARTH-GLO-MATIC's beautiful Copper-tone hammered enamel finish is electrostatically applied over a bonderized undercoating. Will not crack or chip. Blends smartly with any decorative scheme.

For information on HEARTH-GLO-MATIC's new pre-assembled and separately packaged Control Manifolds, see next page.

JE

JACKES-EVANS MFG. CO. 4427 GERALDINE AVE., ST. LOUIS 15, MO.

Pre-assembled CONTROL MANIFOLDS for *Hearth Glo Matic* CIRCULATORS

"J-E" Control Manifolds combine safety, convenience and low cost. They enable the dealer to sell and deliver the complete line with only a minimum investment in floor samples and stock. Factory assembled and carefully tested, they guarantee the user

maximum safety and performance. Five manifolds are available for each heater model. They are interchangeable and can be quickly installed with the tightening up of just 4 metal screws (see illustration in circle).

Manual Pilot
Control Manifold

"BASO" 100% Safety Pilot
Control Manifold

"UNITROL" Automatic
Temperature Control Manifold

CONTROL MANIFOLDS
are easily installed with tightening
up of just 4 screws.

Manual Pilot Manifold — For use with Natural Gas only. Flame intensity easily controlled by handy main valve handle in front of heater. A very practical, low cost unit. Factory pre-assembled. A.G.A. approved.

"BASO" Safety Pilot Manifold — Supplied for either Natural Gas or L.P. (liquefied petroleum) Gas operation. Has newest type automatic valve with 100% shut-off in the event of pilot failure for any reason. Assures absolutely safe operation at all times. Completely pre-assembled with all fittings, brackets, etc. A.G.A. approved.

"UNITROL" Automatic Temperature Control Manifold — For either Natural Gas or L.P. (liquefied petroleum) Gas operation. Combines in a single pre-assembled unit a highly sensitive thermostat mechanism, 100% safety pilot, main burner control valve, etc. Automatically holds temperature at any desired level. Immediately cuts off all gas in the event of pilot failure. Guarantees maximum comfort and complete safety. A.G.A. approved.

Approved by American Gas Association**The BIGGEST *little* HEATER BUY
on the market today!****FULLY VENTED CIRCULATORS****16,000 B.T.U. Input**

Small in size . . . but BIG in heating ability . . . these new MOTEL gas heaters are a fitting addition to the "J-E" line. All-welded cabinets with smartly drawn louvered openings assure maximum air circulation and heating comfort. Will easily heat average size Motel

room. Also perfect for trailers, smaller homes in mild climate areas, etc. Beautifully finished in Copper-tone hammered enamel. Available in two types (Radiant and Non-radiant). Will give years of low-cost, trouble-free service. A.G.A. approved.

For MANUAL PILOT,
SAFETY PILOT or THERMOSTATIC
CONTROL OPERATION

with

JE Pre-Assembled CONTROL MANIFOLDS

"J-E" Motel Heater Control Manifolds are individually packaged and come completely pre-assembled - ready to install with the tightening of just 2 screws. They are interchangeable on either type heater and enable the dealer to handle the complete line with only a limited investment in stock or samples.

Manual Pilot Manifolds are usable only with Natural Gas. Safety Pilot Manifolds with 100% shut-off in the event of pilot failure and Thermostatic Control Manifolds with automatic temperature control and 100% safety pilot are available for Natural or L.P. (liquefied petroleum) Gas operation. All are A.G.A. approved.

**CONTROL MANIFOLDS FOR "J-E" MOTEL HEATERS**

16,000 B.T.U. Rating		Control No.	Ship. Wt. (approx.)
MANUAL PILOT	Nat. Gas	M16N	2 Lbs.
"BASO" SAFETY PILOT	Nat. Gas	BS16N	3 Lbs.
	L.P. Gas	BS16L	3 Lbs.
"UNITROL" THERMOSTATIC	Nat. Gas	UT16N	5 Lbs.
	L.P. Gas	UT16L	5 Lbs.

NOTE: One of the above control manifolds
must be supplied with each heater ordered.

BIG VALUE - 20,000 B.T.U.

UNVENTED GAS CIRCULATORS

THE EASIEST-TO-SELL HEATERS ON THE MARKET TODAY!

Approved by American Gas Association

FOR NATURAL OR L.P. GAS

Here are the greatest small heater values ever offered with quality features usually found only in much higher priced units! Provide excellent heating comfort at budget prices. Full 20,000 B.T.U. output. Choice of Radiant or Non-radiant types.

CHECK THESE FEATURES!

APPEARANCE — Attractive, smooth flowing lines keyed to modern contemporary styling. Beautiful walnut brown suede finish with smart, contrasting aluminized top louvers.

CONSTRUCTION — All-welded, heavy gauge steel cabinets with seamless, die-drawn louvers and supporting legs. Finish is electrostatically applied to bonderized undercoating. Radiant model has protective Pyrex glass front and new stainless steel radiants.

EFFICIENCY — Extra large area of louvered openings provide maximum heat circulation. Life-long cast iron burners with precision drilled raised ports assure uniform heat flow. New, self-latching valve promotes safe operation.

VALUE — You'll be pleased with the low prices of these big capacity heaters. They are unquestionably the easiest to sell profit makers in the field today. Both models are supplied complete with Natural and L.P. Gas orifices.

**Priced low for hard-hitting
seasonal promotion!**

ASSORTED COLOR BANDS

Real Point-of-Sale Impact!

Distinctively different and new in design and performance. Smart, modern "barrel" shape. Beautiful, all-white finish with colorful center bands that smartly complement any room decor. Priced LOW to give dealers an outstanding promotional value. Packed in artistic DISPLAY-SELL boxes that make eye-catching window and counter displays. A real sales winner! Shpg. Wt. (4 in carton) 16 Lbs.

Suitable for Bathroom, Den, Utility or Rumpus Room, Workshop, etc.

PLUS THESE ADDITIONAL FEATURES:

FUNCTIONAL DESIGN—Unique new "barrel" shape produces increased heat circulation—requires least amount of floor space. Smooth, all-enamel finish. Easily wiped clean with just a damp cloth. No sharp corners.

WARMING TOP—Exclusive, new louvered top permits placing utensils on heater with no danger of snuffing out flame or stopping free circulation of heat into room. A real convenience for heating water, warming baby's bottle, etc.

HIGH HEAT OUTPUT—Easily heats up to 650 cubic ft. area in zero weather. New design principles assure complete combustion and maximum efficiency.

QUALITY CONSTRUCTION—Heaters are sturdily built of heavy gauge steel with protective inner lining that safeguards floor temperature. New type, extra-efficient stainless steel burner. Lifetime porcelain enamel upper section. Provides years of low cost, trouble-free service.

Peerless GAS CONSOLE HEATERS

WITH COUNTER FLOW HEAT (OPTIONAL)

— FULLY VENTED —

The answer to countless heating requirements . . . problems easily solved by a single or multiple installation.

Directional Top Louvre Models
Plain Front Styling Radiant Front Styling

Spicy Silver — Tan baked-on Enamel with
louver in contrasting Brown Porcelain Enamel.

VC-50 Series

RVC-65 Series

A.G.A. Approved

For Natural, Mixed, Manufactured and LP Gases

UNSURPASSED PREFERENCE BY CONSUMERS—Peerless again sets the style trend in Gas Heaters . . . with the sales proved stimulating styling that is truly a triumph. In combining the most desirable features of contemporary design with maximum heating efficiency Peerless provides today's greatest value in Gas Console Heaters . . . and true sales leaders the Nation over.

GREATER HEATING ECONOMY—True heating economy is assured as Peerless has the most features that combine to afford peak operating efficiency. Automatic temperature controls achieve additional economy. Peerless utilizes to the maximum proved scientific principles, engineering achievements and modern production equipment to attain the ultimate in peak efficiency, operating economy and cozy comfort in free circulating warmth.

COUNTER FLOW BLOWER ATTACHMENT—The automatically controlled blower is optional equipment that converts gravity circulation to power driven counter-flow heating. Attached quickly and easily. A very desirable feature especially in large rooms with 9 ft. or higher ceilings and/or where room size or arrangement of furnishings impairs normal circulation.

A. G. A. APPROVED—All Peerless Vented Heaters carry the full approval of the American Gas Association for use on Natural, Mixed, Manufactured and Liquefied Petroleum Gases.

CONTROLLED AIR FLOW—Peerless Designed Directional Top Louvers on the Consoles are individual Vanes . . . NOT the customary slots stamped in steel or plain expanded metal. These Directional Vanes are designed for the least restriction . . . for better circulation . . . designed to direct the flow of hot air at an angle forward

into the room and NOT upward toward the ceiling — assuring cleaner walls and comfort through-out the room.

SILENT EFFICIENT BURNER—One piece cast iron burner. ONLY one burner to each Heater—no multiple burners—no adjusting difficulties—no disturbing noises. Always "on" and "off" silently. Proven peak efficiency and quiet operation. Burner flame is even across its entire length thus uniform distribution of heat in the combustion chambers.

GAS-TIGHT HEATING SECTIONS—The entire Heat Exchanger including Connecting Tubes are seam-welded—NOT spot welded or bolted—into a one-piece unit that is positively gas-tight and leak-proof. Streamlined design adds more square inches of heating surface per BTU input. Scientifically located expansion ribs prevent warm-up noise and add to strength and uniformity.

OPTIONAL VENTING—All Console Models offer optional venting—either horizontal or vertical—without additional expense. All Consoles are shipped from factory with Vent in vertical position—can be changed to horizontal position in seconds. The Consolelette has horizontal vent only.

LARGER ACCESS DOOR—New wide access door provides convenient access for easy lighting . . . plus the full open lower back area AND LIFT OUT TOP LOUVER for unlimited access for easy cleaning and service if ever necessary.

AUTOMATIC CONTROLS—Positive automatic safety pilots and automatic temperature controls are available for all models for use on all gases.

CEILING SUSPENDED GAS HEATERS

PEERLESS

COMPLETE WITH T-86A THERMOSTAT

Natural, Mixed, Manufactured and L. P. Gases
(Type of gas to be specified)

Hangers—Sturdy hangers are standard pipe welded to heating unit—not to the cabinet.

A. G. A. Approval—This entire line carries the full A. G. A. Approval, which assures utmost safety and efficiency.

Heat Exchanger—Heavy gauge aluminized steel is corrosion resistant. Die-formed and electrically seam-welded. Tubes are streamlined shape. Easy to clean if ever necessary. Highly efficient. Dimpled sides prevent warm-up noise.

Operation—Any suitable manual switch can be used for manual operation, or thermostat for automatic temperature control.

Burners—Burners are heavy wall cast iron with precision drilled ports. Ports are scientifically arranged permitting air to surround each individual flame and lower burner temperature. Less port plugging and better heat distribution.

Fan—Consists of multi-bladed, dynamically balanced, true air foil form, moves air efficiently and quietly.

Fan Guard—Is designed to provide the maximum protection with the minimum restriction to air movement. Is connected to the cabinet, not to the motor or motor mount. No annoying vibration.

Access Door—Door on side panel for lighting pilot and for observation. Spring catch holds door securely closed.

Draft Diverter—Built-in and conserves space. Assures proper burner operation. Flue connection is oblong shape thus achieves minimum unit height with maximum clearance under heater.

Burner Manifold—The burners and manifold are rigidly mounted to insure correct alignment. This assembly is mounted on the bottom panel which swings-down for unobstructed and free access to burners, manifold and tubes. Easy to service and adjust. Easy to clean.

Manual Shut-off Valve—Valve is furnished but not mounted. Proper location permits heater to be removed without interruption of service to other gas appliances.

Horizontal Louvers—Adjustable air discharge louvers at front allow warm air to be directed to selected areas for the most effective control and distribution. Vertical louvers are available if desired.

Motor—Standard single phase for 110 volts, 60 cycle current. Resilient mounting assures quieter operation. Thermal overload protection insures longer life.

Motor Mounting Base—Heavy gauge steel support base is securely bolted to the side plates of the heating section. Motor is secured to this sturdy base—not to fan guard.

Electrical Connections—All controls and motor completely wired at factory. Ready for power supply.

Pressure Regulator—Maintains uniform gas pressure to burners, regardless of variation in line pressure. (Not furnished on L. P. Gases).

Low voltage unit heaters are equipped with 24 volt solenoid valve, transformer, and 25 feet of thermostat wire. The Minneapolis-Honeywell T-86A (0.18 to 0.35 ampere heat anticipator) low voltage thermostat is shipped in a separate carton unless otherwise requested.

The low voltage thermostat wire, supplied with each unit heater, is used from the thermostat to the unit heater eliminating expensive conduit and in many cases electrical inspection.

The low voltage unit heater with thermostat costs very little more than the line voltage unit heater with thermostat. Many times this cost is saved at the time of installation.

Automatic Pilot Safety Device—Shuts-off supply of gas to main burner in event the pilot flame becomes too low or is extinguished. (On L. P. Gas the Pilot is also shut-off in event of pilot failure.)

Thermal Limit Control—Scientifically located to provide maximum protection against excessively high unit temperature.

Cabinet—Die-formed and modern design in Silver-Tan baked enamel finish.

Bottom Inspection Panel—Easily removed for quickly checking burner operation and characteristics while unit is in normal operation. Free access for making adjustments if needed.

Operates on A. C. 110 Volts—Low Voltage Controls

GAS WALL HEATERS

CIRCURAY

A panel wall heater that can be easily installed in almost any kind of wall construction. Fits between studs (16 inch on centers) in wall 4 inches or more in thickness. Occupies no floor space and requires no floor cut-out. May be used as a supplement to present heating system or as a complete unit with directional heat control.

Outer jacket is 17 $\frac{3}{4}$ inches wide and 62 $\frac{3}{4}$ inches high. Combustion chamber coated with high temperature porcelain enamel coating. Vented at the top. Oval vent pipe is concealed within the wall.

Exchanger is suspended inside the heater jacket. Cold air flows into the bottom grille and warm air is discharged through the top grille into the room. Removable bottom grille for easy access to gas controls and burner.

With blue flame pilot, base 100% safety valve. Pressure regulator (for Natural and Manufactured Gas).

HEATING AND COOLING CONTROLS

Minneapolis-Honeywell

THERMOSTATS

Round Series 80—55 to 85° F. Range
SPST Switch

Two-wire low voltage temperature control. Adjustable to both series 80 and 10 applications. Temperature selector and thermometer scale in one easy-to-read dial. Mercury switch. Adjustable heater provides on-off regulation of most primary controls.

Manual differential approximates 1.5° F. Low voltage AC only (30 volts maximum). Heater adjustable for 0.35 to .08 amperes standard. Diameter 3 1/4 inches. Depth 1 1/2 inches. Diameter adaptor plate 5 inches.

Each \$12.95
R-T86A-E X9D71.....
One in box. Wt. box 1/4 lb.

Round Day-Nite—50 to 80° F. Range
SPST Switch

Two-wire low voltage temperature control. May be manually set to maintain lowered temperature (11 hours maximum) with a return to normal control. Built-in heater cycles burner for constant room temperature.

1.5 ampere rating at 30 volts AC maximum. Diameter 3 3/4 inches. Depth 1 1/4 inches.

Each \$27.95
R-T832A-E X20D96.....
One in box. Wt. box 1/4 lb.

Round Series 80 Cooling—55 to 85° F. Range

Two-wire, low-voltage temperature control with "Cooling Anticipation"—operates to close circuit on temperature rise. Can be connected to panel with Q405 subbase for complete control of cooling equipment or used in a system for change-over to separate heating thermostat. Mercury switch. Non-adjustable heater matched to thermostat cooling current range.

Differential approximately 1.5° F. Cooling current range 0 to 0.8 amperes standard. 1.5 ampere rating at 25 volts AC maximum. Diameter 3 1/4 inches. Depth 1 1/4 inches.

Without Subbase

Each \$12.95
R-T87C-E X9D71.....

GAS APPLIANCE CONTROLS

Adatrol Pilotstat Manifold
For All Types of Gases

Sturdy, cast-aluminum body incorporates main-gas and pilot-gas manual shut-off cock, pilot gas adjustment screw, complete automatic shut-off mechanism and a place for addition of thermostatically-controlled operator. Equipped with integral pressure regulator with leak limiter. Compact design requires only two pipe connections for manifold installation. Field serviceable with screw driver.

Available in 3/8 inch, 1/2 inch or 3/4 inch inlet by 3/8 inch outlet sizes.

(Specify Size)

Each \$16.30
+C596A-E X12D23.....
One in box. Wt. box 1 1/4 lbs.

Adatrol Valve Operator
For All Gases

Low-voltage (24 volts) valve operator designed to give wall thermostat control and quiet automatic operation to space heaters with C596 or C592 Adatrol Pilotstat Manifold. Valve disc sealed in special "saddle seat" at factory—fits tightly against machined surface in Pilotstat body to make a gas-tight seal.

Each \$19.85

easily adjustable to any desired position — makes possible **SPACE SAVER PACKAGE** with sensational savings!

**TWO ELBOWS PACKED
WITH EACH 25 JOINTS
OF  SNAP-LOCK
OR EASY-LOCK PIPE**

Cuts ELBOW COST $\frac{1}{3}$

***Saves 37½%
Storage Space...***

THE NEW WAY TO BUY STOVE PIPE AND ELBOWS

With skillful engineering and specially built equipment, JACKES-EVANS has developed an entirely new type of universal joint or elbow that will not bind while being turned. Definitely outnodes all previous types. Swivel joints are absolutely smooth and permanently interlocked. Seams are electrically welded. Unsightly rivets and bulges are eliminated.

Because of their new, improved, design, these elbows are readily adjustable to any desired position and make possible new methods of packaging and shipping. Two elbows are packed in each carton of 25 joints of regular SNAP LOCK or EASY LOCK pipe. Extra elbow cartons are thereby *eliminated*! You save the difference . . . reduce handling costs . . . and cut required storage space by 37½%!

Available only in 6" dia. pipe and elbows (at present)

STOVE PIPE and ELBOWS

... in St. Louis Blue Tempered Steel

"J-E" Improved SNAP LOCK and EASY LOCK Stove Pipe are made of famed St. Louis Blue Tempered Steel. Crimped ends have an inward roll at top that makes it easy to assemble pipe sections. This crimp also fades into the body of the pipe unevenly, thus insuring an ever tightening fit as the joints are pushed together. This is an exclusive Jackes-Evans feature.

Pipe can be cut to any length desired, without destroying the lock. Joints are available in three strengths of steel in standard 24" length and in half lengths, as indicated in the table below. Taper joints are crimped on smaller end. Damper joints are pre-punched for easy damper assembly.

Self-Locking

SNAP LOCK

Entirely self-locking. Requires no tools to assemble. Edge on right side is slipped into groove on left side and pushed together until joint snaps into place. Stays locked indefinitely. No hammering or riveting necessary.

EASY LOCK

Notched flange at crimped end maintains accurate diameter and helps hold pipe in proper position for easy malleting. When seam has been closed, edges are permanently locked in position and pipe will not expand or contract.

Hammer Lock

PACKED 25 JOINTS PER CARTON

AVAILABLE SIZES AND SHIPPING WEIGHTS (Lbs.) Per 100 Joints — 24" Long

	TRIPLE STRENGTH (28 Gauge)				199*	230*		210

*Also available in HALF JOINTS—Shipping weights approximately 1/2 weight of full joints.

ELBOWS

Made of famed St. Louis Blue Tempered Steel. Precision built on newest and finest type of specially designed equipment. Have exclusive Jackes-Evans design "bald" crimp with an inward roll at top that assures absolutely tight fit and permits easy, fast assembly.

Made in two strengths of steel as indicated below.

CORRUGATED

"J-E" Corrugated Elbows are carefully formed with extra corrugations that provide added strength. By using accurately spaced, pre-located rivets instead of lock seams or spot welds, an exact diameter is assured after the elbow is formed.

ADJUSTABLE

"J-E" Adjustable Elbows can be easily and quickly turned to any angle. Their improved double-bead construction gives added strength and prevents the elbow sections from coming apart.

GALVANIZED PIPE and BUILDERS SPECIALTIES

Precision made—from Special Tite-Coat Galvanized Steel

New design crimped end with inward roll allows joints to fit together easily. Crimp also fades into body of pipe unevenly, thus assuring an ever tightening fit, the more the joints are pushed together. This is an exclusive Jackes-Evans feature. Available in both Stove Pipe and Furnace Pipe sizes.

SNAP LOCK

Improved "J-E" self locking design. Easily and quickly assembled without tools. Locks tight and stays tight. No hammering or riveting necessary.

EASY LOCK

Notched flange at crimped end maintains accurate diameter and helps hold pipe in proper position for easy malleting. Pipe cannot expand or contract after seam has been closed.

HUMIDIFIERS
GENERAL

"Moisture-Matic 800"

Easily Installed in Furnace Plenum
Automatic—Clot-Free—Compact

Evaporation of pan water directly controlled by heat in furnace heat exchanger—humidity maintained at 35% regardless of thermostat setting. No floats or balanced pans—simple long wearing neoprene diaphragm, chrome-plated valve and totally enclosed valve seat operate the humidifier. Entire unit fits inside furnace plenum except connection for cold water line. Nameplate lifts for visual check of evaporation, water level and plates. Operates on 5 to 150 psi water pressure.

Porous-weave ceramic evaporation plates in special efficient inverted shape design. Stainless steel plate rack holds 15 plates. Integral glass-coated evaporating pan and face plate of extra heavy gauge metal. With tubing.

Each 1 to 5 6 to 11 12 or more Each

BAROMETRIC DRAFT
CONTROL

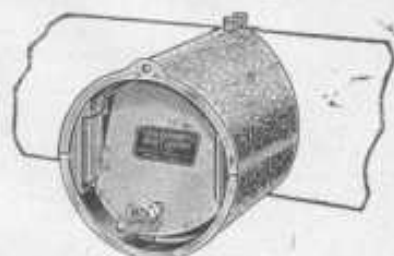

FIELD
FOR FURNACES

Saves Fuel, Gives Greater Heating Comfort and Ease of Mind. Keeps Fire Burning Perfectly with Least Possible Waste of Fuel Regardless of Weather Changes.

The Barometric Pressure Operates the Gate, Maintains the Proper Draft to Carry Smoke up the Flue and Prevents Excess Draft Drawing Heat up the Chimney.

Should be Installed in First Joint of Pipe.

Can be Easily Adjusted to Function in Pipe Erected in Vertical or Horizontal Position. (See Instructions for Installing.)

Galvanized Iron Control Housing. Heavy Iron Housing Ring, with Accurately Balanced Mechanism. Housing 10 inches Long.

For Pipe 7, 8 and 9-inch

Each 81-FD789-E X4D36★ \$6.55
12 or more X4D16★
One in ctn. Wt. ctn. 6½ lbs.

FIELD

This control, when used in connection with hand-operated damper, will hold proper draft regardless of stack temperatures and outside wind velocities. (Not necessary to have hand damper unless strong drafts are encountered.)

Should be installed above the first joint of pipe (not less than 24 inches) and above hand-operated damper.

Control can be easily adjusted to function in pipe erected in vertical or horizontal position. (See instructions for installing.)

Adjustable For Low, Medium or High Draft.

The long stub with operating control makes for more accurate control of drafts as the gate does not fall back into the gas stream.

Rigidly constructed of blued steel—26 gauge tee, 24 gauge ring and gate. Tee is 10 inches long, stub (mechanism housing) 5 inches long.

New

CHIMNEY SWEEP

Fireplace Powder

DESTROYS SOOT... MAKES COLORFUL FLAMES

Entirely New Product Idea!

Now a fireplace powder that makes colorful flames with all the hues of the rainbow all evening long while it destroys soot in fireplace and chimney. Keeps home cleaner, too.

Entirely New Volume Market!

Every fireplace owner (there are hundreds of thousands) will clamor for it, because it's created specifically for fireplace use *only*! It adds glamour and beauty, as it destroys soot. This double appeal means double sales!

Entirely New Package Idea!

Realistic Birch Log Sprinkler Container makes it really easy to sprinkle on burning logs. And it looks terrific in a fireplace setting... in a log holder or on the hearth. Everyone will love it!

- Checks soot before it spreads
- Makes flames sparkle in a brilliant rainbow of colors
- Helps keep flues, chimney and home cleaner
- Helps prevent chimney fires
- Improves draft for a better fire

MAJESTIC CIRCULATOR FIREPLACES

SPECIAL MODEL

A home heating plant in itself. Any mantel design can be built around it. Delivers heat in a constant even flow—to every corner of the room. Cool air drawn in at floor level is heated as it circulates inside the unit and the warm air is expelled through grilles at top of the mantel. Thorough heat distribution with cozy cheer and full employment of an open hearth fire. All metal one piece unit. Scientifically proportioned and designed. Complete with damper, smoke chamber, down draft shelf, smoke dome heavy steel radiant blades solidly welded to firebox back and rock wool.

Can be easily installed in new or old fireplaces.

FIREPLACE GRILLES

For Majestic Circulator Fireplaces

Steel—Antique Bronze Finish

No. 4—SANITARY

Through the use of an ingenious frame or box, that may be built into any type of face construction and in which the grille design of your choice can be placed, complete harmony with any decorating scheme is assured. No screws, pins or clamps are necessary for permanent installation, just force the grille and frame assembly into the metal collar of the grille opening—that's all there is to it. Frame or box is assembled with grille in place at factory, ready for installation in masonry.

to keep sales above par!

COSCO *Fashionfold* **DISPLAY STAND**

● This spectacular stand does a fine job of protecting merchandise by keeping it off the floor. And its eye-level banner draws customers, shows them two table sizes and four upholstery colors. (Swatch folder attached to banner illustrates *all* colors and patterns). Separately, but designed to go together, there's a chair stand that holds two of the handsomest folding chairs on the market *set up*. Floor space? Together, they only take 9½ square feet. Call your distributor now for the point-of-sale powerhouse at less than cost!

COSCO[®]

PORTABLE

Play Pen

● Another great, new juvenile product from the makers of the world's best selling metal high chair and baby jumper. A play pen of tubular steel and nylon net that folds to 4½" flat—even with its own pad. And toys can be left inside, too. Fits a car trunk or stores in the most limited space. What's best, it retails for only \$24.95! (\$26.95, Zone 2)*

COSCO PORTABLE Play Pen

designed to delight children and parents alike

First class traveler, folds to a handy 4 1/4" flat even with its own pad and a child's toys inside.

Sled runners of tubular steel make for easy gliding, greater mobility, indoors or out.

Tubular steel frame is lightweight to handle, rugged enough to last a whole family through.

Strong nylon netting cushions falls, is washable like non-toxic, plastic-covered top railing.

Folds easily and quickly to 20" x 40" size for storage in the most limited closet space.

Center support of steel, from hinge to hinge, strengthens "floor" of pen, prevents sag.

Comes complete with its own springy, washable, plastic-covered pad, printed with animals.

Two-coat, baked-on Bonderized enamel in metallic tan, red or yellow with white nylon net.

20,000 **COSCO** Display Stands
now in use... boosting
store profits coast to coast!

● In all markets, under all conditions, this mighty merchandiser has produced... and produced... and produced! Colorful banner at top illustrates, describes and prices every model... attracts attention, answers customers' questions, reduces selling time. Best of all, it sells the *complete* Cosco line... including models not actually displayed! Sales increases have averaged 24% coast to coast. See your Cosco distributor for full details about the sensational ST-1 Display Stand... and get this live-wire "extra salesman" out on *your* floor right away!

MODEL ST-1 DISPLAY STAND

Occupies less than 12 square feet
of floor space.

1957 ST-1 Banners will be mailed early in January to registered ST-1 holders. If you do not receive yours, write to the factory.

Free sales aids to help you
cash in on **COSCO** leadership!

Easels! Easel-mounted reprints of all Cosco's national advertisements are available, for window or counter display.

Banners! For your window or wall display, Cosco offers a spectacular array of colorful streamers and banners, covering all products.

Colorful Enclosures! To help you plant sales seeds, Cosco offers colorful enclosures selling the complete line. These also make inviting "take one" pieces for your counter. Up to 300 free on request.

TV Film Commercials! A number of twenty-second films are now available, providing for your store identification at the end. Here's a *good* way to put Cosco over in a *big* way!

Die-Cut "Spotties!" They're small, but loaded with sales dynamite! Colorful cards you can place on your counter or on the Cosco products you have displayed.

Radio Commercials! Ready-to-use radio commercials are available, with time provided for your store identification. Fifteen, thirty and sixty second sales messages are available.

Product Labels! Colorful labels and hang tags not only identify every Cosco product, but help do a "silent selling" job as well! Impressive "Buy with Confidence" Seal assures your customers of Cosco quality and value.

SLENDER-CASE

FEATURING NEW AND MORE PRACTICAL

Surface Packing

SLENDER-CASE design employs a new concept of "Surface Packing." Clothing is packed shallow, but over a larger area. This makes packing easier with less folding, and each item is within easy reach without digging through deep piles of clothing. Its slender form is easier to handle since it allows the case to be carried close to the body, reducing arm strain. The new Slender look is fashion's last word in lightweight airplane luggage, truly the look of tomorrow.

VINYL ENSEMBLES FOR WOMEN

Has durable finish that is scuff resistant, weather proof and water repellent to withstand roughest handling. Kept new in appearance by simply wiping clean with a damp cloth. Smartly lined with acetate taffeta in harmonizing pastel shades. Has satin finished solid brass hardware. Train cases have mirror, utility pocket and 4 non-breakable cosmetic bottles.

TOP GRAIN COWHIDE BRIDLE LEATHER

All of the natural beauty of superb Western cowhides has been retained in this custom grade Bridle Leather. Healed over barbed wire scratches, branding iron marks, wrinkles, and scars, which add to the beauty of the hide, can be seen through its transparent weather proof finish. Equipped with custom quality solid brass hardware, and tastefully lined in acetate taffeta, these cases are the ultimate in fashion leather luggage.

STREAMLINE — AIR LUGGAGE IN *Cohyde* VINYL

Streamline luggage, with aircraft inspired curved edges, employs new Slender-Case design. Its slimmer but taller shape allows for "Surface Packing" in which clothing is packed shallow but over a large area. There is less folding and therefore less wrinkling to clothing; no digging to find certain items. New lightweight, streamline shape reduces arm strain when carried. Constructed with "Cohyde" vinyl, a product of the COTAN DIVISION OF INTERCHEMICAL CORPORATION, this luggage will resist wear, clean easily, and is scuff and stain resistant.

Marvalon Adhesive Veneer is the only self-adhering decorative material that does not stretch or shrink — during or after application. This eliminates the most frequent cause of complaints for this type of material. You can safely tell your customers that Marvalon Adhesive Veneer can be applied with a butt edge and does not have to be overlapped.

YES! BEAUTY SELLS...BUT THERE'S MORE

New, Improved Coating and Printing—

While the name is old, the product is new. Blenback Oil Cloth is abreast of the times. It's being made better to last longer, clean easier, stay colorful.

Styled Right—

The best ideas of outstanding designers and fashion experts are evident in every Blenback pattern. They are smart—whether period or modern, conservative or bold. They're right in step with latest decorating trends and decorator demands. All this assures you fast turnover and greater profits.

Display Is Important—

A well-stocked department, kept neat and clean, is an excellent selling force in itself—will repay many times the little effort needed to keep it in top condition. Few items in any store carry as much color, or have as much attention value, as does oilcloth. And, it's easy to display. But, it is often an "impulse item"—must be shown to be sold. Customers must be reminded of their need. There's no better way to remind them and get buying action than by a complete and interesting Blenback display.

And, Don't Forget the Blenback PLUS—

As its name implies, Blenback Oilcloth has an exclusive selling feature—a special color-backing which harmonizes with the predominant color in its face pattern. It's an extra feature which adds to the usefulness and appearance of the goods—permits using both sides.

TWO BRAND NEW BEAUTIES

GOLDEN HARVEST with luscious red and yellow fruits against flecks of captured sunlight shelf cloth to match . . . And **AUTUMN SONG**, in which there's all the radiance of Indian Summer woodlands.

Ask your salesman to show you the many colorings available in these two new patterns.

HOW TO ORDER

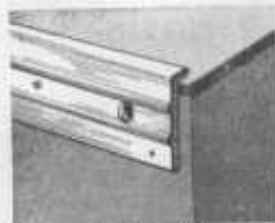

When ordering, specify pattern numbers listed in sample book. Indicate type of goods, widths and quantities.

Basic mouldings to service practically all customer moulding needs. Minimum inventory needed. Ready-to-use—easy to install.

Precision formed of high quality stainless steel. Does not rub off black. Ready cut lengths eliminate cutting in store. No waste to increase costs and decrease profits. For better service and easier installation, each length comes with countersunk holes and machine-cut screws.

The Merchandiser—a store-tested red and chrome display stand—occupies only one square foot of valuable floor space.

BEAUTYTONE**ROTARUS
LUCKY-LINE****FLEXO-MATS****WOOD GRAINS**

The Carthage Mills' story is briefly a story of concentration. Concentration on popular price floor covering—both Roto-Gravure and Enamel Print.

All of the energy—thinking—and ingenuity of our entire work force is directed toward Beautytone—Rotarus—Lucky Line—Woodgrains—and Flexomats.

We believe there are certain points of superiority of more than passing interest that should be brought to your attention.

The Beautytone and Rotarus—Lucky Line tube has an outside cover that is Scuff-Resistant. Most of the “scars” of loading and unloading do not appear on our tubes. Result—a much better looking store package. The tubes are joined with EZ Open Tape. Each tube carries an individual picture of the rug in full color.

Concentration certainly has shown results in pattern and design. We take pleasure in this challenge—to produce the finest and most extensive groups of patterns in the popular price field. For instance—consider the Color Chip in Beautytone, and the Terrazzo in Rotarus, fine examples of spatter-type over-all designs. All of our patterns feature Happy Colors—the brightest, most cheerful colors in the industry. One step further are the Metallics in Rotarus. The only Silver and Gold Metallics in the popular price field.

Beautytone Heavy Weight is realistically priced. In other words—there's a place for Beautytone. Its heavy enamel surface and heavy saturated base make a really marvelous value for any home.

Rotarus—Lucky Line bordered rugs, and by-the-yard, with Radiant Gravure Printing, Plasti-Bar finish and permanent flexibility occupy a unique and apparently most welcome place in the floor covering industry.

KEEN KUTTER POCKET CUTLERY

OUR KEEN KUTTER POCKET KNIVES
Are Celebrated for Their
SUPERIOR QUALITY, STYLE AND FINISH.
They Are Unsurpassed by Any Others.

The Blades are Forged from
THE BEST GRADE OF POCKET CUTLERY STEEL
and are Hardened and Finely Tempered
BY THE MOST SKILLED AND EXPERIENCED CUTLERS.
Every Knife is Sharpened Ready for Use
AND IS FREE FROM FLAWS AND IMPERFECTIONS.

Any Not Proving so, Will be Replaced,
but we Will Not Redeem Knives that are Worn Out
or That Show Abuse, are Rusty or When More than One Blade is Broken.
In Whetting a Pocket Knife Use a Good Oil Stone, Holding the Blade at an Angle
of Twenty Degrees, and Draw Towards You from Heel to Point.
Oil the Joints Occasionally, as they are
Liable to Wear Rough and the Blade Points Protrude.

SHAPLEIGH'S
ESTABLISHED 1843
ST. LOUIS, MO.

*"The Recollection of **QUALITY** remains
long after the **PRICE** is forgotten"*

Our Guarantee

Every Article Bearing the **KEEN KUTTER** Brand is Guaranteed to be Properly Made of the Best Material, Carefully Finished and Inspected and that it Will Perfectly Serve its Intended Purpose.

If there is a Defect in the Steel it Will Break.

If there is a Temper Crack in a Tool, it will Break.

If a Tool or Knife Blade is Not Properly Tempered, the Steel will Show it.

These Things Sometimes Happen, and the **KEEN KUTTER** Guarantee Gives You Full Protection.

... But ...

Abuse, Rust and Misuse will Ruin any Tool; Dry Grinding will Draw any Temper; Prying with a High Tempered Knife Blade will Break it.

Such Mistreatment is Not Covered by any Guarantee—Failure from these and Similar Causes is not the Fault of the Seller.

Abused Tools Tell their Own Story

... and ...

The Abuser Must be the Loser.

Shapleigh Hardware Co.

COSTS FOR IMPRINTING HANDLES AND ETCHING BLADES OF KEEN KUTTER POCKET KNIVES

The information on this page has been compiled as a brief, yet convenient, guide to the additional charges made for imprinting handles and etching blades on gift or advertising pocket knives.

Imprinting can be done on all genuine pearl or smooth celluloid handle pocket knives in the catalog. Lettering is available in gold, black, red, green, blue, and any other solid color that may be desired.

EXTRA CHARGE FOR IMPRINTING ONE SIDE OF THE HANDLE COSTS ARE DOUBLED IF BOTH SIDES OF HANDLE ARE IMPRINTED

1 - 150 pieces.....	D2C0	for each line
150 pieces or more.....	D1C2	for one or two lines
Individual names regardless of quantity.....	D2C0	for each line

The illustration below shows, in actual size, No. S840AK imprinted with the two standard block types that are available for stamping. No die charge is made if either of these types is used. However, if trademarks, special or facsimile letters are requested an additional die must be made and charged at cost. Die costs usually range from \$25.00 to \$100.00, depending upon the intricacy of the design or lettering. Write for quotation.

Note all imprinting is done on the side of the handle without the shield unless specifically requested on the shield side.

All pocket knives shown in catalog with the exception of those with Stag and Pakkawood handles will take imprinting.

LARGE TYPE—STYLE A
SMALL TYPE—STYLE B

On No. S840AK, using the larger type (Style A) a maximum of 30 letters and spaces can be imprinted on one line. The smaller type (Style B) enables maximum placement of 35 letters and spaces per line. Imprinting the shield side of the handle limits the larger type to 16 letters and spaces to the line, the smaller to 21 letters and spaces per line. To safeguard the beauty of the knife, we suggest the use of the smaller type whenever two line imprinting is desired.

The number of letters and spaces that can be imprinted per line will vary with the size of the pocket knife. As the two standard sizes of types are illustrated in full actual size, it is possible to determine fairly accurately how many letters and spaces can be placed on any handle by taking the dimensions of the knife from the catalog description, drawing an outline of the handle, and pencilling in the words to be imprinted.

EXTRA CHARGE FOR ETCHING ONE SIDE OF THE BLADE.

Regardless of quantity.....	D2C3	for each line
-----------------------------	------	---------------

Etching can be placed on the underside of the large blade without changing the regular Keen Kutter trademark or the brand name can be omitted and the special etching put in its place. There is no die charge if standard block type is used. For facsimile lettering or trademarks a special die must be made and charged at cost. Write for quotation.

Individual gift boxes are available at an additional charge of D0C7 each and plastic purses—D0C5 each. A box or purse is recommended as the perfect finishing touch to a beautiful gift or advertising pocket knife.

Please Allow Four to Six Weeks on Each Imprinting or Etching Job.

KEEN  KUTTER. **SHEARS****Forged Steel**

Forged steel blades have perfect cutting edges, cut clean and easy from joint to point. Blades are uniformly tempered, carefully ground and set. Both bows fitted. Will not tire or cramp the hands. Patented screw and nut insure perfect adjustment, greater cutting ease and longer service.

U. S. Patent
No. 226, 128

Patented screw and nut consists of a right and left hand screw, and a left hand nut. The main screw holds the blades together. The left hand threaded end of the screw extending through the shears with left hand nut attachment. Makes it impossible for the blades to work loose.

KEEN KUTTER HAMMER FORGED KNIVES

D4C0%

Forged from single bars of high grade crucible steel, shaped, tempered and hand ground under water to a keen cutting edge. The upper portion of the blade is left just as it comes from the forging operation with cutting edge polished.

Handles have embossed and gold filled letters, secured to tang with large brass saw rivets.

They are guaranteed both as to material and workmanship and recommended for professional, farm, and home use.

HAMMER FORGED KNIVES**Excellent Quality**

A new idea in hammer forged knives. Forge plainly shows, but high polish on knives eliminates all black marks from blades. On each handle is a metallic raised shield trade mark.

Handles of beautiful highly polished rosewood, round shaped to fit the hand perfectly, fastened with three brass compression rivets.

A very beautiful line of cutlery, for the home as well as professional use.

VACUUM BOTTLE STOPPERS

SNAPTITE

Adjustable—A turn of the lever to the right or left increases or decreases size of stopper and tightness of fit.

Leak-proof—Seal is air-tight. No leakage of liquid or carbonation. Air-tight seal holds temperature longer, too.

Sanitary—Easily cleaned. Stopper imparts no taste and preserves the original freshness of food and drink.

Rust-proofed—Made of high grade rubber, stainless steel and other rust-proofed materials.

Convenient—Snaps on and off in a jiffy. Once adjusted, can be used over and over again without further adjustment.

Fits Thermos 10-oz., pint and Quart Spoon-Mouth Vacuum Bottles.

VACUUM BOTTLE STOPPERS

SNAPTITE

Adjustable—A turn of the lever to the right or left increases or decreases size of stopper and tightness of fit.

Leak-proof—Seal is air-tight. No leakage of liquid or carbonation. Air-tight seal holds temperature longer, too.

Sanitary—Easily cleaned. Stopper imparts no taste and preserves the original freshness of food and drink.

Rust-proofed—Made of high grade rubber, stainless steel and other rust-proofed materials.

Convenient—Seals on and off in a jiffy. Once adjusted, can be used over and over again without further adjustment.

Fits Thermos 10-oz., pint and Quart Spoon-Mouth Vacuum Bottles.

PRICES ACCUMULATIVE

Prices on repeat orders only will be based on accumulative price earned by totaling latest order with quantities of previous orders.

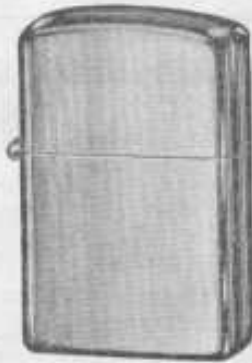

Minimum orders may be as low as 50 lighters when merely "A block letter, company name or inscription is desired using standard block letter type."

For quantity purchase of 1,000 or more lighters with company name or trademark. WRITE FOR INFORMATION. For individual lighters with either signature or initials there will be a charge of D6C0 per lighter, one piece or more. If less than 50 are required, write for quotation.

Allow 3 to 4 weeks for imprinting jobs. Sample will be submitted for approval.

NOTE: Prices on Zippo Lighters include manufacturers excise tax.

NUT SHELLER**YORK****"Texan" Model**

Shield prevents shell scattering. Clips off shell, leaving nut meats whole.

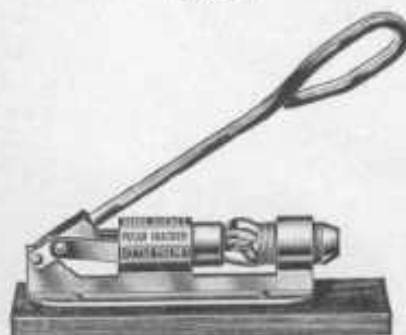

Cutting teeth of finest steel, polished aluminum handles that "fit your hand."

Boxed in beautiful gift box.

(York)**Right Hand**

Each **S1731A X2D63★** Each \$3.95

One in box. Wt. box 5½ ozs.

NUT CRACKERS**REED'S****Rocket**

Precision machined, all steel construction, mounted on beautiful hardwood base.

Nut meats are left intact and eliminates use of nut pick.

Lends commercial speed to formerly tedious job. Prepares nut meats as needed—insures freshness.

Each **S1737A X2D65★** Each \$3.75

12 or more **X2D50★**

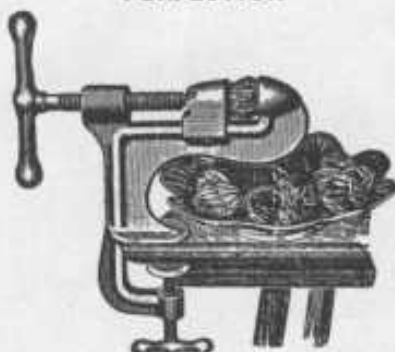

One in box. Wt. box 1 lb.

NUT CRACKERS**SQUIRREL**

Especially adapted for pecan nuts. Has a capacity of 100 lbs. per day. It also cracks Brazil nuts, filberts, English walnuts and almonds. Made of aluminum alloy. Strong and durable. Bright finish. Length of frame 5¼ inches. Height of frame 4½ inches. Length of handle 7¼ inches.

Each **S1733A (S300) X2D80★** Each \$4.25

One in box. Wt. box 1 lb.

PERFECTION

The perfect nut cracker. Will break Brazil or other hard nuts with comparative ease. Made of malleable iron. Tin plated and polished. Length 6 inches. Height 9 inches.

Each **S1730A (P) X1D95★** Each \$3.00

One in box. Wt. box 1 lb.

VINDEX

Very practical. Cracks nuts without crushing the kernel. For pecans, English walnuts, almonds, filberts and Brazil nuts.

Steel construction throughout, cadmium plated. Screw has deep powerful thread and tee handle.

Size of case 2¼x3½ inches, tee handle 3½ inches long.

Each **S1734A (174NC) D5C3** Each \$0.75

One in box. Wt. box ½ lb.

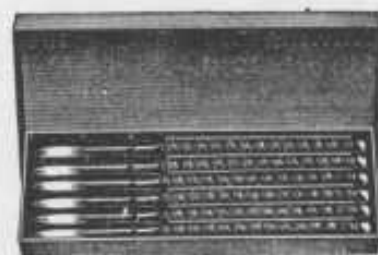

STAR ★ DENOTES BEST SELLER**NUT CRACKERS**

Nickel plated nut crackers. Will match No. 270½ picks or No. 272½ sets.

Each **S1728A (F½) D1C5★** Each \$0.25

Twelve in box Wt. box 4 lbs.

Sold Only in Full Boxes

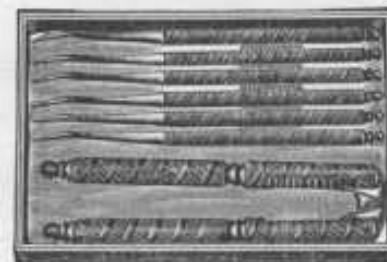

NUT PICK SETS

Six nickel plated nut picks, put up in white glazed paper box.

Per Set **S1735A (270½) D2C0★** Per Set \$0.30

One set in box

Twelve sets in ctn. Wt. ctn. 3 lbs.

NUT PICK AND CRACKER SETS

One cracker and six picks. Nickel plated. Round handles. Length of cracker 5 inches. Length of picks 5½ inches.

Per Set **S1736A (272½) D3C7★** Per Set \$0.40

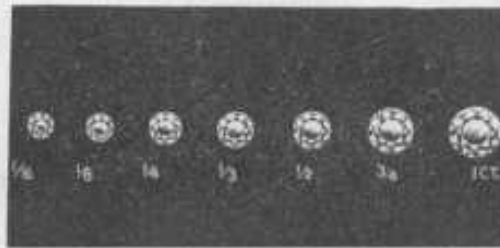

One set in box

Twelve sets in ctn. Wt. ctn. 6½ lbs.

DIAMOND RINGS

HALLMARK

Diamond Weights

A carat consists of one hundred units commonly called points or hundredths of a carat. For example, the No. 5808HR diamond is described as a 75/100 carat diamond or 75 points.

Hallmark Diamond Quality

The diamonds used in Hallmark Rings are all fine, blue-white stones, accurately cut and checked carefully for purity.

All center diamonds used in Hallmark Diamond Rings are full cut with 58 facets. The majority of the side diamonds are single cut with 11 facets. However some of the side diamonds are also cut with 58 facets.

Ring Size

Be sure to include size of ring on each order

For proper way to measure finger, see Section 22—Page 92-CC.

Notarized Appraisal

Each Hallmark diamond ring is accompanied by a notarized insurance appraisal showing weight, grade and color of diamonds and the quality of ring mounting.

TRADE-IN PROTECTION

Any Star of Glory center diamond will be accepted, at any future time, as a trade-in on a higher priced diamond ring, allowing the then currently listed price, less taxes.

Hallmark Safeguards Your Investment

Your investment in Hallmark diamonds is protected in these very important ways: (A) Your money is refunded if you are not satisfied for any reason. (B) Notarized Insurance Appraisal tells you exactly what you are buying. (C) Trade-in protection assures full market value of center stone at time of trade. (D) Possessors of Hallmark diamond rings may return them to us at any time for free inspection, cleaning, polishing and tightening without any charge whatsoever. (E) Nationally known, reputable manufacturer guarantees the quality and workmanship of each ring.

Each ring is beautifully gift boxed

How to Measure Ring Size

If you don't know your ring size, cut a strip of stiff paper as shown—wider at one end. Slide a comfortable fitting ring down over the narrow end as far as it will go without forcing or bending the paper. Draw a line where it stops on both sides of the ring and send the strip to us. If you do not have a ring, wrap a narrow strip of paper snugly around your finger. Cut the paper so that the ends meet. Send us the paper when ordering your ring. Or send for free ring size measuring cards without cost.

How to Measure Ring Size

If you don't know your ring size, cut a strip of stiff paper as shown—wider at one end. Slide a comfortable fitting ring down over the narrow end as far as it will go without forcing or bending the paper. Draw a line where it stops on both sides of the ring and send the strip to us. If you do not have a ring, wrap a narrow strip of paper snugly around your finger. Cut the paper so that the ends meet. Send us the paper when ordering your ring. Or send for free ring size measuring cards without cost.

1624GR1250 Ret. \$37.50

Large, iridescent cultured pearl, set in simple solitary splendor in a neat ring of solid 10K yellow gold. Hand-polished.

1625GR975 Ret. \$29.35

6 fiery diamonds embrace a large, lustrous cultured pearl in a magnificently styled ring of 10K white gold. Hand-engraved.

1626GR2225 Ret. \$96.75

2 glowing cultured pearls and 6 genuine diamonds in a ring of 10K yellow gold with engraved white gold trim.

1627GR2525 \$105.75

How to Measure Ring Size

If you don't know your ring size, cut a strip of stiff paper as shown—wider at one end. Slide a comfortable fitting ring down over the narrow end as far as it will go without forcing or bending the paper. Draw a line where it stops on both sides of the ring and send the strip to us. If you do not have a ring, wrap a narrow strip of paper snugly around your finger. Cut the paper so that the ends meet. Send us the paper when ordering your ring. Or send for free ring size measuring cards without cost.

GUARANTEES

— ON —

CLOCKS AND WATCHES

ALL WATCHES AND KEY WIND ALARM CLOCKS
CARRY A 90 DAY GUARANTEE
AGAINST DEFECTS ONLY.
ON ALL ELECTRIC CLOCKS
A ONE YEAR GUARANTEE APPLIES

All clocks and watches except obsolete models in need of repair should be returned direct to the manufacturer whose name appears on the clock or watch dial. The clock or watch will be repaired and returned to the dealer.

Because of regulation regarding the sale of second hand merchandise it is necessary for the factory to indentify a repaired timepiece as having been repaired. For this reason it is not advisable for a retailer to make an immediate exchange with a new timepiece from his stock.

Where a retailer finds a defective timepiece in his stock that has never been sold to a user, he should return it to the factory marked "STOCK" and they will, if their inspectors report agrees with his report, send a replacement that is in salable condition.

No clock or watch owner should be encouraged to return for repairs any item that has outlived a reasonable lifetime expectancy.

Salesmen—

Please note that the above states the exact situation with ALL manufacturers and no exceptions should be made.

Be sure to explain to those of your customers who are interested and put them on guard against promising any other action.

NEW Sunbeam

Electric
Clocks

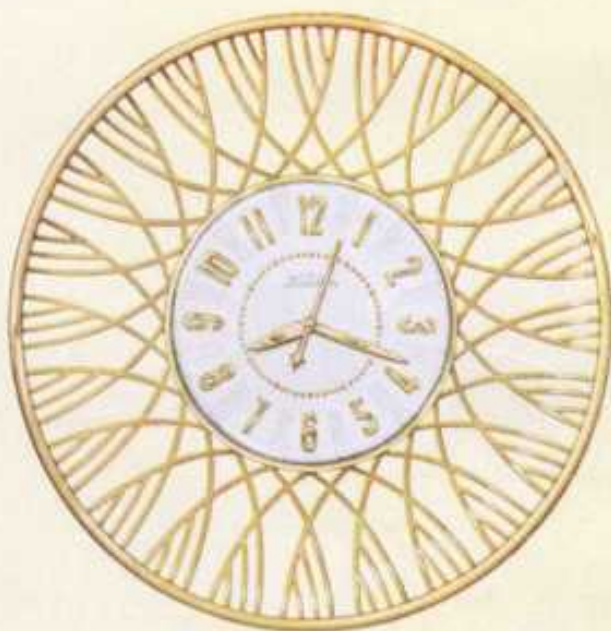

It's Sunbeam Time

Model A502 Decorative Wall Clock Retail \$17.50

Contemporary styling in natural finished cherry wood veneer. Polished brass outer ring with matching gold color bezel, top handle and hands. White dial with clear black Arabic numerals. Clock is $11\frac{1}{2}$ " in diameter, $13\frac{3}{8}$ " high including loop handle, and $2\frac{1}{4}$ " deep.

DECORATIVE WALL CLOCKS

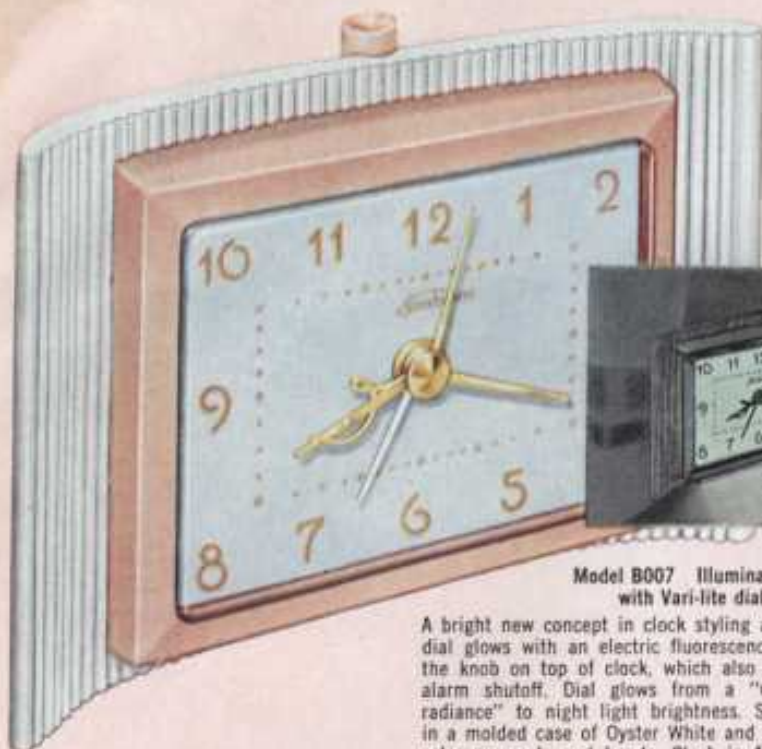

Model A501 Decorative Wall Clock Retail \$12.95

Polished brass color filigree circle with white center and dial. Raised gold color Arabic numerals with matching hands. Clock is $13\frac{1}{2}$ " in diameter and $2\frac{3}{8}$ " deep.

Model A500 Decorative Wall Clock Retail \$29.95

Beautifully crafted American traditional styling in rich, solid mahogany wood with Brown mahogany finish. Dial is polished brass engraved and decorated with black etched Roman numerals. Enameled black hands. Size: $12\frac{1}{4}$ " square, $2\frac{1}{4}$ " deep.

Model B007 Illuminated Alarm Clock
with Vari-lite dial Retail \$11.95

A bright new concept in clock styling and design. The dial glows with an electric fluorescence controlled by the knob on top of clock, which also is a convenient alarm shutoff. Dial glows from a "whisper of soft radiance" to night light brightness. Styled for today in a molded case of Oyster White and Beige with Gold color numerals and hands. Clock is 4 1/2" high, 6 3/4" wide and 2 3/4" deep.

Model B001 Alarm Clock

Petite in size — big in features. The smartly styled molded case is only 3" high, 3 1/2" wide and 2 1/4" deep. The dial designed for easy reading has extra legible numerals in contrasting colors. Gently insistent alarm sounds for at least a half hour or until turned off.

Model B001 Ivory Gold dial with debossed Charcoal numerals and hands. Retail \$4.98

Model B001 Pink White dial with debossed Charcoal numerals and hands. Retail \$4.98

Model B001-L Ivory Luminous hands and hour dots on Charcoal dial with embossed Gold numerals. Retail \$5.98

Model B001-L Pink Luminous hands and hour dots on Charcoal dial with embossed Gold numerals. Retail \$5.98

BEDROOM ALARM CLOCKS

Model B005 Wood Case Alarm Clock Retail \$11.95

Modern design in a solid wood case with natural finish. Unique polished brass bezel with top handle and feet of matching gold color. Silver colored dial with contrasting Black numerals. Gold color hands match the bezel, feet and top handle. Size: 4 1/2" high, 5 3/4" wide, 2 1/4" deep.

Model B005-L Luminous hands and hour dots. Retail \$12.95

Model B003 Top Shutoff Alarm Clock

Modern style wraparound dial and crystal molded case. Polished brass top shutoff button for added convenience. Soft pastel colors in keeping with the modern trend to make this an attractive addition to any bedroom decor. Size: 3 3/8" high, 5 1/4" wide and 2 1/4" deep.

Model B003 Ivory Dawn Blue dial with Ivory numerals and hands. Retail \$6.98

Model B003 Beige White Rice dial with Brown numerals and Polished Brass hands. Retail \$6.98

Model B003-L Ivory Luminous hands and hour dots on Dawn Blue dial with Ivory numerals. Retail \$7.98

Model B003-L Beige Luminous hands and hour dots on Brown dial with Ivory numerals. Retail \$7.98

Model B004 Modern Wood Case Alarm Retail \$9.98

Modern styled wood case in Brown mahogany finish with polished brass bezel. Gold finish dial with raised contrasting brown numerals and hands. Size: 4 1/4" high, 5 1/4" wide and 2 1/4" deep.

Model B004-L Luminous hands and hour dots. Retail \$10.95

ALARM AND OCCASIONAL CLOCKS

Model B006 Wood Case Alarm Clock Retail \$10.95

Slim, modern design case with fruitwood finish. Molded Silver color overlay with classic fleur de lis pattern and bright Gold color numerals. Gold lacquered dial with contrasting Black hands. Size: $4\frac{1}{4}$ " high, $6\frac{1}{4}$ " wide, 2" deep.

**Model B008 Occasional Alarm Clock
Retail \$34.50**

The very ultimate in clock design and craftsmanship. The crystal clear case assumes and accents the colors of its surroundings. The gracefully formed oval bezel and hands are polished gold color with brushed silver dial and applied gold plated hour markers. This SUNBEAM clock has the added convenience of gentle pleasant voiced alarm. For the home or as a gift the choice of this clock reflects excellence in good taste. Size: $4\frac{3}{8}$ " high, $7\frac{3}{8}$ " wide, $2\frac{1}{8}$ " deep.

Model A300 Occasional Clock Retail \$22.95

Classic French Provincial styling crafted in solid wood with rich Fruitwood finish. Gold plated applied numerals with matching gold color hands on brushed silver dial. Size: $5\frac{1}{4}$ " high, $6\frac{3}{4}$ " wide, $2\frac{3}{4}$ " deep.

Model B009 Occasional Alarm Clock Retail \$19.95

Contemporary design wood case with beautifully antiqued Fruitwood finish. Gold plated bezel and feet with matching gold finish hands. Dial is a soft silver finish with contrasting clear Black numerals. Size: $5\frac{3}{4}$ " high, $7\frac{3}{8}$ " wide, $2\frac{1}{8}$ " deep.

BEAUTIFUL KITCHEN CLOCKS

Model A001 Kitchen Wall Clock Retail \$4.98

Molded Case in bright new colors—Red, Yellow, Turquoise, Pink and White. All with raised, contrasting color numerals and hands. Compact size in convex shape for greater visibility. Size: 6½" in diameter, 2½" deep.

Model A002 Kitchen Wall Clock Retail \$6.50

A crisp new concept in kitchen clock design and color styled and crafted for modern kitchens. Molded cases in 5 sophisticated colors—Suede Brown, Slate Blue, Adobe Red, Sand Gold and Turquoise. Hands and raised numerals are contrasting colors. Size: 10" wide, 6½" high and 2½" deep.

COMMERCIAL CLOCKS

Model C004 Office and Commercial Clock

Slim and modern. Case only 1½" deep, hugs wall for greater visibility over wider angle. Crisp White dial with sharp Black numerals and hands. Convenient pendant set and current interruption indicator.

Model C004 - BR (Bronze) 12" dial, 13½" case Retail \$13.95

Model C004 - CH (Chrome) 12" dial, 13½" case Retail \$15.95

Model C006 - CH (Chrome) 15" dial, 16½" case Retail \$21.95

Model C005 - BR (Bronze) 8" dial, 9½" case Retail \$11.95

Model C005 - CH (Chrome) 8" dial, 9½" case Retail \$13.95

NEW TORQUE-MITE PRECISION MOTOR

The most powerful synchronous motor for its size on the market. The NEW SUNBEAM TORQUE-MITE motor develops more torque per watt consumed and over 25 times the power needed. Always coasting—never overworked with moving parts sealed in oil for extra years of silent service. All these quality features are built into a compactly thin shape which allows the slim modern design found in all SUNBEAM clocks.

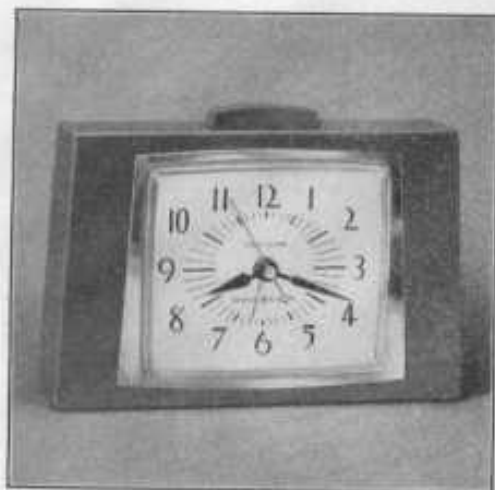

SUNBEAM CORPORATION • CHICAGO 50, ILLINOIS

LUX MINUTE MINDER

Accurately times cooking or other operations, eliminating guess work. A necessity for the home, photographer, beauty parlors, dentists, doctors and for many places in the factory.

To set merely turn the pointer to the time period desired and when the time is up a pleasant sounding bell will call. If time period desired is less than 5 minutes, turn pointer to 5—, then turn back to time desired. Equipped with automatic stop.

Streamlined attractive white plastic case with bright red numerals. Large convenient pointer with stripe trim. Precision mechanism and bell inside. Long insistent ring demands attention.

Each **S2668A** (1928) **X3D85** \$5.95
One in box. Wt. box 1 lb.

TIMERS**PRESTO**

Completely new design, beauty, efficiency and dependability. Simple to operate, a single twist of the large easy to read dial winds and sets it for any interval from zero to 60 minutes. A clear loud bell tone signals when time is up.

Ideal for Presto Cookers or any other cooking or canning, photo timing, egg timing and a general reminder for hundreds of other personal uses.

Bright white plastic dial with charcoal plastic base.

Diameter 4½ inches. Height 2½ inches.

Each **S2680A** (MF01) **X2D60** \$3.98
Twelve in ctn. Wt. ctn. 9 lbs.

MIRRO

Requires no winding, just set pointer. Gleaming white plastic face with red numerals. Spun-ray aluminum outside finish.

AUTOMATIC TARGET PISTOLS

HI-STANDARD

Trigger—Forged steel.

Hammer and Sear—Chrome nickel-molybdenum steel carefully carburized.

Stabilizer—Easily detachable and firmly installed in concentric alignment with the bore cancels out all but hint of barrel jump.

Sights—Micrometer rear sight with oversize, adjustable windage and elevation knobs. Positive sighting system with audible clicks and dependable calibrations. Extra-wide square notched leaf plus under-cut front blade. Serrated ramp.

Firing Pin—Spring loaded, chrome vanadium steel. Tapered and is virtually breakproof.

Supermatic Trophy

Superb hand-finishing inside and out. Custom-adjustable trigger pull, anti-backlash trigger screw adjustment. Double-action safety rebounding firing pin, one piece quick takedown barrel.

10 shot .22 long rifle autoloader. Gold trigger, gold safety button and inlaid lettering.

TELESCOPE SIGHTS

MOSSBERG

Literally revolutionizes shooting. Insures accuracy and increases enjoyment. Eliminates guess work and insures closer shooting.

Four power magnification. Rapid focusing adjustment. Wide field of view, approximately 20 feet at 100 yards. Fine click adjustment for both windage and elevation, give $\frac{1}{4}$ min. adjustment at 100 yards. Medium fine cross hair reticule, .001 inch hairs. Five lens optical system gives good illumination and clear definition without distortion or objectionable color fringe. Cross hair reticule moves in flat plane both horizontally and vertically. External adjustment for obtaining sharp definition of cross hair reticule. Adjustments in mount to compensate for any errors in mounting scope on rifle. Graduation ring (for .22 short high speed and .22 long rifle regular) to give instant elevation adjustments for 25, 50, 75 and 100 yards without changing original adjustment base will fit octagon as well as round surfaces.

Adapted to No. 151 Mossberg Rifle

Length 14 $\frac{1}{4}$ inches.

TIP-OFF MOUNT

WEAVER

The tip-off mount was designed for use with
Weaver model B, and other $\frac{3}{4}$ inch diameter
scopes on 22 rifles having dovetail grooves cut
in the receiver of the rifle. The mount tips into
the dovetail receiver grooves and is clamped to
the rifle by tightening the two coin slotted clamp-
ing screws. Made of steel, polished and gun
blued, it mounts low on rifle.

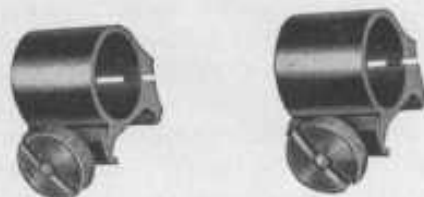

Each **G6137D X1D35** ■ Each
Loose. Wt. each 4 ozs. \$2.00

DETACHABLE SCOPE MOUNTS

WEAVER

Detachable mounts allow the shooter quick
and easy scope removal. Machined from solid
metal that will not wear or work loose from con-
tinued firing. For scopes with $\frac{3}{4}$ or 1 in. diam.

Top Mounts with No. 30 (long, one-piece) Base can be used on some doubles and singles with ribs of sufficient thickness for base screws.

NOTE: Attaching mounts on aluminum receivers is not recommended. Rifles marked * (and older guns in some other models) require altering of bolt handle except with K and J Scopes when the Scope is mounted forward or when N Mount is used in high position.

TIP-OFF MOUNT

For .22 rifles with 3/8" dovetail receiver grooves, including:

Late Savage Models 4, 5, 6, 29.
Late Stevens Models 84, 85, 86 and 87.
Late Winchester Models 61, 69, 72, 74, 75S, 77, 63.
Mossberg Models 142, 142M, 144, 146B, 151K, 151M, 152, 152M.
Late Models 80C, 80DL, 81C, 81DL, 88C, 88DL, 89C, 56.
Late Remington Models 511, 512, 550, 513S, 572.
Harrington & Richardson Model 422.

NOTE—Model B Scopes (like others designed primarily for .22 rifles) have short eye relief and should not be used on high power rifles.

LO-SWING SCOPE MOUNTS

PACHMAYR

Guaranteed to hold zero. Mounts low on receiver and swings to side instantly for use of iron sights.

Built-in latch holds scope into firing position but allows for instant swinging scope out of the way.

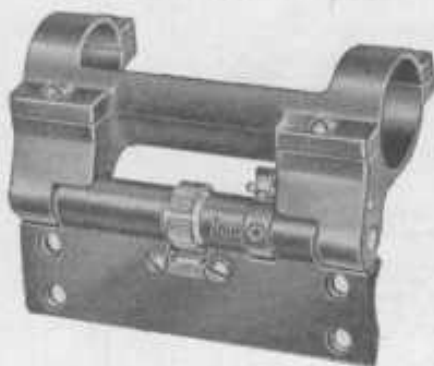

Top clip loading by swinging scope out of the way, then snap scope back in place for immediate scope use.

Rigid—Base is form-fit for all receivers. Contact points between upper and base mount parts are hardened and ground 60° male and female cone. Recoil parallel to bore.

Versatile—The precision of old-fashioned one-piece mounts plus the added advantage of the swing feature.

Will Fit Any Type Rifles

LO-SWING SCOPE MOUNTS

PACHMAYR "TOP"

Top Mounted

Designed for faster installation because it is made to fit factory pre-drilled and tapped receivers. Built-in latch holds scope in rigid firing position, but allows for instantly swinging of scope out of way when iron sights or clip loads are to be used. A simple turn of the knurled finger nut detaches scope.

Perfect alignment. Regardless of how often the scope is swung to the side, or removed, mount always swings back to absolute zero.

Not interchangeable with regular Lo-Swing mounts.

GUN AND TOOL CLOTHS

SILICOTE

Waterproofs and polishes in a single easy application. Prevents finger prints, salt air, salt water corrosion and rust. Provides an impermeable, invisible coat that will not thin, melt or stiffen at any temperature. Leaves no greasy residue or lint.

For use on guns, tools, precision instruments, golf clubs, fishing rods and reels. Will protect any type of surface or material from rust, corrosion or any natural deterioration.

Silicones are produced from silica or quartz sand, and are actually liquid sand or glass, chemically inert and impervious to the destructive forces of nature.

Size of cloth 12x18 inches.

LEATHER CONDITIONER

LEXOL

Restore nourishing oils to genuine leather.

Recommended for cleaning, polishing and preserving all types of leather articles including boots and shoes (all colors), saddlery and harness, golf bags, book bindings and camera, gun, rod and instrument cases and straps, coats, jackets and flying suits.

Will not soil clothing because it is completely absorbed by leather.

Capacity 4 Ounces

Per Ctn. (12) ▲ Each

NEATSFOOT OIL

BLUE RIBBON

Waterproofs and softens all leather goods, such as boots, shoes, harness, leather belting, etc.

Also preserves and adds new life to all leather surfaces.

Easy to use—wash with soap and water or clean with gasoline if necessary—then rub Blue Ribbon Neatsfoot Compound into the pores and let dry.

**COMBINATION PISTOL
HOLSTER AND PAD**

DUPLEX

**For Target Shooters**

When closed the pistol is completely covered and protected by heavy wool lining. When open the lining serves as a pad to lay the pistol on during target practice.

Genuine Tolex plastic leather cloth covering which is stain and scuff resistant, waterproof and easily cleaned. Wool lining. Full length zipper.

Each		(DH)	Each
G4227D	X2D40.....		\$3.00

Loose. Wt. each 8 ozs.

HANDCUFFS

SMITH & WESSON

**Regulation**

Lightweight, all steel construction (only 8½ oz.) but stronger and more rigid than required by regulations. Heat-treated internal parts. Welded chain and cheek. No sharp corners. Smooth operating rotating jaws. Cannot accidentally lock in pocket.

Locks in 19 positions—for smallest to largest wrist. Depressing plunger on rim locks jaws against travel in either direction. Made for right or left hand with keyholes away from hands. Two safety devices prevent picking—key sets double locks or unlocks both handcuffs. Regular nickel finish.

Each **G4158D (D100) X1D20** \$2.00
Twelve in ctn. Wt. ctn. 9 lbs.

DUCK AND GOOSE CALLS**CAJUN**

These Cajun game calls have the same five piece construction as the best hand made calls used by the French speaking Cajun guides of South Louisiana. This design allows the reed and the cedar trough to be adjusted independently for effective tuning.

Two piece hardwood barrel sealed inside and out for moisture resistance. Durable hand rubbed walnut finish. Special impregnated treated red cedar inner wooden parts, will not change shape or become rough when wet and prevents tone changes due to dampness. Cedar wedge holds the hard rubber reed and trough in the inner barrel so that the whole unit can be removed from the outer barrel without disturbing the adjustment of the reed and trough.

Each **G4155D (CD) X1D35★** Each \$2.25
Twelve in counter display box

Each **G4156D (CG) X1D78★** Each \$2.95
Twelve in counter display box

**DUCK CALLS
GREEN HEAD**

Adjustable-tone feature. No disassembling of call to make reed adjustments.

Made of black and green plastic with stained wooden barrel.

Has two extra strength reeds—Easy to interchange.

Each **G4174D X3D60** Each \$6.00
One in box. Wt. box ¾ lb.

LOHMAN

Hand made by craftsmen for true tone and beauty.

Black walnut shell with cherry insert. Special waterproof treatment. Natural finish. Composition reeds. Length 4¼ inches.

Each **G4153D (103) X1D20★** Each \$2.00
One in box. Wt. box 3 ozs.

SCOTCH

No blowing—simply shake or depress the call. Produces melodious, authentic tones.

No moisture condensing. Rugged neoprene diaphragm and hand-finished hardwood sounding throat.

Complete with instructions.

Each **G4176D X4D50** Each \$7.00

HAND TRAPS

MOSSBERG

Covey

Throws 1, 2 or 3 standard clay targets.

Provides next best thing to real field shooting.

Simple to operate. Made of aluminum. Light and portable with no moving parts. Long rubber lined tracks give clay birds an effective stabilizing spin which sustains their flight. Retaining spring along track holds clay birds in track minimizing chances of breakage.

Throw at any angle, in any direction, at various speeds. Carries up to a distance of 60 yards.

Can be operated right or left handed. Removable handle locks inside frame for compact carrying.

Overall length when set up 37 inches.

Complete instructions in box.

Each
G4255D (Ct) X7D40\$9.95
One in box. Wt. box 1½ lbs.

REMINGTON

This trap is the finest medium for teaching proper gun pointing, and the self-conscious beginner can be introduced to shooting in some secluded spot away from the critical eyes of an audience. The automatic feature eliminates maximum effort and allows the most difficult targets to be tossed with a mere swing of the body. High rotation and precise direction is easily obtainable by the most inexperienced. Its normal range is 65 yards. Handle is made of genuine American walnut with non-slip grip. Rustless cadmium plated metal parts.

Each
G4228D (HT) X3D85★\$4.90
Three in case. Wt. case 5¼ lbs.

HAND TRAPS

WESTERN

Enables an individual to throw targets by hand. One can throw easy targets for the beginner, or difficult targets for the skilled shot. Can be used anywhere and at any time; there is no limit to the variety of possible shots that can be obtained. A trap which offers friendly competition, and a chance for children and friends to learn as well as offering a lot of practice for yourself small enough to fit into a handbag, yet it utilizes the same type of carrier found on the famous Western Automatic Trap.

Each
G4230D (WHT) X4D25★\$5.50
One in individual ctn. Wt. ctn. 1¼ lbs.

TARGET TRAPS

SHERIDAN

For both pneumatic and casual .22 practice. Ideal for indoor and outdoor shooting. Handle for portability—also wall hanger and flat base. Metal with baked enamel finish.

Height 10 in. Width 6½ in. Depth 4 in.

Each
GX-22-D X6D33\$9.50

TARPAULINS

EAGLE DOUBLE TREATED

Unconditionally Guaranteed For One Full Year

Exclusive double treatment—first with resin, then with vinyl and aluminum—provides a tarpaulin of greater water and rot resistance. More flexible in cold weather. Reflects 90% of sun and heat rays. Higher thread count means no pin holes. Triple sewed seams. Double sewed hems. Rope-in-hem takes stress off canvas—grommets won't pull out.

PICNIC STOVE

COLEMAN

Compact and rugged, delivers fast cooking heat at minimum operating costs.

Outstanding Features

Instant Lighting—Never-fail performance. Just strike a match, turn the valve and it is ready to cook.

Real Gas Cooking—Just like using a burner on the gas kitchen range at home.

Heat Instantly Regulated—Low, medium or any number of cooking variations available at the turn of valve.

High Heat Efficiency—Floating aluminum burner bowl reflects heat upward. No direct contact between bowl and stove. Air cushion reduces heat transfer and bowl quickly puts more heat into cooking.

Lightweight—Compact, only 4½ pounds net with two full fuel cartridges. Over-all size 12 inches wide, 7 inches deep, 5 inches high. Easily stored in small space or in the Coleman carrying case-camp table.

Fuel is Special Blended Coleman L-P Gas Fuel in Cartridges—Two full cartridges packed with each stove.

Special No-Slip Catch—Holds fuel cartridge firmly in place. Safe to operate. No adjustments to make. No delicate connection to get out of order. No leaking fuel.

Low Cost Operation—Two hours of cooking service at full heat from each cartridge of Coleman L-P gas fuel.

Easy to Keep Clean—Chromium plated grill snaps off for easy cleaning. Durable green baked enamel finish easy to wipe clean.

MERCHANDISE MANAGER'S SPECIAL PROMOTION

TUBULAR GLASS SPIN-CAST RODS

KEEN KUTTER

Built to a six-foot, two-inch length the experts say is ideal for excellent casting results. Developed to give the fisherman a rod with a back bone to hook and handle good fish and an action pleasant to use and helpful to his efforts.

Constructed of yellow-green, tapered wall tubular glass, the first major improvement since the introduction of tubular glass rods. Four guides and tip-top. Brown windings with green and aluminum trim. Aluminum handle, cork grip, screw type reel seat.

FISH POLE CARRIERS

PEERLESS

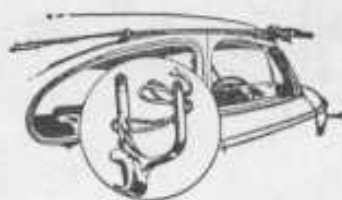

The newest and most practical method of securing long luggage to the top of a car. The Peerless all-weather carrier avoids marring the car finish, guards against obstructing the vision while driving and prevents blocking car doors. Consists of four 3 inch live rubber vacuum cups attached in pairs to spring steel forks. Each fork is reinforced by a steel clip. An 18 inch length of electric welded chain is fastened to each fork.

Practical for fishermen, campers, skiers, duck hunters, etc.

Per Pair
G4352B (A) X1D35.....\$2.25

One pair in ctn. Wt. ctn. 1¼ lbs.

BARMORE

Attaches to rain gutter or drip mold of auto. Will not shake loose from wind or vibration. Does not affect opening or closing of doors. Can be carried in glove compartment or fishing tackle box.

For carrying fishing poles, skis, oars and other long awkward articles.

Made of steel, aluminum finish, not molded. Will not rust or corrode. Easily put on or removed.

Per Pair
G4351B (45) D6C0.....\$1.00

One pair in pkg. Wt. pkg. ¾ lb.

AUTO TOP CARRIERS

TIG-ORE

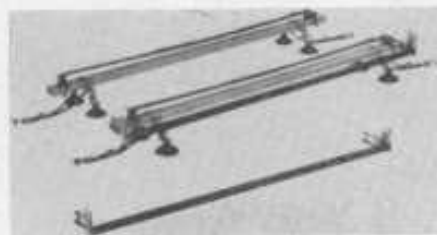

Tiny Toter Heavy Duty

For transporting fishing poles, skis, lumber, pipe, etc. Extra wide surface for greater strength. Suction cups fastened to metal bars with countersunk screws for flat surface. Gray hammertone finish.

Per Pair	Per Pair
G4354B (06) X1D20	\$2.00
One pair in ctn. Wt. ctn. 1½ lbs.	

AUTO-TOP CARRIER LOADING ROLLERS

TIG-ORE

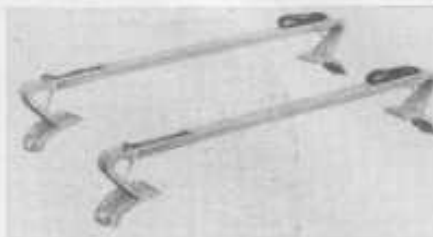

Atlas DeLuxe

For loading boats, etc. on bar type carriers. Clamp bracket adjustable to fit all manufactured car top carrier bars 60 inches or longer. Twist of wrist locks roller in loading or inoperative position. Rubber cushioned full length. Roller 58 inches long.

Each	Each
5-9/58-B X5D40	\$9.00
One in ctn. Wt. ctn. 8½ lbs.	

AUTO-TOP CARRIERS

MARKET FORGE

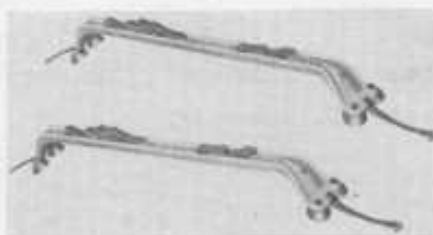

Ultra-Rak

No gutter straps—no suction cups. Carries load on extreme outer curvature of car top where roof is strongest—great load capacity. Plates adjustable for different width cars—mounted in a jiffy without tools. Pressed steel cushioned pressure pads eliminate suction cups—Quik-Lok attachment replaces gutter straps.

One-piece, lightweight, pressed steel 56 inch body—no nuts, bolts or small parts to lose—no moving or sliding parts to cause wear. Extra long, 84-inch quality web lashing straps easily removed by key-lock system. Rust-resistant, grey baked-on enamel finish.

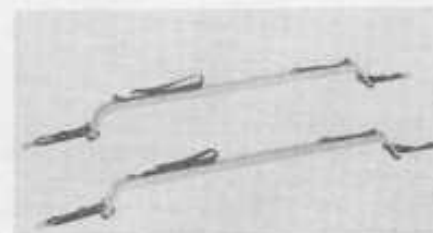

Per Pair	Per Pair
5-300-B X8D40	\$14.00
One pair in ctn. Wt. ctn. 17 lbs.	

Reddi-Rak Flo-Line

1000-lb. load capacity—one-piece, die-formed, lightweight steel. Completely assembled, ready to install—no nuts, bolts or parts to lose. Positive grip suction cups absorb load shock. Easy removal of web straps by keylock system. Rust-resistant baked-on enamel finish. Length 45 inches.

Per Pair	Per Pair
5-200-B X6D00	\$10.00
One pair in ctn. Wt. ctn. 10 lbs.	

Reddi-Rak Junior

All-purpose carrier of one-piece lightweight pressed steel. Completely assembled—no nuts, bolts or parts to lose. Eight 2-inch grey rubber suction cups absorb load shock. Easy removal of lashing straps by keylock system. Baked-on grey enamel, rust-resistant finish. Length 42¼ inches.

Per Pair	Per Pair
5-100-B X4D25	\$7.00
One pair in ctn. Wt. ctn. 5 lbs.	

Luggage Rak Kit

Converts Reddi-Rak Junior Carrier to Luggage Rak.

Consists of heavy gauge welded galvanized wire mesh bottom and steel channel framework. Easily attached to Reddi-Rak Junior Carrier (carrier not included). Sides removable so mesh bottom can be used as platform-type rack. Weather-resistant, baked-on grey enamel finish. Size 37x34½x6 inches.

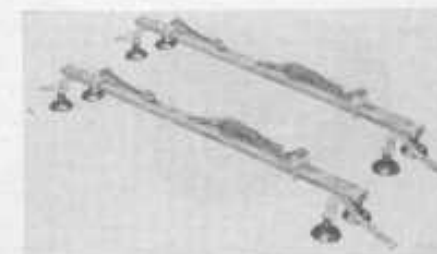

Per Kit	Per Kit
5-141-B X8D25	\$13.75
One kit in ctn. Wt. ctn. 13 lbs.	

Basket-Type Luggage-Rak

All-steel with five metal platform channels. Extra rugged steel channel frame construction. Four non-marring suction cups. Quality web straps and gutter hooks. Weather-resistant baked-on enamel finish. Packed knocked-down—easily assembled. Size 36x39½x6 inches.

Each	Each
5-255S-B X7D50	\$12.50
One in ctn. Wt. ctn. 20 lbs.	

Standard Wood Bar

Sturdy, kiln-dried, beveled oak bars in weather-resistant varnish finish. Adjustable, heavy gauge steel support brackets conform to extreme outer curvature of car top. Self-locking, adjustable strap clamps. Heavy webbing lashing and gutter straps. Eight heavy duty suction cups. Weather-resistant, baked-on grey enamel finish on metal parts.

ZEBCO

Model 55

Designed for steelhead, salmon and muskie, and for surf casting. Unique thumb control to prevent frayed fingers and thumbs. Anti-reverse star drag. Stainless steel and non-corrosive metal throughout.

With 200 Yards 12-lb. Test Line

Each	▲ Each
G198B (55) X14D97.....	\$24.95

One in box. Wt. box 10 ozs.

Model 33

Feather Touch Control

Designed to revolutionize the art of spinning as the Zebco casting reel revolutionized the art of casting. Simplified spinning—right hand retrieve—perfect thumb control—no bale to open or pick-up member to manipulate—nothing to remember or forget.

Carboloy pick-up members—rugged naval bronze gears—light weight aluminum case plated and aluminized to resist corrosion.

Adjustable drag and interchangeable spool.

With 100 Yards 6-lb. Test Line

Each	▲ Each
G95B (33) X11D70.....	\$19.50

One in box. Wt. box 9 ozs.

Super-22

Will not backlash. Fits any conventional rod.

New spinner head, designed for easier retrieve and longer casts with lighter lures. Interchangeable spool with adjustable drag. All naval bronze gears with increased gear ratio. Improved thumbing device for added casting comfort. Alumilite and chrome finish. Line installed for immediate use.

With 100 Yards 8-lb. Test Line

Each	▲ Each
G133B (22) X10D50.....	\$17.50

One in box. Wt. box 9 ozs.

Model 11

A moderately priced improved version of the Standard Zebco casting reel designed to provide another fast selling hit. Simple rugged construction, having no screws or adjustments, and possessing fewer number of parts than any other casting reel on the market.

All naval bronze gears with increased gear ratio. Stainless steel covers. Improved thumbing device for added casting comfort. Improved spinner head designed for easier retrieve and longer casts with lighter lures. Interchangeable spool.

With 200 Yards 10-lb. Test Line

Each	▲ Each
G94B (11) X7D50.....	\$12.50

One in box. Wt. box 9 ozs.

Scottie 66

Feather-touch control, adjustable drag, anti-reverse, carbonized gears.

With 130 Yards 6-lb. Test Line

Each	Each
G129B (66) X7D77.....	\$12.95

One in box. Wt. box 7 ozs.

OILER

PFLUEGER

Marvel

Soft plastic unbreakable dispenser. Oil comes out a drop at a time, or squirt, merely by squeezing bottle. Bottle is refillable.

Recommended for reels, guns and all precision mechanism.

Per Box (6 Bottles)

G4150B (380) X1D26.....\$0.35

Six bottles in display box. Wt. box ¼ lbs.

Sold Only in Full Boxes

Items marked + not carried in stock. Can only be furnished by shipping direct from factory. F.O.B. Cleveland, Ohio.

REEL CLAMPS

AERO-SEAL

**For Better, Faster, Tighter Clamping**

Stainless steel band and saddle. Heat treated carbon steel thumb grip worm drive and housing with a highly corrosion resistant finish.

Effective range of clamp, minimum $\frac{3}{8}$ inch maximum $1\frac{1}{4}$ inches.

Each ▲ Each
G3452B (QS100) D1C8.....\$0.30

Loose. Wt. each 1 oz.

REEL COMFO RINGS

PFLUEGER

**For Supreme Reel**

Made of the best quality soft rubber. Stretches over back plate and screws firmly in place. Gives a sure grip and eliminates tenderness at base of thumb caused from palming or gripping reel.

Each ▲ Each
G4864B (430) D3C6.....\$0.60

One in an envelope. Wt. envelope $\frac{1}{2}$ oz.

CORK ARBOR ASSORTMENTS

PFLUEGER

Sizes to fit all reels

Contains one each

Especially designed for use on Pflueger reels. Will fit most standard reels.

Made of best quality natural cork, accurately turned and split ready to be attached. Use a good waterproof cement or heavy shellac to fasten securely. Packed, one dozen in a box.

Assortment of 12. Six of each size.

Per Asst. ▲ Each
G4868B (413) X1D80.....\$0.25

One asst. in box. Wt. box $\frac{1}{4}$ lb.

RUBBER REEL HANDLES

PFLUEGER

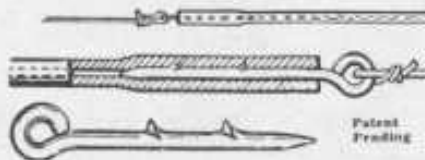

E-Z Grip

Made of the best quality soft rubber. Slips over regular handle of reel and affords a sure cushioned grip.

Each ▲ Each
G4865B (410) D0C4.....\$0.06

Loose. Wt. each $\frac{1}{4}$ oz.

NO-KNOT EYELET**Eliminates the Knot in Your Fly Line**

Small barbed eyelet inserted in the hollow core of fly lines eliminating bulky knot where leader is tied to line. Soft, smooth, easier casting.

Package consists of 1 large eyelet for A, B, C and D lines and 1 small eyelet for E, F and G lines.

Per Card ▲ Pkg.

Gray Phantom
Level

Processed Oil Base with Lacquer Finish

A mist-colored level fly line having the very desirable quality of being nearly invisible in the water. Handles easily and will delight the experienced fly caster. Constructed of the best silk and braided especially for fly casting. Has a tough elastic and smooth finish.

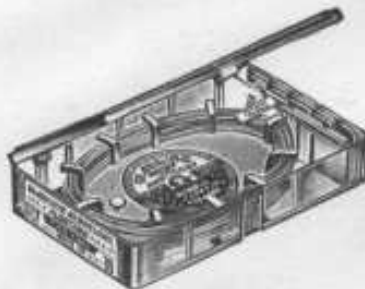

25 Yard Coils

Each		Size	Each

NYLON FLY LINES

GLADDING AERO FLOAT

Two-tone. More bubbles for better floating, finer tip-ends on tapers. Tapers in two-tone finish. Anglers can determine belly portion of line at a glance as belly is one color, taper another shade. Equipped with rustproof "No-Knot" eyelets for quick, smooth attachment of leader.

LONG FIBRE FLAX LINES

NEWTON

Silver King

The very highest quality long fiber flax of which this line is constructed makes it extremely fine in texture and great strength. A new method employed in twisting this line makes it perfectly balanced and impossible to kink in water, it will not swell when used in fresh or salt water. The special water repelling treatment used on this line gives it a beautiful hard glazed finish and make it impossible to swell or rot. It is flexible and free running.

FILAMENT NYLON SEINE TWINE

NEWTON

Five times stronger than cotton. Needs no drying and requires no preservative. Will not rot, mildew or swell when wet. Absorbs 50% less water than cotton, has greater abrasive qualities than cotton or linen. Is stabilized (does not fray out when cut). Not affected by gasoline or oil. Is flameproof. Processed to prevent excessive untwisting.

LINEN GILL NETTING

Linen netting is not carried in stock in all sizes, but Nos. 12/3, 18/3, 25/3, 35/3, 40/3, can usually be supplied at once in the sizes of mesh listed below. No. 30/3 and other sizes not in stock can be made to order providing the quantity is 5 pounds or more, and allowance should be made for a reasonable delay. When Linen Netting is wanted for the inside webbing of Trammel Nets it should be so specified, as greater fullness is required.

FISHING NETS

LINEN THREAD CO.

GILL NETS

Gill Nets, fished on the bottom, produce good catches where it would be impossible to use a Seine, Hoop or Trap Net. Fish, unafraid of the fine linen thread, are caught by the gills as they swim through the mesh . . . Gill Nets wear longer if fished with some slack; although the catch improves when hung full. Our nets are usually hung on a one-half basis; 200 yards of netting for a net 100 yards long . . . The fine quality thread in these nets is sensitive to heat. If exposed to the sun, keep the net wet until it can be hung up in the shade to dry . . . Buffalo, Carp and Spoonbill Catfish can be taken in large numbers if a large enough mesh is used.

NETTING

NOTE—When Ordering Netting be Particular to State Whether Enough Netting is Wanted to Make a Seine or Net of a Given Length or Stretched Measure Only.

Three yards stretched measure are required to fill two yards of seine or net complete. The netting or web only to make a seine of any given depth, size twine and size mesh under 30 yards in length will cost one-third less than price of seine complete.

Thus a seine complete that costs \$6.00, the netting only to make the seine would cost \$4.00. For tapering netting a small additional charge will be made, equal to from 5 to 10 cents per pound, to cover cost of extra labor.

MINNOW SEINES

HOLDSTRONG

 $\frac{1}{4}$ inch Square Mesh

Made of **Strong, Heavy, Woven Netting**, with full $\frac{1}{4}$ -inch mesh. Better quality and heavier weight than the Common Sense, but not so good as the regular $\frac{3}{4}$ -inch mesh knit seines. Will give good service and answers the purpose where a moderate price seine is required.

$\frac{1}{8}$ inch Cotton Top and Bottom Lines
Complete with Floats and Sinkers

Brown
(H)

COMMON SENSE

 $\frac{1}{8}$ inch Square Mesh

For Creek and Minnow Fishing

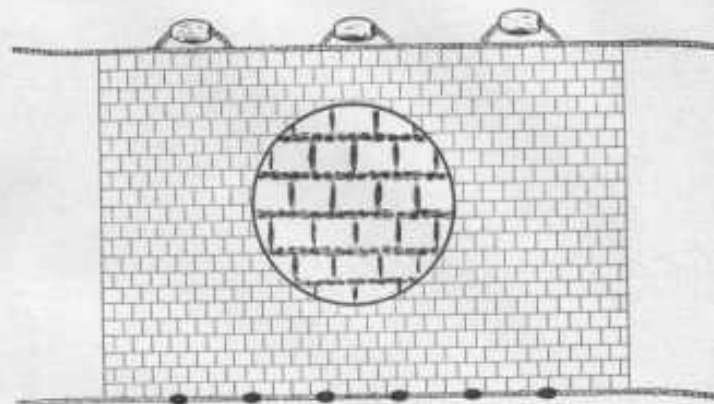

Made of very light **Brown Color Woven Netting**, with meshes about $\frac{3}{8}$ -inch. These seines are not as good as the regular knit seine of $\frac{1}{4}$ inch mesh, however they will answer the purpose when a moderate price seine is wanted for occasional use. The smaller mesh makes it possible to take smaller minnows than can be caught in the $\frac{1}{4}$ -inch mesh or bar.

CASTING LURES

CREEK CHUB

Jointed Pikie

Has a wiggling movement, flexible and sensuous, which makes it a great killer. Very easy to cast.

Length $3\frac{1}{2}$ Inches—Weight $\frac{1}{2}$ Ounce

Each	Colors	▲ Each
G1663B (2700) X1D02	Natural Pikie, Scale Finish	\$1.70
G1664B (2701) X1D02	Natural Perch, Scale Finish	1.70

Twelve in ctn. Wt. ctn. $1\frac{1}{2}$ lbs.

Injured Minnow

Resembles an injured minnow, lying on its side about all in but still able to make a little fuss on the surface. Should be retrieved in a series of short, slow jerks to imitate a struggling minnow. It is irresistible to Bass. The loose vibration of the spinners gives to the strike and the weeds and is far superior to the rigid kind. When pulled through the water, they give a buzzing vibration which is very attractive. Small grass or moss does not clog them. Treble hooks.

Length $2\frac{3}{4}$ Inches—Weight $\frac{1}{2}$ Ounce

Each	Colors	▲ Each
G1619B (1600) D8C7	Pikie	\$1.45

CASTING LURES

ARBOGAST

Jitter Bug

Plastic Body

The erratic action of this minnow attracts small and large mouth bass as well as other game fish. The double-lobed "Lip" attachment creates a loud, paddling noise when being retrieved. Can be used as a popper, made to change ends and dance when jigged gently.

Length body 3 inches. Treble hooks. Weight $\frac{5}{8}$ oz.

Standard Size

Each	Color	▲ Each
G1555B (650R) D8C1	Red Head with White Body	\$1.35

One in box. Six in ctn. Wt. ctn. $\frac{1}{4}$ lb.

Skinny-Minny

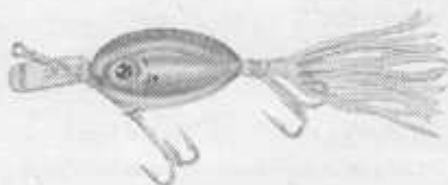

Floats at rest in a vertical position, nose out of water, like a small food fish feeding on the surface. A short jerk and it takes off in a turmoil like a scared minnow, airplane-type spinner whirling. Ideal for both fresh and salt water fishing. Treble hooks.

Each	Color	Each

Hula Popper

Casting Size

Has everything any fisherman could ask for in a top water lure. Can be plunked, popped, twitched or jerked to make noise and commotion on the surface. A killer for big bass. Floats when at rest. The small hula skirt goes into action and the patented skirt curls up backwards imitating a live bug in the water. Allowing the line to go slack between pops and jerks gives the skirt time to wiggle and squirm.

Plastic Body— $2\frac{1}{4}$ inches long. Has two No. 1 treble hooks and hula skirt. Weight $\frac{5}{8}$ oz.

**Appetite**

Appetite fish bait has proven to be the best bait on the market for catfish. It is a doughy substance to be used by simply forming a ball around a treble hook. It has an odor that is peculiarly attractive to catfish, the scent is carried down stream so catfish will come to it from a distance.

To be used with special catfish bait hooks.

SPINNING LURES

HEDDON

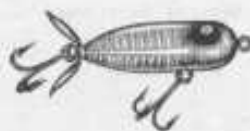

Tiny Lucky 13—Floating—Diving

Can be used either as a surface or underwater lure. When used as a surface bait, it has excellent "chugging" action, and when the rod tip is twitched it pops under the surface and creates large bubbles. When used as an underwater lure and retrieved at normal speed, it has an excellent erratic swimming action. Also fine for trolling, as it will dive underwater for about a foot or so, and weave from side to side with a tail wiggle.

Tenite body. Two No. 6 treble hooks. Length 1 3/4 inches. Weight each 1/5 oz.

(370)

Each	Colors	▲ Each

G1516B D8C1	Shiner Scale, Red Head	1.35

Tiny Torpedo—Surface

A topwater version of the famous torpedo. When slowly retrieved, with a series of jerks of the rod tip it imitates a struggling wounded minnow. With a fast retrieve it acts like a scared minnow streaking for cover.

Tenite body. Two No. 6 treble hooks. Length 2 1/4 inches. Weight each 1/4 oz.

(360)

SPINNING LURES

ARBOGAST

Rib-Lip

Medium runner, slow sinker. Special ribbed design of lip reflects light and creates teasing sound in the water. Jointed for life-like wiggling action. Two treble hooks.

Length 3 inches—Weight $\frac{1}{4}$ Ounce

Each	Color	Each
G2230B (2701F)	D8C1 Frog	\$1.35
G2235B (2703Y)	D8C1 Yellow	1.35
G2236B (2705P)	D8C1 Perch	1.35
G2237B (2712K9)	D8C1 Coach Dog	1.35

Twelve in ctn. Wt. ctn. 1 lb.

Assortment

Assorted Frog, Yellow, Perch, Coach Dog, Red Head, Black, Shad.

Per Asst. (12)	Each
G2238B (2715A) X9D72	\$1.35

One asst. in ctn. Wt. ctn. 1 lb.

Spin Hula Dancer

Brand-new wobbling, teasing action. Ideal spinning bait for open water. Floats at rest. Dives to medium depth on retrieve. Can be retrieved fast or slow.

Length 2 inches—2 No. 6 Treble Hooks

Weight Each $\frac{1}{4}$ oz.

Assortment of 6

Assorted colors—Red Head, Frog, Black, Perch, Coach Dog, Shad.

Per Asst.
(6)

G2529B (865A) X4D86.....\$1.35

One asst. in box. Wt. box $\frac{1}{2}$ lb.

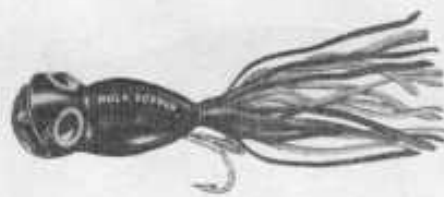

Jitter Bug

The erratic action of this minnow attracts small and large mouth bass as well as other game fish. The double-lobed "Lip" attachment creates a loud, paddling noise when being retrieved. Can be used as a popper, made to change ends and dance when jigged gently.

Length body $1\frac{3}{4}$ inches. Two treble hooks. Weight $\frac{1}{4}$ ounce.

Each	Colors	▲ Each
G2136B (630R)	D8C1 Red Head	\$1.35

G1740B (643O)	D8C1 Orange, Black Dot	1.35

One in box. Six in ctn. Wt. ctn. 3 ozs.

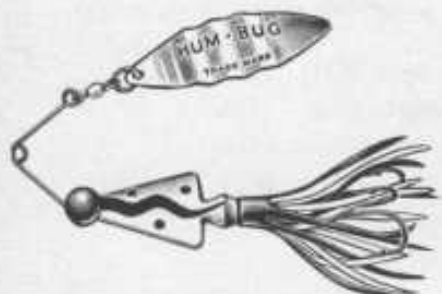

Hula Popper

Has everything any fisherman could ask for in a top water lure. Can be plunked, popped, twitched or jerked to make noise or commotion on the surface. A killer for big bass. Floats when at rest. The small hula skirt goes into action and the patented skirt curls up backwards imitating a live bug in the water. Allowing the line to go slack between pops and jerks gives the skirt time to wiggle and squirm.

Length $1\frac{3}{4}$ inches. One No. 3 treble hook. Weight each $\frac{1}{4}$ oz.

Each	Colors	▲ Each
G2144B (770R)	D8C1 Red head	\$1.35

One in box. Six in ctn. Wt. ctn. $\frac{1}{2}$ lb.

Hum-Bug Assortments

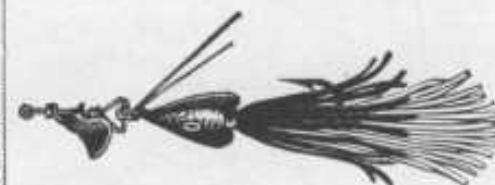

Runs shallow to eliminate snags. Flashy willow-leaf spinner makes lure vibrate with sound. Will not twist line. Replaceable hula skirt. Detachable treble hook.

Twelve lures on display card, assorted colors as follows:

White, Red Stripe
Yellow, Black Stripe
Pearl, Black Stripe
Orange, Black Stripe

Per Asst. (12)	Wt., oz.	Each
G2247B (2245A) X6D12	$\frac{3}{4}$	\$0.85

Fish stories are like good wine, they improve with age.

This is good, the bigger those fish get the more evident it becomes that the fisherman needs new equipment to handle them.

EAGLE CLAW SNELLED FISH HOOKS

Eagle Claw hooks are quicker hooking, stronger and catch more fish per strike. The special bend of the hook places the point in direct line of pull. Made of finest quality steel wire, perfectly tempered and hand forged. Long, sharp, claw-like points. Unequalled in penetrating qualities and superior in strength.

Eagle Claw hooks are wrapped with highest quality selected strain tested nylon. All hooks are turn-down-eye type.

SNELLED HOOK HOLDERS

HAMEL

A Necessity for Every Fisherman

The most practical snelled fish hook holder ever designed. Hooks always in view. Barbs and points always protected. Compact, streamlined and easy to handle.

Made of white opaque tenite. Rust-proofed throughout. Holds 20 hooks of various lengths. Each under tension by individual coil spring.

Will take Hooks from 6 to 14 inches

Each G3458B (100) D7C5..... \$1.20
One in box. Wt. box 4 ozs.

LEADER MATERIAL
GLEN L. EVANS, INC.

Tyrex-All Set

Ideal for casting or trolling. Convenient, practical and durable.

Nylon with regular loop end with attached safety snap swivel at terminal. Prevents line twisting and allows instant changing of lures.

Each leader on a card in a cellophane envelope—one dozen on an attractive two color display card.

Eight Compartments

Each	▲ Each
G3449B (PLB) D5C5.....	\$0.90

Twenty-four in ctn. Wt. ctn. 27 lbs.

FLY BOXES**MILLSITE****Daisy**

A genuine tenite fly box with a transparent cover that can be rotated so as to bring the snap-door over any compartment in a jiffy, enabling you to select quickly the particular fly you want before opening box. The door lifts with a finger tip and snaps shut when released. A protected short pin is fastened outside in the center to open the fine eye of your hook. Transparent top is unbreakable and shock proof. The material used in this box has a slight odor which is greatly disliked by moths. Has six regular compartments and one extra large one. All fittings are nickel plated brass. 4 5/8 inches in diameter. 1-inch deep.

Suitable for Small Spinning Lures

Each	Each
G3439B (54FB) X1D05.....	\$1.75

One in box. Wt. box 1/4 lb.

BILL DE WITT**Ro-Top**

Easy to pick out the fly you want.

Clear transparent plastic with rotating top. Six section interior. Two-way spring holds door open or closed. Snap hook for fastening to belt strap, button hole or harness.

Diameter 4 3/8 inches, 1 1/4 inches thick.

Suitable for Small Spinning Lures

BAIT BOXES

OBERLIN
Bait Canteen

A simple way to keep fish worms, night crawlers, or dew-worms, soft shell crabs, etc., alive and in perfect condition even in hottest weather, on long trips and extended periods.

Box is double wall fibre board, sturdily bound with a steel frame. Heavy wire handle and metal cover catches.

Always remains cool—warm moisture particles evaporate from outer side walls and leave the inside cool and humid.

Each box is complete with moss ready for use—after moss is wet it will not decompose to generate heat or injurious gases but furnishes considerable food for bait.

Box is 7 inches square, 6 inches high.

4-G4678B (1275) X1D50—(Case lots 6)

Six in ctn. Wt. ctn. 14 lbs.

CAMP

For use in clear water where minnows are seen feeding. Will float about 2 inches above water when lid is sealed tight. Can be used in mossy ponds, lily pads, willow roots, etc. Bait with crackers, bread or oatmeal.

Heavy clear glass jar with three openings at sides, scientifically spaced. Screw cap lid.

Capacity ½ gallon. Height 10½ inches. Diameter 6 inches.

Each ▲ Each

G4689B (3MT) X1D60.....\$2.50

4-G4689B (3MT) X1D60—(Case lots 4)

Four in ctn. Wt. ctn. 16 lbs.

Flashlight Battery Powered

Fits any standard minnow bucket. Light, floating impeller spins jet spray of water to all sides of bucket—absorbs an abundance of oxygen, creates a high rate of evaporation which aerates, rapidly cools and recirculates the water. Self-contained battery-powered motor uses less current than a flashlight. Operates intermittently.

Less Batteries

FISHERMEN'S BAROMETER

TAYLOR

Designed for fishermen. Showing when fish bite best. Operates on the proven principle that atmospheric pressure dominates the feeding habits and activities of fish, even to the exclusion of wind direction, rain, moon phases and kindred moss-grown theories that place effect before cause.

Handsome green molded case 3¼ inches in diameter with chromium bezel around dial. Unbreakable crystal. Adjusts to altitudes 0 to 3500 feet.

Each **G2860B (2280) X5D37**.....▲ Each \$8.95

One in imitation leather case. Wt. case 6 ozs.

FISH SPEARS**ANDERSON**

Hand-forged steel tines, locked in frame with steel wedge. Malleable iron frame. Wrought steel socket shank. Length of tines 6½ inches. Length over all 18½ inches.

ELECTRIC OUTBOARD MOTORS

SILVER CREEK

Silvertrol Noiseless
12 Volts or more

Instant-starting, lightweight motor for fresh or salt water. Non-polluting. Economical. Noiseless.

Operates—On standard heavy duty 12 volt auto battery, or more—Approximately two days on trolling speed (8-12 hours) on one charging.

Speeds—On 12 volts, 1½ M. P. H. trolling, 2½ M. P. H. cruising—Higher speeds on 18 or 24 volts. Push button control for four speeds—low, second, third and high.

Adjustments—Full reverse with lock, 360° directional steering. Fixed-steering adjustment. Transom height adjustment with 6-position bracket and quick-adjusting bar. Aluminum alloy and steel construction—chrome-plated steel column. Easily removable front housing. Heavy clamp screw. Weedless propeller. Streamlined handle. Direct current, sealed, water cooled, life-lubricated motor runs on 12, 18 or 24 volts.

Each 7-S60-B X75D60 \$94.50

One in ctn. Wt. ctn. 26 lbs.

Silvertrol

Easy steering, non-polluting, economical light weight, instant starting. For fresh or salt water.

Operates—On standard heavy duty 6 and 12 volt auto battery or more. Approximately 2 days of fishing on trolling speed, 6-10 hours on one charging, depending on size of boat and weather factor.

Speeds—							
Positions	Amps.	R. P. M.	Positions	Amps.	R. P. M.		
6 Volts {	Low	5	125	12 Volts {	Low	9	475
	Med.	7	325		Med.	13	700
	High	9	450		High	15	850

12 Volts provide greater speeds but less running time.

Adjustment—Full reverse, 360° directional steering.

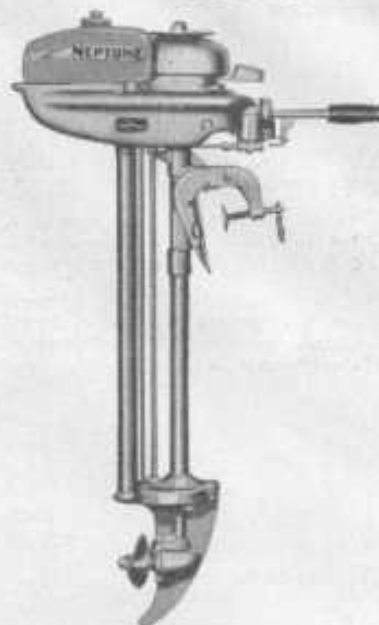

Motor—Direct current, sealed, water cooled, life-lubricated, efficient. (Runs on 6, 12 and 18 volts.)

Material—Aluminum alloy and steel.

Each 7-S62-B X79D60 \$99.50

One in ctn. Wt. ctn. 29 lbs.

OUTBOARD MOTORS

MUNCIE GEAR WORKS

Neptune—Mighty Mite

1.7 H.P. High Tension Magneto

Simple operation, moisture proof magneto siphon cooling and underwater exhaust.

For lakes limited to small motors. Extreme light weight and small size make it easy to carry and store.

Full 90 day guarantee against defective parts and workmanship

Motor and Power—Single cylinder, 2 port, hi-speed 1.7 H.P., OBC rating at 4000 R.P.M.

Dimensions—Length 33½ inches. Width, 6½ inches. Stern height 15 inches.

Cylinders—Aluminum alloy cast iron sleeve, bored and honed.

Bore and Stroke—1¾x1¼ inches.

Pistons—Aluminum alloy 2-ring.

Bearings—Spinal Amplex oilite bearings, self-lubricating.

Crankshafts—Drop forged steel. Hardened and ground.

Gas Tank—1 quart capacity.

Gear Ratio—13 to 20.

Propeller—Aluminum semi-weedless.

Muffler Exhaust—Underwater.

Cooling System—Centrifugal pump.

Ignition—High tension magneto.

Carburetor—Tillotson automotive type, non-flooding.

Each 7-MM-B X71D50 \$94.95

One in ctn. Wt. ctn. 17 lbs.

MINN-KOTA
Troller

Sleek and streamlined. Almost silent as it glides through the water. For entire satisfaction the use of two batteries is recommended. Three speeds on one battery, six speeds on two batteries. Draws 6 amperes on first speed, 10 to 12 amperes on second speed, 16 to 18 amperes on third speed on 6 volts. Using two batteries in series, amperes and volts doubles. Using two batteries hooked in parallel, battery life doubles.

Durable baked enamel finish motor, equipped with grease sealed ball bearings. Control switch operated with tiller handle. Quiet and trouble free flexible cable drive. No shear pin necessary, absorbs all shock if propeller hits something solid. Stainless steel propeller shaft welded directly to flexible cable.

Complete with lead wires and clips to attach to battery and two jumpers.

Each 7-TS DELUXE-B X52D85 \$75.50

One in ctn. Wt. ctn. 23 lbs.

BATTERY CHARGERS**SILVER CREEK****Silvertrol**

For 6 or 12-Volt Batteries With Battery Carrying Case.

For gasoline and electric motors, starting outboards, emergency electric supply, charging auto battery.

Plugs into any 110-volt, 60 cycle outlet (in garage or at end of dock). Handy carrying case for battery (battery not included).

Each
7-BC4612-B X27D50 \$34.50

One in ctn. Wt. ctn. 16 lbs.

BOAT TRAILER WINCHES**GOLDEN ROD**

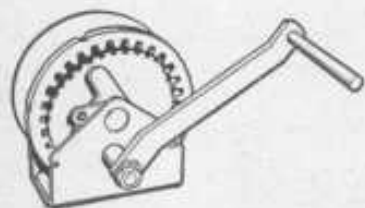

For launching and loading boats. Sturdily constructed. Geared 3 to 1 ratio.

Drum capacity of cable or rope:

$\frac{3}{16}$ inch—130 feet. $\frac{3}{16}$ inch—40 feet.
 $\frac{1}{4}$ inch—70 feet. $\frac{3}{8}$ inch—30 feet.

Each
-37-B X6D11 \$8.15

Wt. each 6 lbs.

**FULTON**

Heavy gauge steel stampings (not cast gears). Extra large bearing surface due to drive gear shaft and drum axle. Bearing surfaces lubricated with special grease which is not soluble in either fresh or salt water.

Internal tooth driven gear and concealed drive gear cannot damage rope or injure fingers. Easily disassembled for greasing and cleaning.

Positive spring loaded ratchet lock operates safely in any position. Reversible ratchet for clockwise and counter-clockwise operation, lets drum turn free when in "off" position.

Offset handle at 25 degree angle can be readily removed when desired.

Specifications:

Drum Capacity—	Length of handle..... 7 $\frac{1}{2}$ in.

Shipment from factory, 100 lbs. or more, subject to D1C0% Discount.

Pearl Liner 14 ft.

SEMI V-BOTTOM

PEARL LINER, List \$246.50 f.o.b. Topeka

Plus \$9.00 for wrapping. All boats MUST be wrapped for shipment.

The Pearl Liner (above) is a Semi-V Bottom Model. Length: 14 ft.; Weight 106 lbs.; Wrapped for shipping 159 lbs. Aluminum: Bottom .051 gauge; sides .032 gauge double strength Polygon embossed. Width: Stern 47"; beam 55"; Depth: Stern 15"; beam 18"; bow 21". Seats: 12" wide. Styro-foam blocks under all seats. 8 welded braces inside. 7 full-length stabilizer fins. Three splash rails. Double oar locks. Oar horns included. Shur-foot non-skid paint inside. Anchor cleats bow and stern; motor safety chain eye at stern. Motor Recommended up to 12 H.P.

The rigid, tough aluminum used in the construction of Vio Holda boats is of the Polygon embossed pattern which increases rigidity 100% and strength 102%. This amazing metal, plus all-welded construction, makes Vio Holda boats extremely light and strong, weighing only 45 to 148 pounds. Welded seams are unconditionally guaranteed watertight.

Full length V-shaped bottom and side ribs are pressed into the aluminum with a metal brake. Braces, seats and oarlocks are welded into position. All models have styrofoam flotation under each seat, providing ample flotation if boat is capsized. All models are painted with Shur-foot non-skid paint inside to provide better traction, reduce sound and to eliminate reflection of light.

STEERING WHEEL ATTACHMENT

Fits all '55 thru '59 14 ft. Semi-V Bottoms.

- Easily attached. Drill 4 holes.
 - Made of heavy .064 aluminum.
 - Made for right or left side.
 - Please specify, otherwise right side bracket will be shipped.
- LIST PRICE \$15.00
For Bracket and 4 Mounting Bolts (Steering wheel and accessories not furnished. To be purchased locally)

The Chinese Have a Proverb, They Say:

"If you wish to be happy for an hour, get intoxicated;

"If you wish to be happy for three days, get married;

"If you wish to be happy for eight days, kill your pig and eat it;

"If you wish to be happy forever, learn to fish."

IN SUMMARY, LET US QUOTE FURTHER FOR YOUR CONSIDERATION:

I have taken the soft clay of the uninitiated and (with all modesty) molded fishermen. For this I've gained no undying gratitude, nor will statues be erected to these accomplishments. I doubt if these folks, now fishermen, will ever tell their wives, or in some cases husbands, who opened "Pandora's Box" in their faces and let out the evils some folks believe lurks in the hearts of fishermen. But I'll bet I've been remembered, as I too remember, the small, yet great, pleasantries connected with each of these initiations into the mysteries of the art of fishing.

TENNIS BALLS

WILSON

Championship

A two-piece ball, joined together by a patented process which virtually produces a perfect one-piece ball. Absolutely uniform throughout. No inflation plugs to destroy its perfect balance and even flight. Low gas penetration which adds greatly to the life of the ball. Cover is of long wearing felt on which new nap raises itself as the old wears away. Permanent adhesion of cover to ball is secured by the use of special cements which do not harm the ball's liveliness. Latex seams anchor and seal all cover seams. Officially approved by United States Lawn Tennis Association.

White Color

PROCEDURE FOR HANDLING DEFECTIVE LIONEL MERCHANDISE

All Lionel Merchandise offered for sale by Shapleigh Hardware Company carries a warranty of service from the manufacturer. This warranty is a written statement establishing the limits of the manufacturer's responsibility (usually defective workmanship and materials, for a one year period) and the degree of recourse to which the consumer is entitled.

DO NOT RETURN ANY LIONEL PRODUCTS TO US. Shapleigh Hardware Company is not an authorized service center and we are not equipped to make repairs. Returns to us result in unnecessary delay and additional expense to the retailer. We must insist that all returns for repairs be made to the nearest authorized service center. See authorized service centers on the following pages. Where no repair agencies have been authorized, returns will be made direct to the factory.

A letter giving the date of purchase by the consumer and stating the reason for the return should be attached to the package containing the equipment. If returns are made without giving the date of purchase by the consumer, the service center will be guided by the serial number which indicates date of manufacture. The statement "Within Warranty" or "Defective" is not sufficient information. **Return shipment will be made by Insured Parcel Post or Express Collect.**

LIONEL SERVICE POLICY

Lionel Products are guaranteed against defects in material and workmanship to the extent that if any such defective article is returned to the Lionel Service Department or to any Lionel Authorized Service Station within a year of the date of purchase it will be repaired or replaced.

When returning articles for service either to the Lionel Service Department or to any authorized Service Station, please send only those articles which you believe to be inoperative. There is no need to return the complete outfit when the trouble is in the locomotive only.

If any of your equipment needs servicing you may send it either to the Factory Service Department or to any Lionel Approved Service Station.

Although the Lionel Approved Service Stations listed in the following pages are independently owned and operated, each has been carefully checked by The Lionel Corporation for reliability. These Service Men are experts and most of them have been adjusting and repairing Lionel equipment for many years. Lionel Authorized Service Station approval is not permanent but has to be renewed from year to year to assure continuing high standard of service.

In addition, The Lionel Corporation maintains two large Service Stations of its own. One is at 15 East 26th Street, New York 10, New York, and the other is at 28 Sager Place, Irvington 11, N. J.

LIONEL LOCOMOTIVES

New! No. 56 Minneapolis & St. Louis Mining Loco. This typical industrial loco is perfect for hauling cars loaded with coal, ore or rock. In fire engine red and white with 2-4-2 wheel arrangement. Operating couplers at both ends. Loco 7 1/2" long. **\$12.95**

No. 53 Denver & Rio Grande Snow Plow Loco. In colorful yellow and black Rio Grande markings with unique diesel stack, front and rear simulated headlights. Perfectly-molded snow plow on front, operating coupler on rear. Loco 8 1/8" long. **\$14.95**

No. 400 Motorized Passenger Car with Horn, Headlights and Magne-Traction. This sleek silver Rail Diesel passenger car is self-propelled. Operating knuckle couplers. Illuminated interior shows passengers at windows. **\$29.95**

No. 404 Motorized Baggage-and-Mail Diesel with Horn, Headlights and Magne-Traction. A replica of the modern car seen on the B & O. Can pull a string of cars. Has illuminated interior, remote control knuckle couplers on both ends. **\$29.95**

No. 736LT5 Steam Locomotive with Smoke, Whistle, Headlight and Magne-Traction. Here's Lionel's steam giant, the "Berkshire" 2-8-4. Steamer and tender 20 1/2" long. **\$47.50**

LIONEL MOTORIZED UNITS

New! No. 52 Fire Fighting Car. When this self-propelled car strikes a bumper or other object, it reverses direction. . . the helmeted fireman seated at his high pressure nozzle swivels automatically. Car has a pair of outrigger-type sprinklers and reel of firehose. Red light atop car flashes continuously when car is in motion. Car 7" long. **\$12.95**

New! No. 68 Executive Inspection Car. An unusual motorized unit . . . an automobile equipped with four extra flanged wheels for riding on railroad track. Used by railroad executives for inspecting the right-of-way. Illuminated twin headlights, tail lights and interior. Car 7 1/2" long. **\$12.95**

New! No. 54 Track Ballast Tamper. Self-propelled, pulls its own supply car. Proceeds rapidly up to the point where track-work is to be done. The track actuator slows it down and starts the six tamping tools to vibrating in a realistic manner. A second track actuator stops the tamping action, restores normal speed. Car 7" long. **\$12.95**

No. 50 Section Gang Car. A self-propelled car that reverses direction when it strikes a bumper or another object . . . one of the gandy dancers moves to other side of car. Car 6" long. **\$7.95**

No. 55 "Tie-Jector" Car. This unusual car, moving under its own power, throws ties alongside track. The action is started by rail-side trip . . . second trip stops action. Can pull a maintenance supply car. "Pennsy" markings. Car 8 1/2" long. **\$10.95**

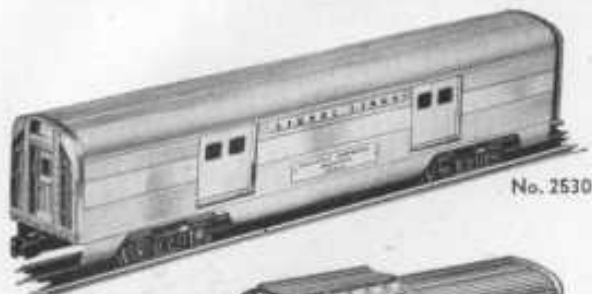

No. 60 Lionel Trolley. Has own motor. Can run on separate spur or main line. Illuminated - reverses direction when striking bumper or other object. Trolley 7 1/16" long. **\$7.95**

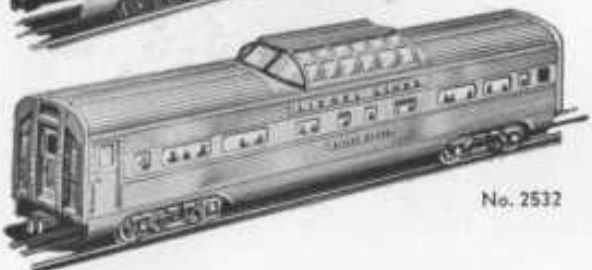

LIONEL PASSENGER CARS

25A-15

No. 2530

No. 2532

No. 2432

No. 2435

No. 2550 Baggage-Mail Car. An illuminated car especially designed as a trail car behind the 400 series motorized units. Operating knuckle couplers at both ends. B & O markings. Car 16 1/4" long. \$12.95

Illuminated "O" and Super "O" Streamlined Passenger Cars.

Here are the most luxurious and exciting passenger cars in model railroading. Long, sleek and made of heavy-gauge aluminum, their illuminated interiors show passengers looking out the windows. To be used only on "O" and Super "O" track. Each car 16 1/4" long.

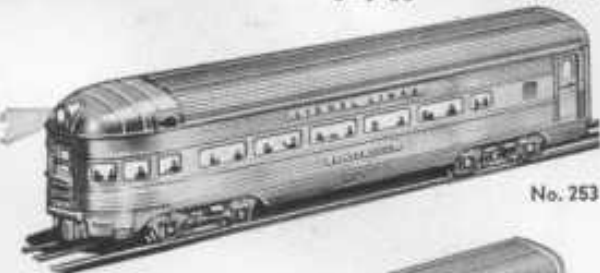

No. 2530 "Railway Express" Baggage Car (not illuminated) \$10.95

No. 2531 "Silver Dawn" Observation \$12.95

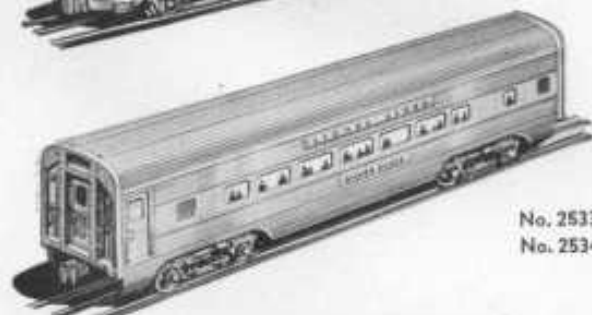

No. 2532 "Silver Range" Vista-Dome \$12.95

No. 2533 "Silver Cloud" Pullman \$12.95

No. 2534 "Silver Bluff" Pullman \$12.95

No. 2531

No. 2533
No. 2534

Illuminated "027" Streamlined Passenger Cars.

These beautifully-detailed streamliners have fully illuminated interiors showing passengers silhouetted at the windows. Designed for use on all Lionel track. Remote control operating couplers are at front and rear of cars. \$7.95 each

No. 2432 "Clifton" Vista-Dome -- 11 3/4" long

No. 2434 "Newark" Pullman -- 11 3/4" long.

No. 2435 "Elizabeth" Pullman -- 11 3/4" long.

No. 2436 "Mooseheart" Observation -- 11 1/2" long

No. 2434

No. 2436

No. 2559 Commuter Passenger Car. Completely illuminated trail car showing passengers seated at windows. Can be coupled to No. 400 series power units. Operating knuckle couplers at both ends. Car 16 1/4" long. \$12.95

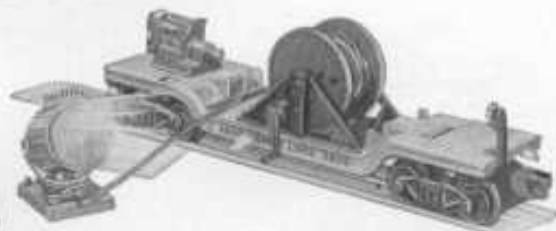

LIONEL OPERATING CARS

No. 3927 Track Cleaning Car. Actually cleans and conditions track! Rotating motor-driven sponge and wiping cylinder improve the locomotive traction. Uses non-inflammable Lionel No. 3927-75 "Track-Clean" fluid. No other track cleaner should be used. Pulled by loco... lever starts, stops sponge rotation. "Track-Clean", wiping cylinders included. Car 8 1/2" long. \$12.95

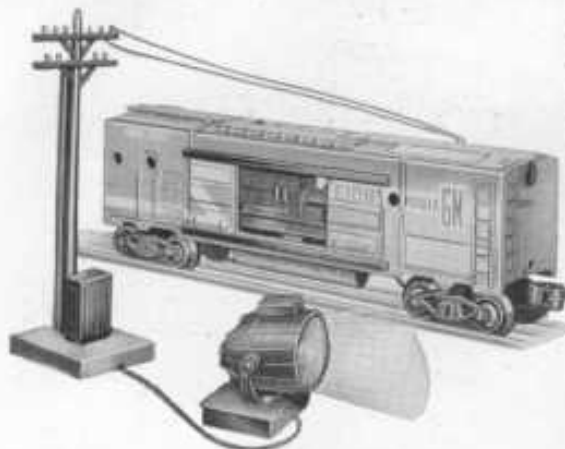

No. 3444 Animated Gondola Car. Re-enacts the age-old "hobo-railroad" feud. When the switch is on, the railroad policeman chases the hobo round and round the fixed cargo in the car. With the switch off, the chase stops. No remote control track needed. Car 10 3/4" long. \$9.95

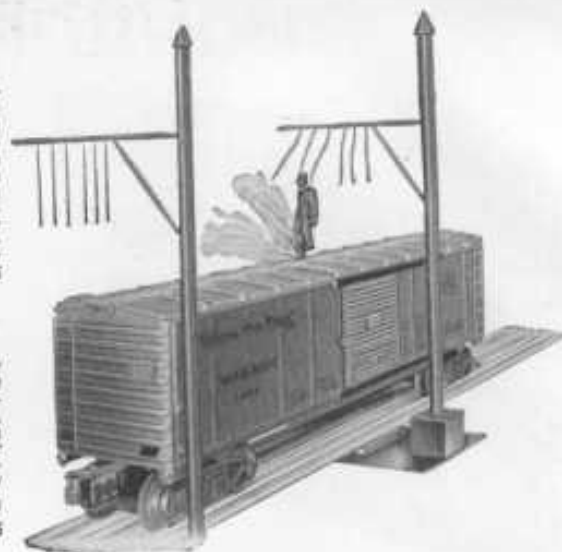

No. 3650 Searchlight Extension Car. A powerful flood beam for night-time track work. Light can be removed from the car and placed wherever wanted. The cable, reeled and unreel by means of a hand crank, feeds power to the light. A magnetic base holds the searchlight stand to the car. Car 9 1/2" long. \$9.95

LIONEL OPERATING CARS

No. 3530 Operating GM Generator Car. When door is opened the light goes on in the interior illuminating the simulated diesel-electric generator. A real cooling fan under the roof starts turning. Car can be connected to power pole, which in turn gives current to powerful magnetic base floodlight. Generator car, transformer pole, floodlight included. Pole 7 1/2" high, Car 10 1/2" long. **\$12.95**

No. 3424 Operating Brakeman Car Set. Here's unusual action! First "tell-tale" pole warns the brakeman of an approaching tunnel, bridge or underpass. After passing first pole, he falls prone, hugs car roof. Second pole brings him upright again. Action is completely automatic. Set includes two poles, each 7 1/2" high, Car 10 3/8" long. **\$9.95**

No. 3356 Operating Horse Car. Horses emerge from the car at remote control command, go down the ramp, move around the water trough and up the opposite ramp back into the car again. Open the corral gate and the horses are herded to the watering trough in the corral. Set includes car, horses, ramps, corral. Car 11 1/4" long, corral 10 1/2" x 6". **\$17.95**

No. 3662 Operating Milk Car. A popular Lionel operating car! The milkman brings out cans to the platform at touch of remote control button. Car, platform, 7 milk cans included, Car 11" long. **\$12.95**

No. 3359 Operating Twin-Dump Car. Two separate twin dumps operate in sequence by remote control. Can carry two different types of cargo. Car, coal and receiving bin included, Car 11 7/8" long. **\$10.95**

No. 3361 Operating Lumber Car. This popular Lionel "logger" gives real trackside action! Pulsing mechanism lifts car bed by remote control as logs roll off into bin. Car, logs and bin included. Car is 10 3/8" long. **\$7.95**

No. 3562 Operating Barrel Car. Barrels move along car to roll-off position, then with the help of the animated operator they fall into the bin. Car, six barrels and bin included. Car 11 1/4" long. **\$9.95**

No. 3494-625 "Soo Line" Animated Car. One in the Lionel series of exciting operating box cars with real railroad colors and markings! Door opens and trainman emerges by remote control. Car 10 1/2" long. **\$7.95**

No. 3494-550 "Monon" Animated Car. Here's an operating box car with Hoosier Line slogan and insignia. When the remote control button is pressed, the door opens and the trainman looks out. Car 10 1/2" long. **\$7.95**

No. 3494-275 "State of Maine" Animated Car. This operating box car gives you exciting, remote control action. Just press the button . . . then watch the door of this strikingly colorful car open as the trainman peers out. Car 10 1/2" long. **\$7.95**

LIONEL FREIGHT CARS

New! No. 6434 Illuminated Poultry Car. An unusual car built for carrying chickens, turkeys and other fowl to market. Illuminated interior shows off fowl within the car. Unique sliding doors. Car 11" long. **\$6.95**

New! No. 6805 Atomic Energy Disposal Car. Carries "hot" waste in two especially designed concrete containers. Each container has red automatic blinker indicating "danger". Containers are held on by spring clips to the rails. Car 11" long. **\$6.95**

New! No. 6175 Rocket Car. Red flat car carries a model of an intercontinental ballistic missile with nose cone made of polyurethane foam for safety. Especially designed for use with No. 175 Rocket Launcher. Car 11" long. **\$5.95**

New! No. 6556 Stock Car. Two-level stock cars like these with separate sliding doors on each level are used to transport "small animals." Red with white markings in M-K-T markings. Car 11 1/4" long. **\$5.95**

New! No. 6660 Boom Car. Carries a manually operated crane with separate controls for lifting hook and elevating crane boom. Two springloaded outriggers steady car while lifting heavy loads. Car 11" long. **\$6.95**

New! No. 6519 Allis Chalmers Car. Replica of an Allis Chalmers machinery carrier. Carries a huge condenser and heat exchanger for power house installation. Orange with black markings. Car 10 3/4" long. **\$5.95**

New! No. 6803 Flat Car with Marine Corps Tank and Sound Trucks. A field gun in a swiveling turret is mounted on the tank. The mobile listening post has twin sound detectors and operator's saddle on a swivel mount. Car 11" long. **\$4.95**

New! No. 6804 Flat Car with Marine Corps Anti-Aircraft and Sound Trucks. Two automatic cannons and a gunner's seat on a swivel mount are carried on the anti-aircraft truck. The mobile listening post has a set of sound detectors. Car 11" long. **\$4.95**

New! No. 6806 Flat Car with Marine Corps Radar and Medical Trucks. The mobile radar unit carries an antenna and operator's seat swivel mounted on the truck bed. The medical service unit is a closed truck. Car 11" long. **\$4.95**

New! No. 6807 Flat Car with Marine Corps "Duck". This flat car transports a model of the sea-going amphibious "duck" used in landing operations. "Duck" model actually floats. Car 11" long. **\$4.95**

New! No. 6808 Flat Car with Marine Corps Two Gun Tank and Searchlight Truck. Two automatic cannons in a movable open turret are carried on the "flak" tank. The searchlight swivels to follow low-flying aircraft. Car 11" long. **\$4.95**

New! No. 6809 Flat Car with Marine Corps Anti-Aircraft and Medical Trucks. Anti-aircraft truck mounts a pair of heavy automatic anti-aircraft cannon on a swivel. The medical truck has closed van body. Car 11" long. **\$4.95**

New! No. 6810 Flat Car with Cooper-Jarret Van. Carries one removable Cooper-Jarrett trailer van. Car 11" long. **\$4.95**

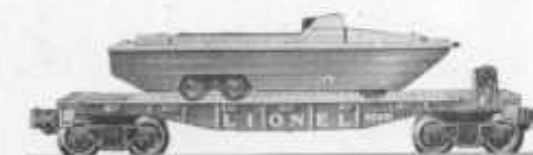

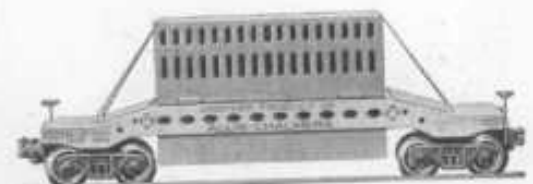

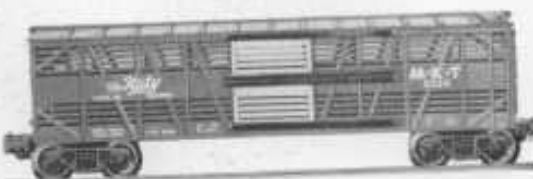

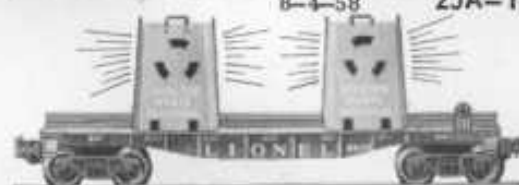

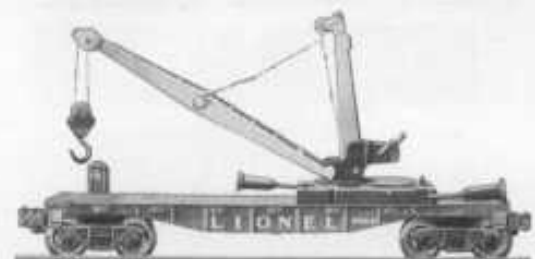

New! No. 6802 Flat Car with Two U.S. Steel Girders. This flat car carries two detachable U.S. Steel bridge girders. Car 11" long. **\$5.95**

New! No. 6151 Range Patrol Car. Flat car carries a patrol truck for transporting personnel. Car 9" long. **\$3.50**

New! No. 6818 Flat Car with Transformer. This heavy-duty flat car carries a huge black transformer with white lettering. Car 11" long. **\$4.95**

B-4-58

25A-17

LIONEL FREIGHT CARS

New! No. 6465 Two Dome Gulf Oil Car. A model of the Gulf "tanker" with authentic Gulf insignia. Car 9" long. \$4.95

New! No. 6557 Smoking Caboose. Caboose has smoke generator and fully illuminated interior. No. 909 Smoke Fluid included. Caboose 7" long. \$6.95

No. 6801 Boat Car. Transports a white model boat that actually will float. Boat is held in position by double-cradle removable mountings. Car 10 1/2" long. \$4.95

No. 6800 Airplane Car. Carries a model airplane with wings retracted. Plane can be removed and wings assembled into flying position. Car 10 1/2" long. \$4.95

No. 6424 Twin Auto Car. Carries two removable perfectly-detailed model automobiles. Car 11" long. \$4.95

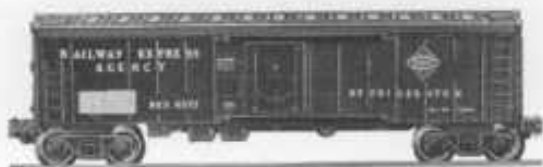

No. 6430 Cooper-Jarrett Van Car. Carries two removable scale model Cooper-Jarrett freight vans. Car 11" long. \$5.95

No. 6476 Hopper Car. Cars like these carry most of the country's coal. In red Lehigh Valley markings. Car 9 3/4" long. \$3.50

No. 6315 Gulf Chemical Car. This car is emblazoned with bright Gulf markings. Rich in detail. Car 10 1/2" long. \$5.95

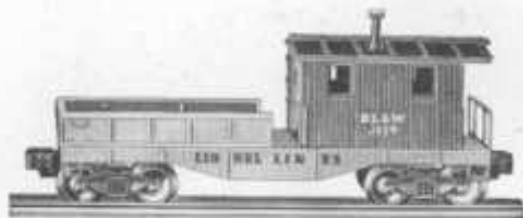

New! No. 6572 Railway Express Reefer Car. Newly developed refrigerator car! Green with American Railway Express markings in gold. Sliding doors. Car 11" long. \$5.95

New! No. 6427-60 Illuminated Caboose. A cupola caboose in famous "Virginia" markings. Illuminated. Caboose 8 1/4" long. \$5.95

No. 6427 Illuminated Caboose. (Not illustrated). A cupola caboose in "Pennsylvania" markings. Illuminated. Caboose 8 1/4" long. \$5.95

No. 6119 Work Caboose. In D.L. & W. markings. A familiar sight with work trains. Caboose 8 1/2" long. \$3.50

No. 6562 Gondola with Conisters. Large 10 1/2" gondola with four removable conisters. In New York Central markings. \$4.95

No. 6477 Miscellaneous Car with Pipes. A distinctive carrier used by big railroads to carry bulky loads. Includes 5 pipes. Car 11" long. \$4.95

No. 6264 Lumber Car. Carries timber and can be used with No. 264 Operating Fork 1 1/2" Platform. Has removable side stakes. \$4.95

New! No. 6536 Minneapolis & St. Louis Hopper Car. An extra long hopper car with four double hoppers underneath. In Minn. & St. Louis markings and colors. Car 11 1/2" long. \$4.95

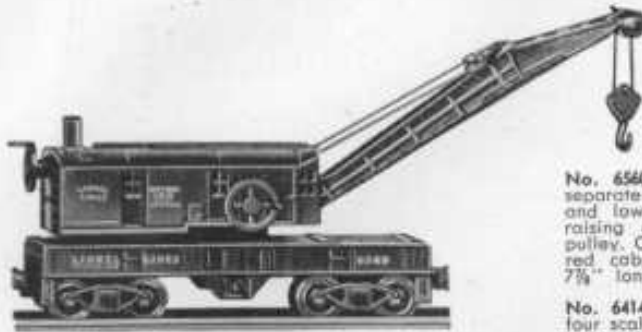

No. 6657 Denver & Rio Grande Caboose. Illuminated caboose with herald of the "Rio Grande" line. Caboose 6 3/4" long. \$5.95

No. 6357 Illuminated Caboose. (Not illustrated). In tuscan red. \$5.95

LIONEL FREIGHT CARS

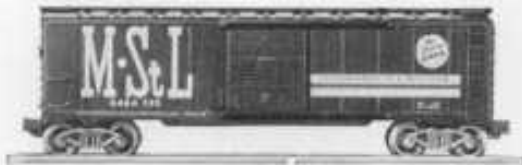

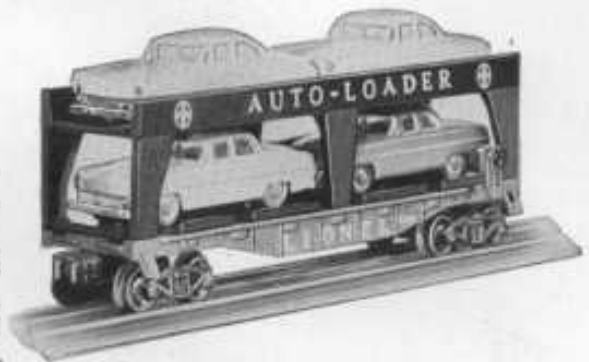

8-6-56

25A-19

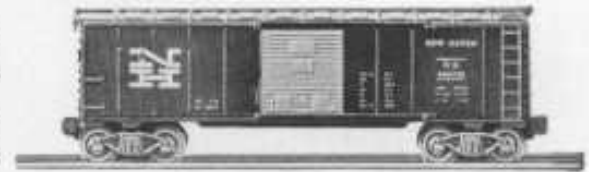

No. 6560 Wrecking Crane. Has two separate handwheels -- one raising and lowering the boom -- the other raising and lowering the hook and pulley. Cab can be rotated. Black with red cab, white markings. Crane car 7 1/2" long. **\$7.95**

No. 6414 Auto Transport Car. Carries four scale-detailed autos which can be removed. Transport car is red and black with white lettering. Car 11" long. **\$7.95**

No. 6464-325 Minneapolis & St. Louis Box Car. In red and white carrying the slogan, "The Pearly Gateway." Sliding doors. Car 10 1/2" long. **\$5.95**

No. 6464-425 New Haven Box Car. Wears the brilliant heraldry of the New Haven Railroad. Sliding doors. Car 10 1/2" long. **\$5.95**

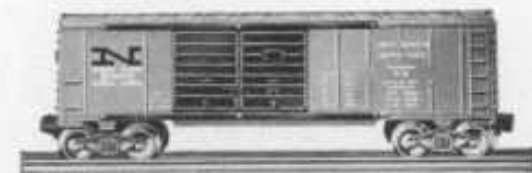

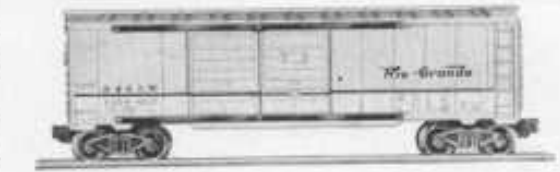

No. 6464-500 Timken Box Car. Color and markings are taken from the roller-bearing company's blueprints. Sliding doors. Car 10 1/2" long. **\$5.95**

No. 6464-275 "State of Maine" Box Car. Features famous red, white and blue markings of the Bangor & Aroostock Railroad. Sliding doors. Car 10 1/2" long. **\$5.95**

No. 6464-475 Boston & Maine Box Car. Carries the colors and monogram of the Boston & Maine Railroad. Sliding doors. Car 10 1/2" long. **\$5.95**

No. 6464-650 Denver & Rio Grande Box Car. In D. & R. G. striking yellow, black and white. Sliding doors. Car 10 1/2" long. **\$5.95**

No. 6468 New Haven Automobile Car. In brilliant New Haven colors! Has extra-wide doors for automobiles and other cargo. Car 10 1/2" long. **\$5.95**

No. 6517 Bay Window Caboose. Brightly illuminated with modern bay-window design. Detail includes radio antenna, catwalk. Caboose 10 1/2" long. **\$7.95**

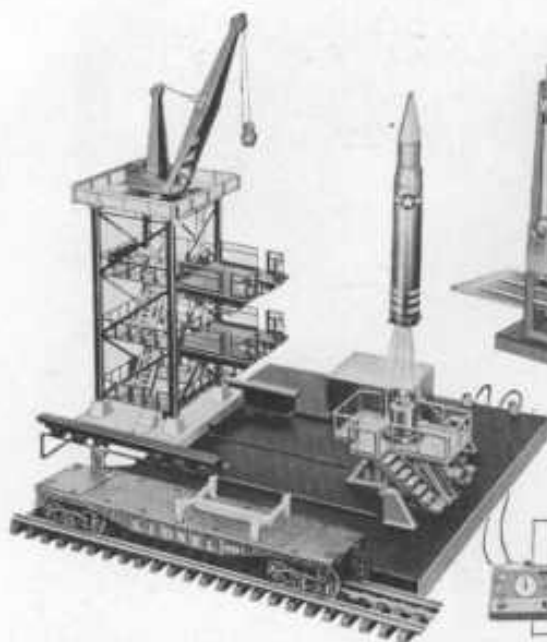

No. 6112 Gondola with Conistors. Black gondola with 3 removable red conistors. Car 9" long. **\$3.50**

No. 6014 Frisco Box Car. Carries herald of the Midwest's busy freight-hauling line. Car 8 1/2" long. **\$3.50**

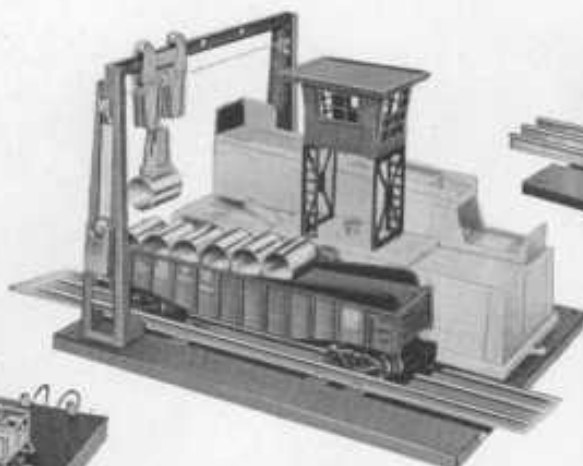

ALL LIONEL ROLLING STOCK IS EQUIPPED WITH REMOTE CONTROL KNUCKLE COUPLERS

LIONEL ACCESSORIES

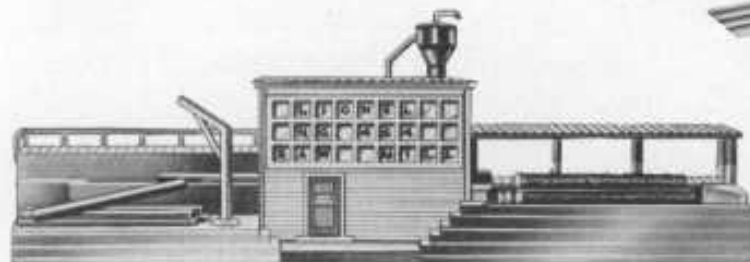

No. 175 Rocket Launcher. Set includes motorized launching tower moving on its own track; a remote control illuminated console with realistic count-down mechanism; tower control button and firing button; launching platform; rocket with safety polyurethane foam nose cone. Base 11" x 11", tower and crane 17" high. (Car not included.) \$17.95

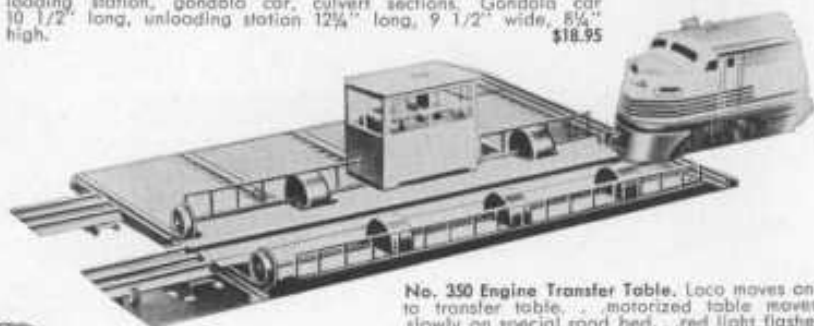

No. 345 Culvert Unloading Station. Traveling crane moves by remote control to gondola car, lowers magnetic lift, picks up culvert section, transports it onto station. Ramp furnished with station may be used to connect No. 345 to No. 342 Culvert Loader for complete loading and unloading operation. Set includes unloading station, gondola car, culvert sections. Gondola car 10 1/2" long, unloading station 12 1/4" long, 9 1/2" wide, 8 1/2" high. \$18.95

No. 342 Culvert Loader. Traveling crane picks up culvert pipe from loading platform by remote control, delivers it to gondola car. Pipe rails to end of car to make room for next section. Can be used with Lionel's No. 345 Culvert Unloading Station for continuous operation. Set includes loading station, gondola car and culvert sections. The gondola car is 10 1/2" long, loading station 12 1/4" long, 9 1/2" wide, 6" high. \$14.95

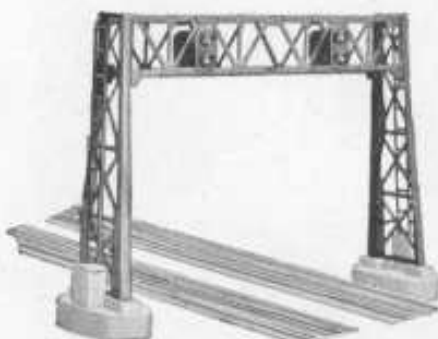

No. 464 Operating Lumber Mill. Logs travel on remote control conveyor belt into concealed bin. Dressed boards come out on other side. Real "buzzing" sound! Set includes mill, logs, lumber. Mill 19" long, 5" wide, 7" high. \$12.95

No. 350 Engine Transfer Table. Loco moves on to transfer table. . . motorized table moves slowly on special road bed. . . red light flashes automatically when table rails are perfectly aligned with the rails of siding. . . loco moves off transfer table. Loco not included. Track bed 17 1/2" long, 10 1/4" wide. \$22.50

No. 350-50 Transfer Table Extension. For extending movement of transfer table to 4 parallel tracks. Track bed 17 1/2" long, 10 1/4" wide. \$4.95

No. 450 Operating Signal Bridge. Spans two tracks. Two target lights change from red to green as train passes underneath. Can be wired for use as "block" signal to halt following train automatically. Bridge 10 1/2" wide, 7 3/4" high, 3 1/4" deep. \$8.95

No. 264 Operating Fork Lift Platform Set. Press the remote control button and the miniature fork lift truck moves up to loaded timber flat car. . . grips and lifts up heavy timber. . . turns around and takes timber back to platform. . . returns for more timber. Set includes platform, fork lift truck, timber flat car, timbers. Platform 10 1/2" long, 11 1/2" wide, 5 1/2" high. \$16.95

No. 145 Automatic Gateman. As train approaches, door opens, gateman hurries out swinging his lantern. After train has passed, gateman goes back inside illuminated shack and door closes. Station 7" long, 5 3/4" wide, 4 1/2" high. \$6.95

No. 114 Newstand with Built-In Horn. \$7.95

No. 118 Newstand with Built-In Whistle. \$9.95

Illuminated counters show the wares of a real newsstand. Just the thing for locos without horns or whistles. Newsstand 8" long, 7" wide, 3 1/4" high.

No. 128 Animated Newsstand. When remote control button is pushed, the newsdealer moves to front of stand. . . the newsboy turns and offers a paper. . . pup chases his tail around hydrant. Newsstand 8 1/2" long, 6 1/4" wide, 4 1/4" high. \$9.95

No. 197 Rotating Radar Antenna. Antenna is powered by Lionel's "Vibrator" mechanism which causes it to rotate continuously. Simulated structural steel tower with blueprint detailing. 12" high. Base 3" x 4 1/4". \$5.95

No. 497 Operating Cooling Station. Four-way remote control operation. (1) Loaded car dumps coal into bin. (2) Bin is hoisted to top and lifts coal into storage hopper. (3) Bin returns to railside. (4) Storage bin doors open to reload into car. (Car not included.) Station 9 1/2" long, 6" wide, 10" high. **\$16.95**

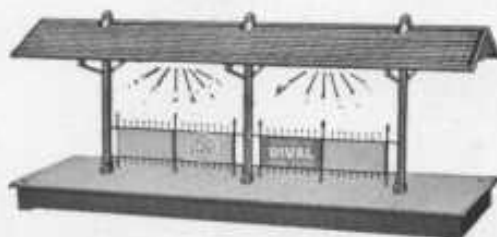

New! No. 321 Trestle Bridge. Easy-to-assemble model of Pennsylvania-type bridge. Steel base and finely moulded construction details including gussets and rivets. Bridge 4 1/2" wide, 24" long, 7" high. **\$4.95**

New! No. 365 Dispatching Station. Dispatcher's office is completely illuminated, showing the dispatchers at their control panels. Equipped with radio antenna, ornamental loud speakers. Station 11" long, 5" wide, 6 1/2" high. **\$5.95**

No. 334 Operating Dispatching Board. When remote control button is pressed, board attendant hurries across catwalk and changes information in the illuminated slots. Train names can be chalked in. Illuminated clock and decorative loudspeakers. Illuminated advertising board and ticket office in rear. 10 1/2" long, 4 1/2" wide, 7 1/2" high. **\$12.95**

New! No. 157 Picket Fence Station. Illuminated "commuter-type" station displays colorful billboards. Extra picket fence included to connect two or more platforms for a long station. Station 12" long, 3 1/4" wide, 5 1/2" high. **\$5.95**

No. 111 Trestle Set. 10 large trestles to be used in conjunction with No. 110 Graduated Trestle Set. For all Lionel track and locos equipped with Magne-Traction. Each pier 4 3/4" high. **\$3.95**

No. 110 Graduated Trestle Set. Set of 24 graduated trestles for overpass and other overhead arrangements. For Lionel track and locos equipped with Magne-Traction. Piers 3/16" to 4 3/4" high. **\$5.95**

No. 253 Automatic Block Control Signal. Stops and starts train automatically. Lever controls stopping time. Red and green indicator lights. Base 4" x 2", signal 7" high. **\$6.95**

No. 154 Flashing Highway Signal. Red lights blink alternately as train approaches. After train passes, action stops. Signal 9" high. **\$5.50**

No. 153 Automatic Block Signal. As train passes, signals automatically change from green to red. Can control second train in two-train operation. Signal 9" high. **\$5.95**

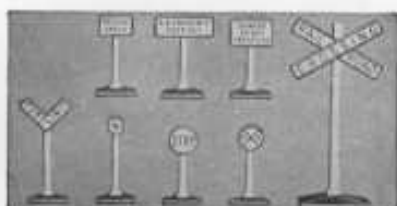

No. 151 Automatic Semaphore. As train passes, the arm drops to horizontal "Train Ahead" position and the light automatically changes from green to red. Semaphore 9 3/4" high. **\$5.95**

No. 140 Banjo Signal. A crossing signal with automatic action. As train gets near, red light flashes on and banjo arm swings to and fro. Action stops as train passes. Signal 7 1/2" high. **\$5.95**

No. 410 Billboard Blinker. Floodlight can be attached to any frame in No. 310 Billboard Set... blinks on and off automatically. **\$2.75**

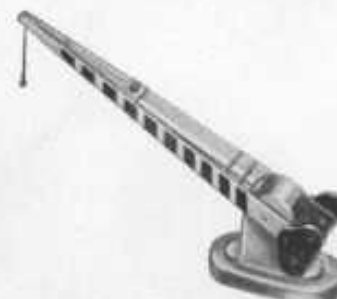

No. 309 Yard Set. Eight different authentic railroad signs with screw-holes for permanent mounting. **\$1.00**

No. 310 Billboard Set. Colorful posters of America's best-known products add sparkle to any pike. Set includes 5 frames, 5 posters. **\$1.00**

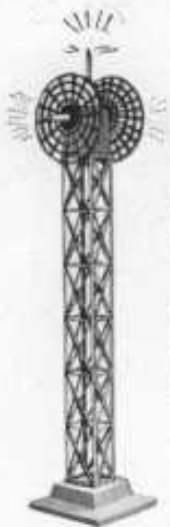

New! No. 920-2 Tunnel Portals. Pair of realistically moulded cut stone tunnel portals. Provides 5 1/4" clearance. Portals 8" wide, 7" high. **\$1.75**

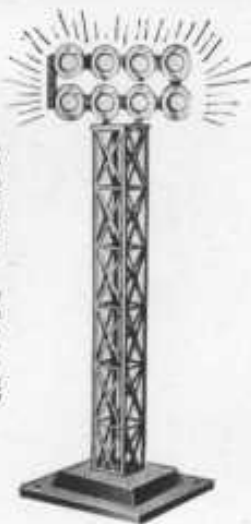

No. 252 Automatic Crossing Gate. Flashing lights and lowering gate warn of the approach of oncoming train. Gate rises automatically and lights go off to signal the "all clear". Gate 9 1/4" long. **\$5.95**

LIONEL ACCESSORIES

New! No. 199 Microwave Relay Tower. A tall slender tower for radio communication. Carries two parabolic antennas. Three red aircraft warning lights blink on and off automatically. Base $3\frac{1}{4}" \times 3\frac{1}{4}"$, tower 16" high. **\$4.95**

No. 195 Eight-Bulb Floodlight Tower. Eight powerful lights are set in adjustable silvered reflectors to give a spectacular floodlight effect for night yard operations. Tower 12 $\frac{1}{2}"$ high. Base $3\frac{1}{4}" \times 3\frac{1}{4}"$. **\$5.95**

No. 494 Rotary Beacon. Realistic! Revolves constantly, beaming red and green light through fresnel-type lens. Powered by Lionel's exclusive "Vibrator". Base $5" \times 5"$, tower 11 $\frac{3}{4}"$ high. **\$5.95**

No. 89 Flag Pole "Old Glory" and "Lionel" pennant can be raised and lowered by rope on this sturdy pole, set in a grass plot flanked by park benches. Base $3\frac{1}{4}" \times 3\frac{1}{4}"$, Pole 11" high. **\$1.75**

No. 71 Lamp Post. Impposing enameled, all-metal lamp post for a village or station with real light on top. Fluted column and hexagonal light shade. Post 6" high. **\$1.25**

No. 119 Tunnel. A sturdy scenic tunnel, attractive enough to enhance any layout. Tunnel 14" long, 10" wide, 8" high. **\$2.95**

No. 920 Scenic Display Kit. Adds realism to any model railroad! Contains a generous quantity of landscaping material for a 4' x 6' layout including a 4-foot, 2-portals mountain tunnel. Includes tunnel portals, grass, rock, lichen, paint, etc. **\$7.95**

No. 214 U.S. Steel Girder Bridge. Adds more realism to a railroad system. Bridge 10" long, 4 $\frac{1}{2}"$ wide. **\$1.95**

New! No. 950 U.S. Railroad Map. In full color, prepared by Rand McNally. Shows U. S. railroad routes keyed for easy identification as well as colorful heralds of major railroads. Perfect for wall of bedroom, den, or playroom. Educational and informative. Size $52" \times 37"$. **\$1.95**

No. 927 Maintenance Kit. Oil, lubricant, "Track Clean" for maintenance of Lionel equipment. **\$2.50**

No. 919 Grass. To be sprinkled over wet green paint to give layout a real "outdoor" look. **60c**

No. 206 Coal. Looks like real coal, made of clean plastic. **50c**

No. 40 Hook-Up Wire and Cable Reel. 50 feet of insulated 18-gauge wire for power connections. **\$1.50**

No. 3927-75 "Track-Clean" Lionel's non inflammable detergent fluid... conditions track and improves locomotive traction. **75c**

No. 3927-50 Track Wipers. Contains 25 cotton track cleaning pads to be used with No. 3927 Track Cleaning Car. **75c**

No. 480-25 Conversion Magnetic Coupler. To convert "Scout" cars to remote control magnetic coupling. **55c**

New! No. 920-6 Lichen. Imported Norwegian lichen specially treated and colored for shrubbery. **\$1.25**

New! No. 920-5 Artificial Rock. Expanded mica-type mineral. Light, fire proof, realistic. **25c**

No. 925 Lubricant Tube. Large 2 oz. of special grease-type lubricant for trains and accessories. **35c**

SP Smoke Pellets. When pill is put in smokestack loco puffs white smoke. Odorless, safe, 50 tablets per bottle. **50c**

New! No. 909 Smoke Fluid. Especially developed for No. 746 N & W loco and No. 6557 Smoking Caboose. **\$1.00**

LIONEL PIKE ACCESSORY SETS

8-4-58

25A-23

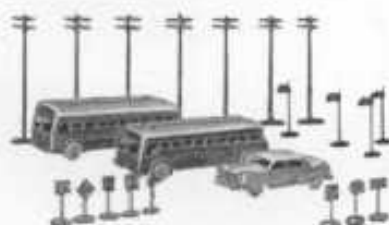

New! No. 952 Figure Set, 30 pcs. - townspeople, fire plug, fire alarm box and mail boxes. \$1.00

New! No. 966 Firehouse Set, 45 pcs. - firehouse, fire engines, alarm box, hydrant, ambulance, bus, autos, traffic light, street signs, street post, bench, mail box, townspeople, telegraph poles, pine trees. \$3.50

New! No. 951 Farm Set, 13 pcs. - truck, tractor, jeep, horses, cows, harrow, plow, wagon and foot-bridge. \$1.00

New! No. 962 Turnpike Set, 24 pcs. - interchange, stanchions, telegraph poles, street signs, autos, ambulance and bus. \$3.00

New! No. 953 Highway Set, 22 pcs. - assorted street signs, telegraph poles, auto and buses. \$1.00

New! No. 967 Post Office Set, 25 pcs. - post office, mail box, townspeople, benches, street signs, street post, traffic light, truck, autos. \$2.00

New! No. 958 Vehicle Set, 24 pcs. - autos, fire trucks, bus, ambulance, street signs, fire alarm box, mail box, fire plug, and traffic light. \$1.25

New! No. 968 TV Transmitter Set, 28 pcs. - TV Station, fence, gate, townspeople, mail box, fire plug, jeep, autos and pine trees. \$2.50

New! No. 959 Barn Set, 23 pcs. - beautifully-detailed dairy barn, horses, fowl, and domestic animals. \$1.50

New! No. 957 Farm Building and Animal Set, 35 pcs. - farm structures, fence, gate, pump, horse, fowl, and domestic animals. \$1.25

LIONEL TRAINMASTER TRANSFORMERS

ZW Transformer - 275 Watt, 115 Volts, A.C., 60 Cycles. Mightiest of them all! Four variable voltage circuits will operate up to four different train sets simultaneously. Two separate built-in horn and whistle control circuits, two separate train direction levers. Heavy-duty circuit breaker. Green "Power On" light, red light to warn of "shorts" or overloads. Durable phenolic housing. 12 1/2" x 7" x 6 3/4". **\$39.95**

KW Transformer - 190 Watt, 115 Volts, A.C., 60 Cycles. Double throttle control center! Can operate two train sets plus loads of operating accessories. Two separate train direction control buttons, two separate horn and whistle control circuits. Built-in automatic circuit breaker. Red indicator light warns of "shorts". High-impact phenolic case. 7 1/4" x 6 1/2" x 7 1/2". **\$32.50**

TW Transformer - 175 Watt, 115 Volts, A.C., 60 Cycles. Two independent power circuits! Right hand throttle controls speed. Left hand controls starting, stopping, reversing, horn or whistle. Built-in automatic circuit breaker, warning light. UL approved. 8 3/4" x 5 3/4" x 5". **\$26.50**

LW Transformer - 125 Watt, 115 Volts, A.C., 60 Cycles. Two buttons control train direction, horn or whistle. Two fixed voltage ranges for accessories. Built-in automatic circuit breaker, warning light. UL approved. 6 3/4" x 5" x 5 1/2". **\$16.50**

No. 1044 Transformer - 90-Watt, 115 Volts, A.C., 60 Cycles. Right-hand lever controls horn or whistle, train direction. Left-hand lever controls train speed. Two fixed voltage ranges for accessories. Automatic circuit breaker. UL approved. 5" x 4 1/2" x 4 1/2". **\$12.95**

No. OC Curved Track - 10 7/8" long 30c

No. OS Straight Track - 10" long. 30c

No. 1/2 OC Half-Section Curved Track 6" long. 30c

No. 1/2 OS Half-Section Straight Track 5 1/2" long. 30c

No. 011-11 Fibre Pins ea. 5c

No. OC-18 Steel Pins doz. 15c

No. 760 Package of 16 Sections curved "O22" track. Section is 14" long. For use with "O" track. \$8.00

No. 020 90° Crossing \$2.95

No. 020X 45° Crossing \$2.95

No. UCS Remote Control Track Set - Track 10" long. \$5.95

LIONEL TRACK ACCESSORIES

No. 148 Dwarf Trackside Light -- Nylon-hooded red and green lamps are set on a two inch high dwarf signal stand. Can easily be wired to block train automatically at a freight siding or switchpoint. \$3.95

No. 260 Illuminated Bumper -- For spurs, freight sidings, yards, anywhere there is a "dead end". \$2.50

No. 91 Circuit Breaker -- Electro-magnetic; flashes red warning light at first sign of short circuit. \$3.95

No. LTC Illuminated Lock-on -- Insures positive track connection. Green light signals "power on". For "O" and "O22". \$1.50

No. CTC Lockon -- Easy snap-on connector for making electrical connections to track. For "O" and "O22". 25c

LIONEL'S SUPER "O" TRACK

Most Important Model Railroading Development
since MAGNE-TRACTION

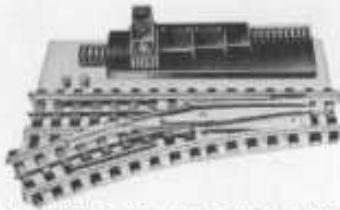

Lionel Super "O" track with its two flat-top "T" shaped running rails and inconspicuous third rail placed between the outside running rails is authentic even to the closely spaced ties and accurate detail of the tie plates and rail spikes.

Super "O" track provides all the operating advantages of three rail track making possible flexibility and easy wiring for any track layout irrespective of size or complexity.

All Lionel locomotives and every type of rolling stock operates perfectly on Super "O" track, which can be used interchangeably with any "O27" or "O" gauge track switches or track accessories by using special transition pieces.

Super "O" track measures 1 1/4" between the running rails. The height of the track is 15/32". Straight and curved sections each are 9" long. There are 16 molded ties in each track section. A circle of 12 sections of Super "O" track measures 38" in diameter.

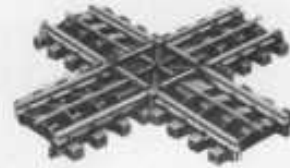

LIONEL SUPER "O" TRACK AND SWITCHES

No. 112 Pair Remote Control Switches \$22.50 pair
No. 112-125 Left hand Remote Control Switch \$11.95
No. 112-150 Right hand Remote Control Switch \$11.95

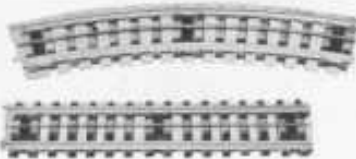

No. 142 Pair Manual Switches \$10.95
No. 142-125 Left hand Manual Switch \$5.95

**HOLIDAY MAGIC THAT SOLVES
 YOUR CHRISTMAS GIFT PROBLEM . . .**

It's not the big Christmas gifts that worry you, it's the little ones. For your customers, your business friends, your employees . . . for Aunt Polly and the folks next door . . . you want a gift that is practical, yet distinctive; inexpensive, yet welcomed.

And here is the gift that like a stroke of magic solves all those problems! Here is a Christmas fruit cake unsurpassed in its full, rich-bodied flavor, its superb old-fashioned goodness. It is a gift of true distinction, yet so practical that you can give it to anyone. It is inexpensive, yet so wonderfully delicious that it is a credit to your own good taste.

There is real Christmas magic in each tender-textured slice! It is magic created from the richness of glazed pineapple and candied cherries . . . from the mouth-watering flavors of choice bonded bourbon, brandy and rum . . . from the tastiness of crisp almonds, walnuts and pecans. More thousands of delighted customers learn each year there is no nicer way to say, "Merry Christmas!"

And no easier, simpler way, either. **JUST FILL IN
 AND MAIL THE ENCLOSED ORDER BLANK NOW!**

SAFE, RUGGED CONSTRUCTION

The all steel heavy gauge body (over 5 feet long) is reinforced with a heavy fully welded 1 1/4 inch tubular frame. It's streamlined too with a rigid, clear plastic windshield on the blue metallic body.

LOOK AT THESE "EXTRA" FEATURES!

The one hand positive action dual throttle and brake control, centrifugal pulley type clutch, steel fire wall between the driver and engine, large 10 inch x 2.75 inch semi pneumatic tires with oilite sleeve bearing.

And a real he-man power plant:

A Clinton 2 1/2 horsepower 2 cycle engine with built in recoil starter, governor and throttle limit control screw.

And don't forget, it's factory assembled and individually packaged in a cardboard carton... and priced very, very low.

SPECIFICATIONS

Overall length:	5 feet
Overall height:	27 inches

PLAYGROUND OUTFITS WITH THAT EXTRA MARGIN OF VALUE...

Complete Line of **QUALITY SLIDES**

GALVANIZED

Double curved, "D" tube, galvanized steel slide. 1" tubular ladder rails. Slide bed is 13½ inches wide.

No. 4106 (7' Long Overall)	37 lbs.
No. 4108 (9' Long Overall)	57 lbs.
No. 4110 (11' Long Overall)	72 lbs.

STAINLESS STEEL

HEAVY FULLY INSERTABLE "D" TUBING — 1½" HIGH. ALL slides curved top and bottom — Zinc die cast end caps — compare this fine quality with other poor imitations.

Beautiful mirror finish stainless steel is backed up by heavy galvanized sheet. Extra channel type bracing under bedway. Wide tread type steps attach to 1¼" ladder rails. Slide bed is 14 inches wide.

No. 4408 (9' Long Overall)	78 lbs.
No. 4410 (11' Long Overall)	86 lbs.
No. 4412 (13' Long Overall)	104 lbs.

Production line techniques in packing have resulted in lower cost and better quality. Finished gyms and slides reach the consumer without scratches and damage. Each part is inter-leavened with paper. All gyms and slides are packed in heavy corrugated shippers, sealed with heavy industrial tape. Another service to provide you with the finest merchandise available.

The new quality control department assures enforcement of the rigid quality standards established by TURCO. Gyms and slides are physically checked, measured and inspected. This has eliminated shortages, wrong parts, sharp edges and mis-matched parts. Another stride in providing you with the finest merchandise on the market.

SNO-COASTERS

MIRRO

Saucer-shaped conveyance works much like a toboggan. It goes straight—occupant shifts weight and coaster spins on its way down.

Safe and practically indestructible—made of aluminum with beaded edge.

Two reinforced tow rope holes which enables it to be pulled like a sled. Double riveted heavy web handle loops—one on each side.

Light and easy to carry, compact to store.

Diameter 27 inches

The New...Fast...Lightweight...

Red Rocket

TOBOGGAN SLED

Molded of Fiber Glass

48" LONG — 15" WIDE

COLOR: HOLLY RED

Here's the toboggan that is adding new thrills and excitement to an age old sport!

It looks FAST — and it is! Molded fiber glass develops very low friction on ice and snow. So it needs no *waxing* to give a fast, straight ride under all snow conditions. Standard toboggan grooves on bottom keep it on course.

LIGHT in weight — a six year old child can easily carry it up a hill under his arm. A full 4 feet long

and 15 inches wide, it weighs substantially less than the old fashioned toboggan of equal size.

The bright HOLLY RED color is molded into the fiber glass and is PERMANENT. It keeps that "just new" look throughout its long life. This very durable fiber glass material is completely weatherproof and highly resistant to rough handling by children.

For extra *comfort* a high quality toboggan cushion, 42" long with leatherette outer covering is available at a small additional cost.

C-O TWO FIRE EXTINGUISHERS

CARBON DIOXIDE

Recommended—Especially for highly inflammable liquids, paints, oil, solvents and alcohol fires and for the protection of electrical equipment.

Construction—Cylinder is of high pressure steel and I. C. C. approved, with a forged brass valve. The discharge hose is of wire reinforced rubber construction with cotton braided cover and die pressed couplings. The discharge horn is a non-conductor, resistant to corrosion or moisture and is of shatterproof construction.

"Squeeze-Grip" Valve—Has a "pressure-closing seat" which is sealed against leakage by the tremendous pressure of carbon dioxide stored within its own cylinder. The valve is opened just as fast as you can close your hand as there is nothing to do but squeeze the control lever over the carrying handle.

Maintenance—Carbon dioxide does not deteriorate. A periodic check of the extinguisher is the only maintenance required. Full and empty weights are stamped on nameplate and valve. Recharging stations are conveniently located in all principal cities.

Approvals—C-O-TWO portable extinguishers are approved by Underwriters' Laboratories, Inc., Factory Mutuals and comply with all Federal regulations and requirements.

Hand Type Portables

Extinguishing Agent—Carbon dioxide, the fastest extinguishing agent, is a dry inert gas stored in cylinders under pressure and snuffs fire out in seconds. It leaves no odor, stain or damage. It is non-corrosive and a non-conductor of electricity and does not deteriorate or freeze.

PYRENE FIRE EXTINGUISHERS
VAPORIZING LIQUID

Pyrene fire extinguishers are effective for extinguishing all classes of fire in its incipient stages and especially fires in flammable liquid and electrical equipment. The liquid is non-conductive and will not injure electrical equipment.

PUMP TYPE

For use in schools, homes, automobiles, trucks, buses, subways, motorboats, airplanes, railway coaches and every industry having a fire hazard.

Light, compact and easily operated. The double acting pump with rotating pick-up discharges a steady 25 to 30 foot stream from any position in any direction. Labeled by Underwriter's Laboratories.

Fully charged — complete with bracket.

For automobiles, airplanes and heavy vehicles. "Shock absorber" construction and clamp type brackets for wall guard against wear from excessive vibration.

Size—1 Pint, 11½x2½ inches. 1 Quart, 11½x2½ inches. 1½ Quart, 14x3 inches.

STAR ★ DENOTES BEST SELLER

GREASE GUNS**K. P. HIGH PRESSURE****Spring Fed**

Strong all steel construction—well balanced—new improved natural grip handle fits hand comfortably. Disappearing plunger handle. Large opening in head of gun permits the use of fibrous greases. Extra large grease plunger rod displaces two-thirds more grease per stroke than other grease guns on the market. Will develop a working pressure of 8,000 pounds.

Equipped with a 6-inch steel tube and a hook-on coupler. Cylinder 2 1/4 x 11 inches. Capacity Approximately 18 oz.

Black oxide finish barrel and handle. Other parts bright finish.

GREASE GUN FLEXIBLE HOSE**K. P.****Fits any Hand Lever Gun**

Makes lubricating out-of-the-way fittings easy. Saves time and money. Made of oil, grease and acid resisting 3-ply neoprene. Well made to withstand the pressure of hand lever grease guns. Has 3/8-inch male pipe thread stud on each end.

Each		Each
R-115-K	X1D15★	\$1.75

Loose. Weight each 1 lb.

GREASE FITTINGS**LINCOLN KLEENSEAL**

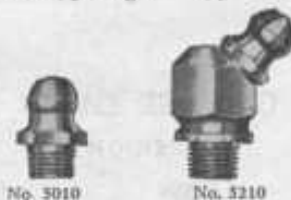

These fittings are used as standard equipment by many leading manufacturers of automobiles, farm implements, trucks, tractors and industrial machinery.

Made of high grade steel, specially hardened against wear and damage. Ball-in-top seals dirt out and grease in. All threaded for iron pipe

BARREL PUMPS

BARRET "BANNER"

Handles all types of non-viscous liquids—kerosene, gasoline, alcohol, lubricating oils, cutting oils, range oil, thinners, solvents, anti-freeze. Rigid outlet with $\frac{3}{4}$ inch hose connection. Easy in operation—priming is unnecessary. Delivers approximately one pint per stroke and up to eight gallons per minute. Double bung attachment— $1\frac{1}{2}$ and 2 inches. Heavy non-corroding brass piston ring and ball check valve. Steel telescopic suction tube drains all liquid from bottom of drum.

Each Each
6-BCP-K X8D65 \$12.98
 One in ctn. Wt. ctn. 9 lbs.

SERV-AL

This handy, easy-to-operate pump eliminates heavy lifting, lost time and waste of materials.

Will handle all lubricants. Also gasoline, alcohol, kerosene, etc., easily.

Can be used on 15, 30 and 55 gallon drum or barrel.

Seamless steel cylinder $1\frac{1}{2}$ inch diameter. Heavy cast head with spout threaded for $\frac{3}{4}$ inch hose connection. Steel valve (no leather). Bung bushing adjustable for $1\frac{1}{2}$ and 2 inch openings.

Length 42 inches. Stroke 38 inches. Natural finish. Will remove entire contents from drum or barrel.

Each Each
6-BP100-K X4D00 \$6.00
 One in ctn. Wt. ctn. 8 lbs.

AUTOMOBILE JACKS

WALKER HYDRAULIC

For Heavy Duty Trucks and Buses

All have the extra quality that has made Walker jacks the standard of value.

Real rugged, dependable hydraulic lifting power to meet the needs of heavy truck and bus service. No. 935 rated capacity of eight tons. Will handle all but the very largest and heaviest trucks and buses without removing pay load.

Capacity 8 Tons

Height 9 inches. Screw extends $4\frac{1}{4}$ inches. Raises $6\frac{1}{4}$ inches. Length handle $33\frac{1}{2}$ inches. Ram diameter $1\frac{1}{2}$ inches. Size of base $4\frac{3}{4} \times 7\frac{1}{4}$ inches.

Each Each
7-935-K X24D15 \$34.50

One in ctn. Wt. ctn. 22 lbs.

For Medium and Light Trucks and Buses

Meet the requirements of the next heavier class of service. All have long extension screws with integral lifting cap height when needed. All have the extra quality that has made Walker jacks the standard of value.

Capacity 3 Tons

Height $8\frac{1}{2}$ inches. Screw extends $3\frac{1}{2}$ inches. Raises 6 inches. Length handle $33\frac{1}{2}$ inches. Ram diameter $1\frac{1}{4}$ inches. Size of base $3\frac{3}{4} \times 6\frac{3}{4}$ inches.

Each Each
7-925-K X16D80 \$24.00

One in ctn. Wt. ctn. 16 lbs.

Capacity 5 Tons

Height 9 inches. Screw extends 4 inches. Raises $6\frac{1}{4}$ inches. Length handle $33\frac{1}{2}$ inches. Ram diameter $1\frac{1}{2}$ inches. Size of base $4\frac{3}{4} \times 7\frac{1}{4}$ inches.

Each Each
7-930-K X20D30 \$29.00

One in ctn. Wt. ctn. 19 lbs.

For Heavy Duty Trucks and Buses

No. 945 with its 12-ton capacity and $9\frac{1}{2}$ inch starting height is an ideal jack for tool box equipment on large buses and for heavy trucks handling unusually heavy loads. It is protected against overload by an automatic safety valve and has dual oil control and a convenient carrying handle.

Capacity 12 Tons

Height $9\frac{1}{4}$ inches. Screw extends $3\frac{1}{4}$ inches. Raises $5\frac{1}{4}$ inches. Length handle $23\frac{1}{2}$ inches. Ram diameter $1\frac{1}{4}$ inches. Size base $4\frac{3}{4} \times 6\frac{3}{4}$ inches.

GP324-K—Revolving Cutter with shaft with 26-tooth sprocket attached, for 21-inch mower.....	14.40
GP25-K—Shaft for 18-inch revolving cutter.....	1.80
GP325-K—Shaft for 21-inch revolving cutter.....	2.40
GP26-K—Knife for 18-inch revolving cutter.....	1.50
GP326-K—Knife for 21-inch revolving cutter.....	1.80
GP27-K—Spider for revolving cutter—Right.....	1.20
GP28-K—Spider for revolving cutter—Left.....	1.20
GP29-K—Rivet for revolving cutter spider.....	.05
GP30-K—Set Screw for revolving cutter spider.....	.15
GP31-K—Collar on revolving cutter shaft, holds Timken bearing in place on right side.....	.45
GP32-K—Allen Set Screw for collar.....	.15
GP34-K—Large Drive Sprocket—26-tooth.....	4.20
GP140-K—Roll Pin for GP51 roller bracket for GPA18, GPA21.....	.15
GP35-K—Allen Set Screw for 26-tooth sprocket.....	.15
GP36-K—Woodruff Key for 26-tooth sprocket.....	.10
GP120-K—Roll Pin for 26-tooth sprocket.....	.15
GP37-K—Timken Bearing for revolving cutter.....	1.50
GP38-K—Cup for Timken bearing on revolving cutter.....	.90
GP39-K—Pawl.....	.10
GP40-K—Pinion, L. H.....	.45
GP41-K—Pinion, R. H.....	.45
GP42-K—Tie Rod—Front—For 18-inch mower.....	1.20
GP342-K—Tie Rod—Front—For 21-inch mower.....	1.50
GP3121-K—Rubber Bushing for front tie bar for 21-inch No. KKGPA21.....	.05
GP43-K—Tie Bar—Rear—For 18-inch mower.....	.90
GP343-K—Tie Bar—Rear—For 21-inch mower—Upper.....	1.20
GP343L-K—Tie Bar—Rear—For 21-inch mower—Lower, for KKGPA21.....	.90
GP44-K—Hex Nut for front tie rod.....	.05
GP45-K—Lock Washer for front tie rod.....	.05
GP122-K—Bolt, Nut and Lock Washer for rear tie bar for 18-inch mower for KKGPA18.....	.15
GP3122-K—Bolt, Nut and Lock Washer for Rear Tie Bar for 21-inch mower for KKGPA21.....	.15
GP46-K—Cap Screw for rear tie bar.....	.15
GP47-K—Lock Washer for cap screw, rear tie bar.....	.05
GP48-K—Shaft for wood roller for 18-inch mower.....	.45
GP348-K—Shaft for wood roller for 21-inch mower.....	.70
GP49A-K—Wood Roller Section for 18-inch mower (3 required) for KKGPA18.....	.70
GP349A-K—Wood Roller Section for 21-inch mower (3 required).....	.90
GP50-K—Flat Washer between roller sections.....	.05
GP51R-K—Roller Bracket—Right.....	.45
GP52A-K—Bolt, Nut and Washers for roller bracket for GPA18, GPA21.....	.15
GP55-K—Engine Deck for 18-inch mower.....	3.00
GP355-K—Engine Deck for 21-inch mower.....	3.60
GP56-K—J Bolt—holds engine and deck to front tie rod.....	.15
GP57-K—Hex Nut for J bolt.....	.05
GP58-K—Lock Washer for J bolt.....	.05
GP103-K—Bolt, Nut and Lock Washer—Holds engine and deck to rear tie bar on right—For 18-inch mower.....	.15
GP3103-K—Bolt, Nut and Lock Washer—Holds engine and deck to rear tie bar on right—For 21-inch mower for KKGPA21.....	.15
GP104-K—Bolt, Nut and Lock Washer—Holds engine and deck to rear tie bar on left—For 18-inch mower.....	.15
GP3104-K—Bolt, Nut and Lock Washer—Holds engine and deck to rear tie bar on left—For 21-inch mower for KKGPA21.....	.15
GP59-K—Bracket for jack shaft.....	1.80
GP60-K—Bolt with Hex Nut and Lock Washer for jack shaft bracket.....	.15
GP61-K—Cover for jack shaft sprocket.....	.90
GP62-K—Screw and Lock Washer for cover for jack shaft sprocket.....	.05
GP109-K—Oil Cup for chain.....	.15
GP64-K—Ball Bearing (cone shaped) for jack shaft.....	1.50
GP54-K—Allen Set Screw for ball bearing on jack shaft.....	.15
GP66-K—Jack Shaft for 18-inch mower.....	.40

Each	Each
GP366-K—Jack Shaft for 21-inch mower.....	\$0.45
GP67-K—11-Tooth Sprocket for jack shaft.....	2.70
GP54-K—Allen Set Screw for 11-tooth sprockets.....	.15
GP69-K—Pulley for jack shaft on 18-inch mower.....	2.10
GP369-K—Pulley for jack shaft on 21-inch mower.....	2.10
GP32-K—Allen Set Screw for pulley on jack shaft.....	.15
GP71-K—Ball Bearing for jack shaft pulley on 18-inch mower.....	.90
GP371-K—Ball Bearing for jack shaft pulley on 21-inch mower.....	.90
GP72-K—Engine Pulley for 18-inch mower.....	1.80
GP372-K—Engine Pulley for 21-inch mower.....	1.80
GP32-K—Allen Set Screw for engine pulley.....	.15
GP74-K—Double V-Belt Pulley on belt tightener arm use WM74S.....	1.80
GP75R-K—Roller Bearing (Hyatt) with sleeve for belt tightener pulley, use WM75R.....	1.20
GP76-K—Belt Tightener Arm.....	.00
GP77W-K—Stud or Axle for belt tightener pulley with lock ring—Use WM77W.....	.60
GP54-K—Allen Set Screw to hold stud for belt tightener pulley.....	.15
GP113-K—Large Flat Washer on stud for belt tightener pulley.....	.05
GP114-K—Lock Ring for stud or axle on belt tightener arm.....	.05
GP79-K—Bolt to hold clutch wire on belt tightener arm with Hex Nut and 2 Washers (Flat end lock).....	.15
GP80-K—Cap Screw for belt tightener arm on engine stud.....	.15
GP81-K—Flat Washer on cap screw for belt tightener arm.....	.05
GP82-K—V-Belt (2 required)—Use Gates 2170.....	
GP83-K—Drive Chain.....	3.00
GP84-K—Connecting Link for drive chain.....	.15
GP116-K—Roller Link for drive chain.....	.15
GP85-K—Handle Tongue.....	2.10
GP86-K—Cross Bar for handle tongue.....	1.20
GP87-K—Soft Plastic Hand Grip for cross bar.....	.30
GP88RA-K—Handle Iron—Right for 18-inch mower for KKGPA18.....	.75
GP88LA-K—Handle Iron—Left—Complete with latch for 18-inch mower for KKGPA18.....	.90
GP388RA-K—Handle Iron—Right—For 21-inch mower for KKGPA21.....	.90
GP388LA-K—Handle Iron—Left—Complete with latch, for 21-inch mower for KKGPA21.....	1.20
GP119-K—Latch for left handle with Rivet and Washer.....	.45
GP102-K—Cotter Pin for handle iron.....	.05
GP89A-K—Bolt for handle iron, with Nut and Lock Washer for KKGPA18, KKGPA21.....	.15
GP90-K—Bolt for cross bar, with Nut and Lock Washer.....	.15
GP91C-K—Throttle and Clutch Assembly, complete with Cables, Wires and Levers for KKGPA18, KKGPA21.....	3.00
GP92C-K—Bracket with Throttle and Clutch Levers, but without cables and wires for KKGPA18, KKGPA21.....	2.40
GP112C-K—Brackets only without levers for KKGPA18, KKGPA21.....	.60
GP111C-K—Lever for clutch wire for KKGPA18, KKGPA21.....	.60
GP111AC-K—Lever for throttle wire for KKGPA18, KKGPA21.....	.60
GP115C-K—Bolt with Hex Nut to hold throttle or clutch lever to bracket for KKGPA18, KKGPA21.....	.15
GP115A-K—Nylon Washer for lever bolt for KKGPA18, KKGPA21—Use WM115.....	.05
GP94-K—Bolt to hold bracket on handle—Complete with Nut and Lock Washers.....	.15
GP95-K—Cable for clutch wire.....	.60
GP96-K—Wire for clutch cable.....	.30
GP96A-K—Cable for clutch, with wire inserted.....	.90
GP101-K—Bracket on deck for clutch cable.....	.45
GP105-K—Hex Nut (2 required) to lock cable to bracket.....	.05
GP97-K—Cable for throttle wire.....	.45

fixture business. Let us prepare a plan for
you. We are anxious to help you plan for

STORE PLANNING SERVICE

We are anxious to help you plan for future business. Let us prepare a floor plan for you. Take advantage of our many years of experience in planning successful and profitable fixture installations.

Our designers will prepare a detailed floor plan drawn to scale, together with an elevation view of the sections best suited for your store.

***Estimated Costs are Furnished in Detail
No Charge No Obligation to Buy***

STORE MODERNIZATION DEPARTMENT

*Is Maintained for the Purpose of Helping Our Customers
Do a Better Selling Job*

KEEPING PACE WITH PROGRESS

New ideas and designs are being worked out continuously by our store engineers so that our customers can have the benefit of expert guidance in their store arrangement problems.

NO CHARGE... NO OBLIGATION TO BUY

Start with a Shapleigh's modernization plan and follow through with Shapleigh's low cost up to date store equipment. A plan to fit your individual store needs. Fixtures, mass produced for lower cost, will fit your store like custom built equipment.

DESIGNED FOR POINT OF SALE MERCHANDISING

Display units shown on the following pages are designed to help you sell more merchandise. Your customers are invited to inspect and compare items without your constant attention. The store is departmentized to further increase the sale of associated lines of goods. Every item in its place and displayed in an attractive setting.

RUGGED CONSTRUCTION FOR HARD WEAR

Our display units are constructed of the best materials available. Made to withstand many times the weight called for in normal usage. To facilitate shipping the wall units are shipped partially knocked down but are completely painted and finished.

METHOD OF PRICING UNITS

We price our wall units on a per foot basis. You pay for the length of fixtures you actually get. All units with the exception of the No. S-60 paint units are built on 48-inch centers. The paint units are on 32-inch centers. Panel door and paint units should be figured on standard centers to get best results.

A COMPLETE REMODELING SERVICE

Available to our customers who need merchandising service and expert supervision in installing new equipment. We can furnish a store engineer or factory representative on a per day basis. Rates on application.

REMODEL THE EASIEST WAY— THE BEST FOR THE LEAST

Many of our customers tell us it is "false economy" to try to build their own fixtures in view of the low cost and excellent quality of Shapleigh merchandising units. Financing available at low interest rates if desired.

HOW TO GET STARTED

Ask your Shapleigh salesman about our Store Modernization Department, or send your inquiry direct to this department. We will cooperate with you in every way possible to see that you have the type of store necessary for successful operation in your community.

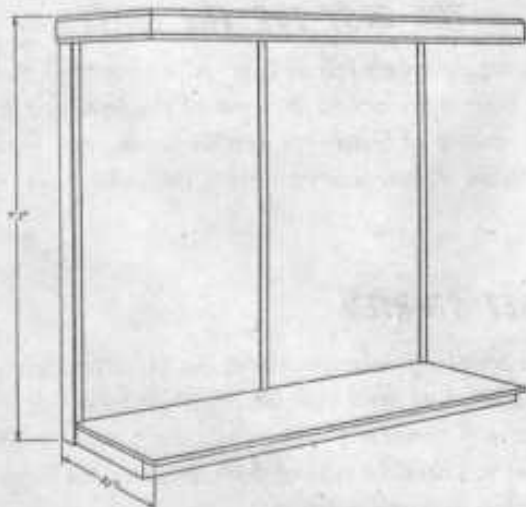

SHAPLEIGH'S MODERN DISPLAY FIXTURES

SHAPLEIGH'S MODERN DISPLAY FIXTURES

MULTIPLE STEP UP SHOPPING ISLAND

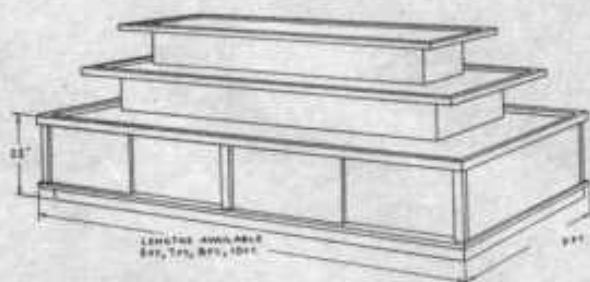

The Hardware Sales Promoter

Unsurpassed as a display for inviting your customers to do their own shopping. Step Up Islands provide approximately fifty per cent more display space. Actually a Step Up Shopping Island will display more merchandise than six old style flat counters. You also have the added advantage of spacious storage space behind sliding doors.

This Island Unit will display all lines of hardware merchandise with sales appeal. The pyramiding of the shelves provides a beautiful mass display of lasting freshness and newness.

Both of the two Step Ups are removeable for greater flexibility in displaying merchandise.

The standard finish is Light Mahogany with Oak Trim.

Other finishes available are—Dark Mahogany with Maple Trim, and All Oak, Natural, or Limed finish at 5% additional.

Choice of any harmonizing background color.

Partially assembled and shipped knocked down.

SHAPLEIGH'S MODERN DISPLAY FIXTURES

MULTIPLE STEP-UP SHOPPING ISLAND

***SHOW MORE — SELL MORE
WITH THIS IMPROVED STEP-UP ISLAND***

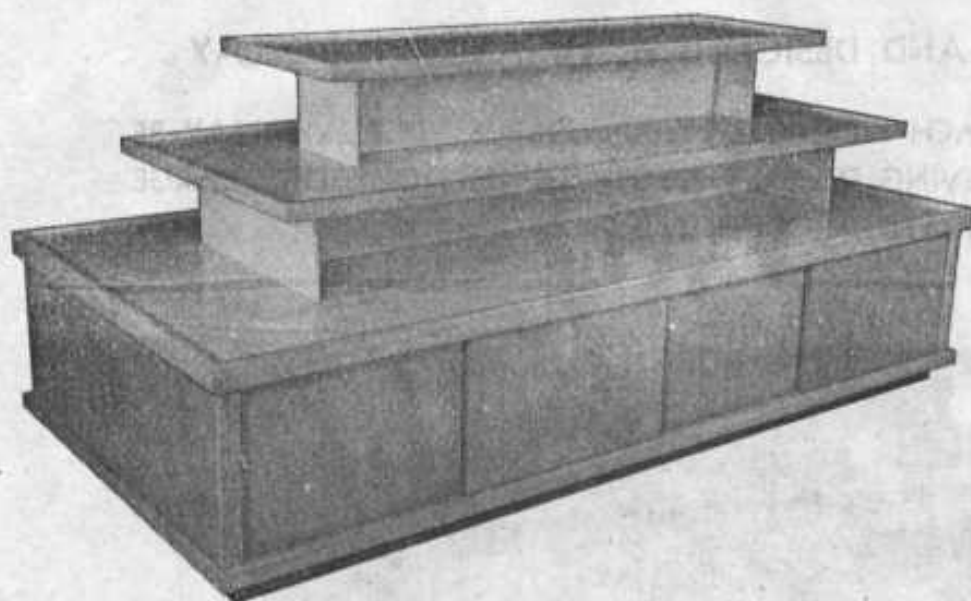

Illustration above shows a 4-ft. x 8-ft. size Island. Merchandise has been omitted from the illustration to show step-up construction.

Illustration at the right is a 4-ft. x 5-ft. Island. Note the amount of merchandise and the large size pieces which can be displayed on it.

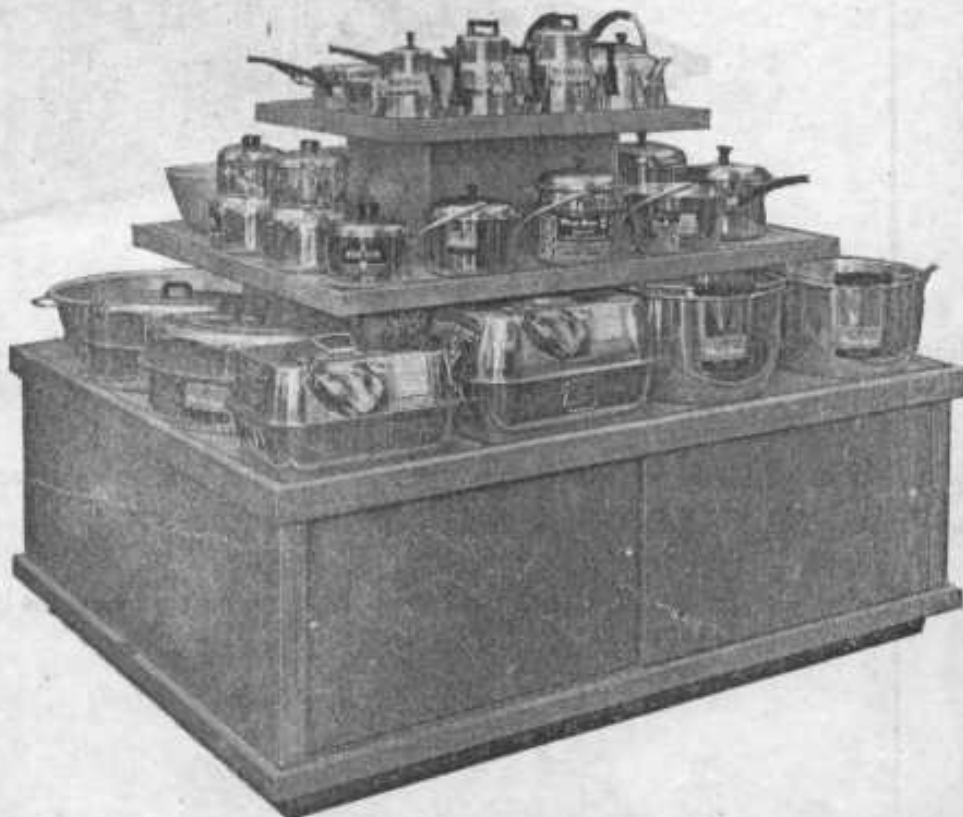

Finished in light mahogany with oak trim. Step-ups may be finished in your choice of seven attractive colors.

Islands are four feet wide and are available in 5 ft., 7 ft., 8 ft. and 10 ft. lengths. Over all height is 42 inches.

There is no lost space on this Display Island. New construction provides full use of each step, and there is ample storage space behind the smooth sliding doors.

Each step is removable so that either 1, 2, or 3 steps can be used in arranging the displays.

Glass display bins may be added if the island is to be used for the display of small items, such as kitchen gadgets, electrical and plumbing supplies, painting needs, builders hardware, and similar items.

SHAPLEIGH'S MODERN DISPLAY FIXTURES

MULTIPLE STEP-UP SHOPPING ISLAND

OPEN BASE-MORE SPACE
WITH THIS NEW ISLAND

HERE'S AN ISLAND DESIGNED FOR MAXIMUM DISPLAY

NO LOST SPACE, EACH STEP COMPLETELY USABLE. DISPLAYS MAY BE CHANGED BY REMOVING EITHER, OR BOTH OF THE TOP STEPS. LARGE ITEMS MAY BE DISPLAYED AROUND THE BASE.

Illustration shows a 4-ft. x 8-ft. size Island. Other sizes available are, 4-ft. x 4-ft., 4-ft. x 5-ft., 4-ft. x 7-ft. and 4-ft. x 10-ft. and in 5 ft. widths.

Of plywood and hardwood construction, finished in a choice of seven attractive colors. Light Blue, Light Green, Dark Green, Light Gray, Dusty Rose, Peach and Yellow.

Glass display bins may be used when small items are to be displayed on this Island.

SHAPLEIGH'S MODERN DISPLAY CASES

Both the full display case and the half display case are being widely used by retail sporting goods stores, hardware stores and gift shops. Here are two cases that have the quality and appearance to be found only in the more expensive type fixtures, yet they are economically priced because of the mass production methods used by the manufacturer. Sturdily constructed of three quarter inch sliced oak or birch veneered panels.

SHAPLEIGH'S**MODERN DISPLAY FIXTURES****ADJUSTABLE SHELF GONDOLA**

THE VERSATILE ISLAND FOR MAXIMUM DISPLAY

Here is a four level display island that affords full view of the merchandise displayed on it. Each shelf is supported by strong metal brackets attached to a metal frame. The shelves may be changed quickly to accommodate merchandise of varying heights. Each shelf is in two halves so that different levels may be obtained on each side of the Gondola. Each is edged with Oak Price Ticket Moulding.

The Gondola is 30 inches wide, 60 inches long, 52 inches high.

The shelf sizes are:

- 2 Shelves 10 $\frac{3}{4}$ inches wide, 59 $\frac{3}{4}$ inches long
- 2 Shelves 12 $\frac{3}{4}$ inches wide, 59 $\frac{3}{4}$ inches long
- 2 Shelves 14 $\frac{3}{4}$ inches wide, 59 $\frac{3}{4}$ inches long
- Base shelf 30 inches wide, 59 $\frac{3}{4}$ inches long

The Gondola is finished in Light Mahogany with Oak trim. The shelves are plywood, natural finish, Black base.

Illustration above shows Gondola without merchandise. Note heavy frame and adjustable feature of the strong shelf brackets.

Illustrations to the right and left shows merchandise attractively displayed, and in full view.

Glass display bins may be used on the shelves to display small items, such as electrical supplies, plumbing supplies, kitchen gadgets, fishing tackle and many other small items.

SHAPLEIGH'S MODERN DISPLAY FIXTURES

CHECK-OUT COUNTER

For Quick-Service, or Self-Service Stores

With the latest display fixtures, plus good merchandise arrangement the hardware dealer can handle more store traffic, increase dollar volume and decrease operating costs.

Tests prove that customers not only like to shop, but generally buy more items when waiting on themselves. This check-out counter adds to the general attractiveness and modern look of the store and helps increase volume.

Expertly made and beautifully finished in light mahogany with oak trim. The top is made of tempered masonite for long wear.

The counter is 4 ft. wide, 7 ft. long, 32 in. high. There are five bag bins, a drawer with lock and key below the cash register area and one shelf across the end. There is ample space below for roll paper, will call items and packages.

Cash register and roll paper holders not included.

This view shows the Spring-binged gate, the five Bag Bins and the spacious working area of the top.

SHAPLEIGH'S**ATTRACTIVE DISPLAY DOORS**

**WITH CLEAN, FRESH MERCHANDISE
WILL INCREASE SALES AND PROFITS**

Arranging merchandise on panels to create an effective display requires highly skilled workmen and many hours of work. Our sampling department is well equipped to do this work.

UPPER PANELS

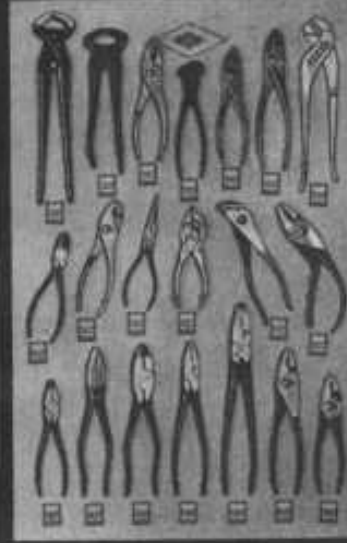

Panel No. U1

Panel No. U2

Panel No. U3

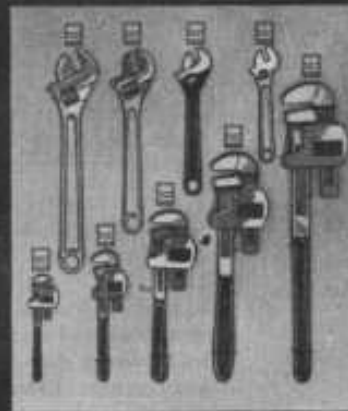

Panel No. U4

LOWER PANELS

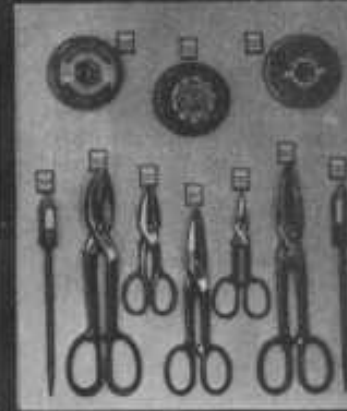

Panel No. L1

Panel No. L2

Panel No. L3

Panel No. L4

The merchandise pictured and listed on the following pages is a suggestion for the kind of merchandise to be sampled and the amount of merchandise needed to fill a panel. **ORDERS** must call for a predominance of Keen Kutter merchandise. By predominance we mean that the dollar value of the Keen Kutter merchandise on the order must amount to more than that of all other merchandise on the order. We will not mount such items as nails, screws, bolts, pipe fittings and other such small staple and low value items.

To do a first class job, it will be necessary in practically all cases to have new panels. Of course, if a customer wants to refinish his old panels and send them in, it is agreeable with us but do not send us old panels to be refinished because we are not in position to do this work here. We can, when desired, purchase new panels for our customers. The price of $\frac{1}{4}$ inch plywood panels is $\$2$ per square foot, for $\frac{3}{4}$ inch plywood panels, $\$4$ per square foot. Price includes painting one side only, ivory, peach or green color. (Specify size and color on order.) Minimum price per panel is $\$1.25$ each. Price does not include door frames.

(Continued on next page)

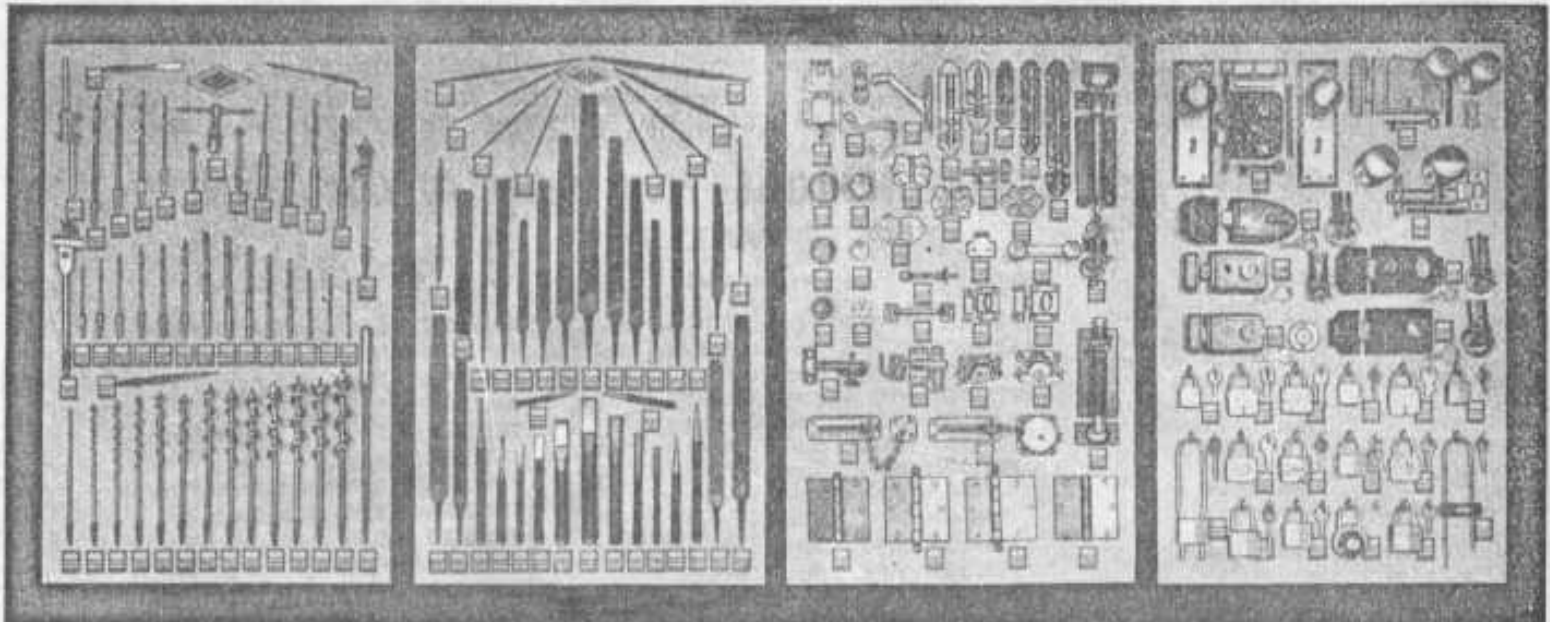

ATTRACTIVE DISPLAY DOORS

WILL BUILD BUSINESS IN TOOL AND
BUILDERS' HARDWARE DEPARTMENTS

People like to look and "shop". They like to see merchandise attractively displayed and plainly priced. They like that ease of "shopping" without the obligation to buy.

UPPER PANELS

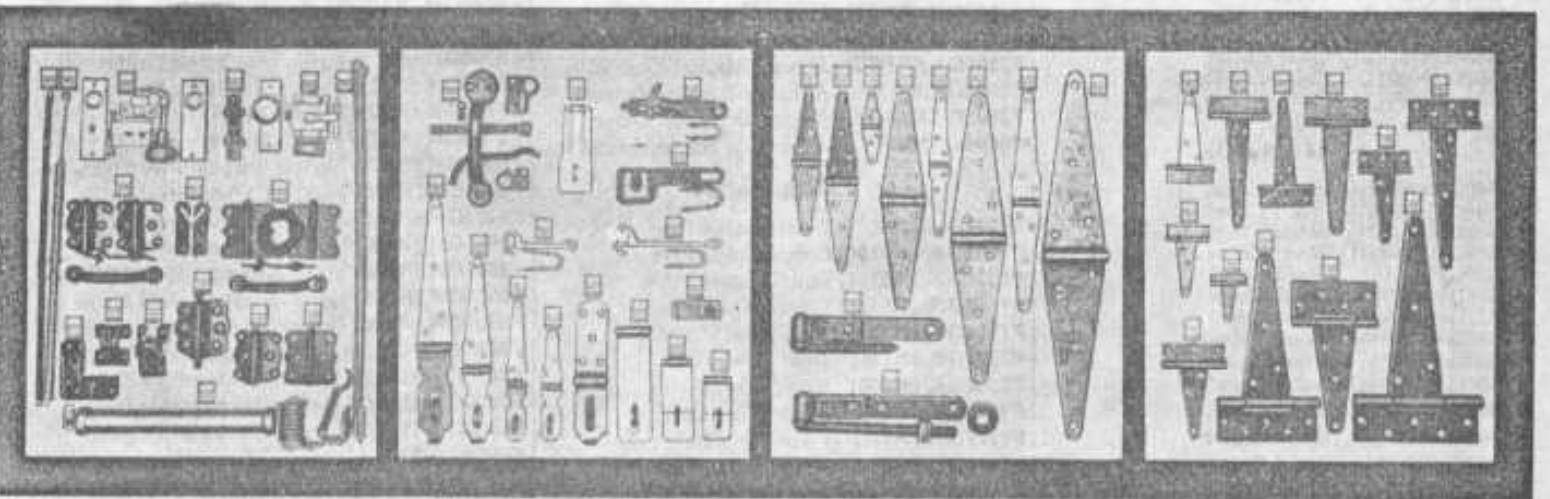

PANEL No. U5

PANEL No. U6

PANEL No. U7

PANEL No. U8

LOWER PANELS

PANEL No. L5

PANEL No. L6

PANEL No. L7

PANEL No. L8

The above illustrations are merely to show how mounted Builder's Hardware Panels look. The list of merchandise on the following pages, does not conform exactly but can be used as a guide in writing up panel door sampling orders. These illustrations represent the number of panels and the items of merchandise used in an average size store. The upper panels measure 19½ inches wide, 30 inches high, the lower panels, 19½ inches wide, 22 inches high. If the sampling order calls for the mounting of a different number of panels, or panels of a different size, more or less merchandise should be ordered accordingly. It is possible to combine lines of merchandise on some of the doors if shorter lines are carried in stock. For example: Screw Drivers and Pliers may be combined on one panel or T Hinges and Strap Hinges on one panel.

PROCEDURE FOR WRITING PANEL DOOR ORDERS

Use the following list as a guide when writing up orders. Make substitutions where necessary, but all orders must contain a predominance **KEEN KUTTER** merchandise.

Head the order with one of the following statements:

Mount one each of the following items on panels sent in by the customer.

or, Mount one each of the following items on new panels as ordered below.

or, Mount one each of the following items on panels furnished with new fixtures.

If the customer sends in his own panels have him mark the panels plainly with the order in which they are arranged in the fixtures, such as, upper panel No. 1, 2, 3, etc., lower panel No. 1, 2, 3, etc. This is important as panels will very often vary in size and must be put back into the frame, or fixture, they came out of. Have the customer mark

the package of panels he sends in: To Shapleigh Hardware Company

900 Spruce St.

St. Louis, Mo.

Attn: Sampling Department

When ordering new panels list them at the beginning of your order. Be sure and state quantity, thickness, width, height, color and whether they are for upper or lower door frames. For example:

12 = $\frac{3}{4}$ inch x 20 inches wide x 24 inches high—Ivory upper panels.

Be sure to head each group of merchandise with the panel number similar to the suggested list below. Changes will be made only where necessary to make a good display.

There is no charge for the mounting. Be sure to order full packages of merchandise. WE WILL MOUNT ONE OUT OF EACH PACKAGE AND SEND THE CUSTOMER THE BALANCE.

One in ctn. Wt. ctn. 72 lbs.

GLASS HOLDERS

Saves Time,
Space and Waste

Accurate,
Economical

Prevents
Breakage

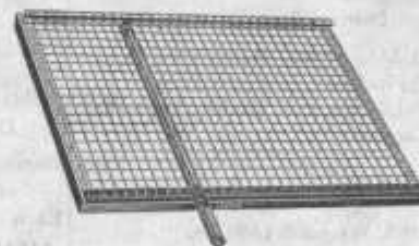

Can Be Mounted on Ledge or Wall

Glass stands on edge, is automatically measured and squared. Glass is held tight between the cushioned straight edges while even the smallest portion of an inch may be cut off easily and straight without breaking the main pane of glass. The safety breaking device is then pushed back against the part cut, causing it to break off squarely and fall into the refuse bin below. It is not necessary to touch the salvage with your hands.

Each		For Glass Height, inches	Length Base, inches	Weight Each, lbs.	Each

ROLLING STORE LADDERS

MILBRADT

Made in Various Styles to Fit all Kinds of Shelving, Shipped Complete, Ready to Install

Made of hardwood lumber, highly finished. Steps dadoed into sides and screwed. Brackets and fixtures malleable iron, nicely finished. Ladders take up little space and run without noise or friction. An extra wide shelf at the top of each ladder.

BENT LADDERS

For track fastened to shelving near the top. Short, fork shaped irons, with rubber rollers run against the edge of wide base shelf. Runs on round steel track.

Width 17 1/4 inches. 3 inch side pieces. 3 1/2 inch steps. 9 inch top shelf. Complete with fixtures.

Each

+1-F X40D00

One in crate. Wt. crate 60 lbs.

BENT LADDERS

For shelving which is not substantial. Weight of ladder and operator rests on the floor. No track is used on floor. Top adjustment allows for uneven or sloping floor. Floor rollers are cushion tired. Runs on special hardwood track to guide ladder.

Width 17 1/4 inches. 3 inch side pieces. 3 1/2 inch steps. 9 inch top shelf.

Each

+2-F X40D00

One in crate. Wt. crate 50 lbs.

TROLLEY OR CEILING LADDERS

For steel track fastened to the ceiling. Fiber filled wheels run on steel tracks. Cushion tired wheels at bottom run on floor. Round tubing track. Malleable iron brackets.

Width 14 inches. 4 inch side pieces. 5 inch steps. Complete with fixtures.

Each

+15-F X40D00

One in crate. Wt. crate 60 lbs.

Each

+9-F X2D00

TRACK BRACKETS

Used in connection with brackets on shelving where uprights to which brackets can be fastened are too far apart to make track strong enough. Malleable iron.

Loose. Wt. each 1 1/2 lb.

To Order Above Ladders

Give height from floor to top of base shelf, width or projection of base shelf from front edge of uprights and height from top of base shelf to top of shelf to which track is to be fastened. The track should be fastened to a shelf between two to three feet from top of shelving. When ordering Ladder No. 2, where floor slopes, state how much it slopes and state at which end of shelving measurements were taken. If ladders are ordered for odd or irregular shelving, it will greatly assist if a rough sketch or end view of shelving is sent us.

Items Marked + Not Carried in Stock. Made to Order Only and Shipped F. O. B., St. Louis, Mo.

Steel Trolley Track for No. 15 ladder complete with brackets and lag screws.

Per ft.

RULES AND INSTRUCTIONS

SALESMEN'S RELATION WITH HOUSE

- 1—Salesmen who have been with us one year or more are entitled to two weeks "off duty" time without expense. This off duty time can be used as vacation, for personal reasons, illness or any way the salesman elects. It can be used consecutively or intermittently; however, if it is used for vacation purposes it must be taken when the salesman can best be spared from his territory and at such time as suits the convenience of the Company. The salesman's vacation schedule must be arranged to conform with that of the people in the House, thereby keeping the House force and road force properly balanced. Salesman must correspond with his Sales Manager before making arrangements to take time off for vacation or for personal reasons.
- 2—Do not come to St. Louis without writing us first. We will then ascertain if the parties whom you wish to see are going to be in the city at the time and so advise you. If you come via train, always take advantage of round trip rates.
- 3—No salesman is permitted to quit work or leave his territory for any reason whatever, without our permission, other than in case of sickness, when he should notify us promptly.
- 4—IN CASE OF AN AUTOMOBILE ACCIDENT. Do not attempt to make a settlement with persons involved, and do not admit guilt, or agree to reimbursement. The Insurance Company reserves the right to decide who is responsible, and you agree to this clause when you accept the policy. Mail report of any accident to the division office of your Insurance Company and send a copy to us. If serious accident wire us details immediately.
- 5—If a salesman is interested in a retail hardware store, or if he intends to gain part ownership in such a store, he should let us know giving full particulars, as we feel we should know of all such interests of our salesmen.
- 6—ROUTE SHEETS. Every salesman is to furnish a route sheet each week, showing mailing points and giving an address for each day, so we can reach him promptly by wire or phone at any time. It is important that the route sheets be mailed in sufficient time to reach us not later than Monday morning.
- 7—WORK-UPS. Work-ups of territories are furnished the salesman each year. When these are received they should be checked over carefully in accordance with instructions accompanying work-up. On accounts where there have been noticeable declines in their purchases, write your sales manager explaining what you think is causing the loss of their business. If you feel you are unable to regain the old volume, give your recommendations as to just what should be done to get them lined up again.
- 8—No side lines permitted.
- 9—DO NOT DRAW ON US. You are not permitted to draw on us for money. If necessary, telegraph us.
- 10—DO NOT BORROW MONEY FROM CUSTOMERS OR OTHER SALESMAN.
- 11—Do not give PRESENTS if it can possibly be avoided. All gifts will be charged to your personal account. Under no circumstances give presents from your samples.
- 12—DO NOT SEND US ANY CURIOS. Occasionally a salesman will send us a razor or pocket knife or some other item of our own brand which has been in use for many years. We prefer that you do not send us any curios.
- 13—CREDIT FOR MAIL AND TELEPHONE ORDERS. Salesmen will be given credit for mail and telephone orders when they personally have sold the customer at least one order during the past 90 days. When a dealer voluntarily sends us mail orders or phones in orders and the salesman to whom the town is assigned has not sold this customer at least one order during the past 90 days, the salesman will not receive credit nor will he receive credit for any subsequent mail or telephone orders from that customer until he has sold him at least one order.
- 14—See that all of our regular and particularly new customers, are provided with mail order blanks and S. H. Co. addressed envelopes and a want book.

SELLING

- 15—When you sell goods from Snap Book always mark directly before the price the letter (Y) so that your commissions will not be affected.
- 16—When you sell goods from your Catalog with the letter N directly before the price indicating that no freight will be allowed on the item, you are to show the letter N on your order directly before the price.
- 17—Under no circumstances are you to accept blanket orders on any line, unless given permission to do so.
- 18—DON'T SELL CONSUMERS OR HOTELS.
- 19—Do not solicit business on items for personal use from dealers who do not carry such items for resale. For example—Selling a drug store a lawn mower, or lumber dealer a shotgun, etc.
- 20—Do not sell goods not listed in your Catalog, or special sizes to be made to order. Such orders are subject to annoying delays and are unprofitable.
- 21—DON'T ask us to buy out goods we don't keep. This causes trouble and delay.
- 22—Have it understood with your customers that all quotations are withdrawn when you leave town.
- 23—We never give an unqualified guarantee on price. The only exception to this is we will guarantee the price up to date of shipment. If customer receives a lower price, then we reserve the privilege of either meeting the price or allowing him to cancel the order. We are under no obligation to recognize a complaint in regard to the price of goods under this guarantee after the goods have been shipped.
- 24—Under no circumstances, will we furnish our customers with blank invoices, or invoices showing a different price than that which the goods were sold.
- 25—Never sell goods delivered, as under such circumstances the goods are our property until they reach destination. In some cases, we sell goods full freight allowed, but then the goods become the property of the consignee as soon as they are delivered to the railroad at shipping point.
All goods are sold F. O. B. Cars St. Louis, or in cases of direct shipment, F. O. B. Factory.
- 26—WIRE NAILS. We never break kegs of wire nails. Sell only according to your catalog—in full keg lots. Do not ask us to break kegs even at an advanced price. Our stock of these goods is kept in the warehouse in full kegs only. We are not prepared to take care of retail business or broken lots.
- 27—Under no circumstances, sell goods on consignment.
- 28—Do not guarantee the sale of any item.
- 29—Never guarantee freight or express rates; don't guarantee delivery of freight or express shipments. Our responsibility ceases when goods are receipted for by transportation company.
- 30—CALLING ON OTHER SALESMEN'S CUSTOMERS. Do not when temporarily in a town assigned to another salesman, call to see our customers in that town. All salesmen should avoid this practice.
- 31—ONE MAN IN A TOWN. We are opposed to the policy of selling only one man in a town. There are some few isolated cases, however, where it is wise to make an exception to this rule. In such cases we wish you to advise us and explain fully your reason.
- 32—SUGGESTIONS. We invite suggestions of any character from you, particularly in the way of desirable goods to add. While we may not act on your suggestions, we shall always give them consideration, and they will be appreciated.
- 33—DON'T fail to call on all the Hardware trade in every town assigned you. You never know when a dealer you have not been selling will give you an order, but it is certain you will not get the order unless you call on him.
- 34—DON'T leave a customer without asking him to send us his mail orders between your visits.
- 35—DON'T, under any circumstances, make arrangements or agreements of any kind with a customer, that do not show clearly on your order.
- 36—DON'T fail to explain irregular transactions or unusual prices. This will prevent a lot of correspondence, and save a great deal of your time and ours.

SALESMEN WRITING FACTORIES DIRECT

- 37—Salesmen must not under any circumstances write to or correspond with factories—our factory connections. All matters with factories must be handled only through our Company.

RULES AND INSTRUCTIONS

FUTURE SHIPMENT AND COLLECTIVE CARS

- 38—When taking orders for future shipment, be careful to give us specific date of shipment and enter the terms in the space provided. Use future order blanks sending in green copy with original. If item carries a zone price like ammunition, shovels, axes, etc., be sure to enter correct zone prices and equalization point.
- 39—Always write future shipment orders, collective car orders, direct shipment orders, Parcel Post, Express, or orders taking a different dating, ON SEPARATE SHEETS.
- 40—COLLECTIVE CARS. We are building up an enormous business on Collective Cars and want to encourage the Collective Car business all we can.
- 41—Selling goods to be shipped in Collective Cars enables customers to get them at a much lower rate of freight, consequently they will buy in larger quantities. We find we have been able to ship certain classes of goods into remote territories in Collective Cars which would have been impossible, were we to ship by local freight.
- 42—Always contact us before starting a car so we may furnish you with the freight rates and a list of goods that can be included, and advise salesmen in neighboring territories so they may assist in completing the car. Write all Collective Car Orders on Future Shipment Order Blanks.

NEW STOCKS

- 43—Advise us promptly of any new stock prospects on your territory so that we can get in immediate communication with the prospect. If the stock has been sold, we want the information in full as to who was successful in capturing the order.
- 44—Should you hear of a new stock to be purchased by some firm in a town outside of your territory give us the information promptly so we can advise the salesman on whose route the stock will be purchased.
- 45—Keep your eyes open for possible new stocks. If you see a building going up, find out what class of business is going into that building and keep in touch with the parties about town who generally know what is going on.
- 46—Under no circumstances do we want you to Bid on a new stock. Instead, communicate with us immediately by wire or phone. We may want to invite the prospective customer in to the House at our expense, or your salesmanager may prefer to meet the customer on the territory and assist you in closing the deal.
- 47—Be careful to have the terms of sale on opening orders clearly understood and expressed on the order. In most cases these terms should be for cash—at least a large proportion for cash the balance on short time.
- 48—Whenever a prospective new stock purchaser intimates that he has cash in hand or bank to discount his purchases, try to influence him to give you a check to accompany the order or mail it in direct. Our House is so well known the country over that everyone knows they assume no risk whatever in prepayment. When selling a firm which is not incorporated, such as "Union Hardware Company", "Star Cycle Company", always give us with your first order, the names of the members of the firm and their initials.
- 49—Note distinction between "sixty days or 2% cash ten days" and "ten days less 2%". The one is due in sixty days, the other in ten days less 2%. Endeavor to sell new stocks for "Cash" or "ten days less 2%".
- 50—DON'T fail to advise your sales manager about any stocks for sale.

TERMS AND CREDITS

- 51—Never vary from our terms of datings without special permission. Our regular terms are—sixty days or 2% off for cash in ten days See Spring and Fall Dating Pages in front part of catalog.
- 52—SALESMEN GUARANTEEING ACCOUNTS. Do not guarantee payment of accounts; if we cannot take the credit risk, you cannot.
- 53—REFERENCES. Whenever taking orders from a new customer or from customers who have not made purchases from us within a year, obtain as many references as possible—St. Louis references preferred. (You can obtain this information by asking during your general conversation where the merchant has been in the habit of buying his goods.)
- Attach the sheet upon which you make this report to the order, so that it will not be separated from the order in distribution of the mail after it reaches this office.

TERMS AND CREDITS (Continued)

- 54—CREDITS. When taking orders from firms or corporations just starting or having recently started in business, obtain a financial statement, giving full name of each member of the firm, also the amount of capital each furnishes, and references, which can often be obtained by looking over customer's merchandise and picking up trade marks indicating principal sources of supply.
- 55—Be sure to ascertain and advise us if all the members of the firm are of lawful age. Minors cannot be held responsible for debts they may contract.
- 56—In case of incorporated Companies, give the legal title and State law under which incorporated, amount of the authorized capital, amount of capital actually paid in cash, and the names of the officers of the company. Send also references as in the case of a firm.
- 57—We prefer that salesmen make NO COLLECTIONS. If unavoidable, report immediately and remit by draft at once. We will not be responsible for any collections until the money is received.
- 58—DON'T fail to notify us promptly when a customer has sold out, discontinued business, etc.

WRITING ORDERS

- 59—Number your orders numerically commencing with number 1 on the first of each year. On FUTURES add "FS", on DIRECT SHIPMENTS add "DS".
- 60—In writing orders, always use the indelible pencil or Ditto pen which WE furnish. Also use the orange carbon paper in your order book. Use the pressboard furnished you for reinforcement.
- 61—Print the customer's name and address on the first sheet of your order with the indelible pencil. Write customer's name and address on all other sheets. Be sure to enter name and address correctly.
- 62—Use the same order number for all pages of the same order and place the estimated amount on the first page only.
- 63—PLEASE ESTIMATE ALL ORDERS AND ENTER THE AMOUNT IN ROUND FIGURES IN THE SPACE PROVIDED. All orders should be estimated regardless of size.
- 64—All instructions pertaining to an order should be entered on the first two or three lines of the order blank.
- 65—When you leave copy of an order, make notation, "Copy Left" on First Sheet.
- 66—Mail your orders promptly. The FIRST step towards good service starts with YOU.
- 67—Be sure to pin letters, new business reports, or any papers pertaining to an order, to the front of the order to which they refer. They will then be referred to the proper party for attention.
- 68—New business orders should have the words "NEW BIZ" entered in the lower portion of square marked "Credit Approved".
- 69—Confirm all telegraphic or telephone orders the same day on regular order blanks—DOUBLE CHECK ITEMS and mark order "CONFIRMING TELEGRAM or TELEPHONE CALL".
- 70—WRITING ABOUT ORDERS. When writing about an order always give us the NAME AND ADDRESS OF THE CUSTOMER, THE ORDER NUMBER AND DATE, even though the letter be attached to the order.
- 71—Do not ask us to make additions to orders. It is almost impossible to find an order once it is in the works. It is far better and cheaper for you to write up new orders.
- 72—When two orders from the same town, but for different customers, are to be shipped together, each should be marked to so indicate. For instance—

John Smith & Company,
Smithville, Texas.

Ship with order No.——for Ed. Jones & Co., same town and date.

And on order for Ed. Jones & Company
Smithville, Texas.

Ship order for John Smith & Co., same town and date with this order.

This indicates to us that both orders are to be consigned to Ed. Jones & Company but invoiced separately.

RULES AND INSTRUCTIONS

WRITING ORDERS—Continued

- 73—Do not encourage customers to send orders to your headquarters. Instruct them to mail direct to House.
- 74—Enter goods on your orders EXACTLY as priced in your Catalog per gross, per dozen, per C, per M or "only."
- 75—Mail all orders the day they are taken and save time in shipping. MAIL FRIDAYS ORDERS ON FRIDAY. We do not work Saturdays but orders reaching us that day are given preference over orders arriving Monday. THIS IS IMPORTANT.
- 76—DON'T "bunch" your orders, but send them in each day as you take them.
- 77—DON'T fail to enter the KIND and SIZE of Rope wanted on every order.
- 78—DON'T fail to give mesh, depth and size of thread on Seines.
- 79—Don't fail to enter sizes on orders where several sizes are listed under a single number.
- 80—Enter freight equalization point (If allowance is necessary) on the first page of the order under "Special Shipping Instructions (If Any)".
- 81—DON'T fail to enter notation "Prepay freight and charge" on orders destined for prepay stations.
- 82—DON'T fail to copy Carbide in 100 lb. Drums and Full Case Lots on a separate sheet, specifying what point you desire the Carbide shipped from.
- 83—DON'T fail to mark watches "Ship at Customer's Risk" if included in a freight order.
- 84—Salesmen are requested to price each and every item on their orders. Failure to do so delays the execution of the order here.

ROUTING AND INSURING SHIPMENTS

- 85—ROUTING SHIPMENTS—do not enter routing on orders to be shipped by rail or truck. Leave the routing to us. If customer is not satisfied with previous routing or wants routing changed, attach letter to order.
- 86—Be sure to show whether by parcel-post or express on orders of insufficient weight to be forwarded by freight.
- 87—INSURANCE ON PARCEL POST SHIPMENTS. When we ship orders via Parcel Post we charge insurance as follows:
- | | |
|---------------------------------|-----------------------|
| 5 cents on orders amounting to | \$5.00 or less. |
| 10 cents on orders amounting to | \$5.01 to \$10.00. |
| 15 cents on orders amounting to | \$10.01 to \$25.00. |
| 20 cents on orders amounting to | \$25.01 to \$50.00. |
| 30 cents on orders amounting to | \$50.01 to \$100.00. |
| 35 cents on orders amounting to | \$100.01 to \$200.00. |

CLAIMS

- 88—Correspondence regarding claims should be addressed to the claim department to avoid delay.
- 89—When writing about claims be sure to give customer's name, address, and date of invoice.
- 90—In settling all claim matters with our customers, remember that you are representing us and your interests and ours are identical and although we at all times want to be perfectly fair with our customers, we don't think it wise to accede to every demand, nor do we believe we will lose the account every time we do not see our way clear to meet their views.
- 91—All agreements concerning price must appear on your order. In other words you are to make no request for credit memoranda to reduce the price on any item after it has been billed. You are to enter into no secret agreements to make rebates by either credit memoranda, deductions or cash settlement.
- 92—Salesmen are not authorized to instruct the return of merchandise to the House. This must be taken up with us, and our permission received before the goods are returned. Usually, we charge 10% to cover rehandling expense. All returned parcels are to be plainly marked with customer's name and address.

CLAIMS FOR DEFECTIVE GOODS

- 93—Should you relieve customer of merchandise which in customer's opinion is defective, return the merchandise to us promptly for examination and write us fully. If it is found defective we will replace direct to the customer.

CLAIMS—Continued

- 94—When packing shipment, be sure each article is plainly tagged showing customer's name and address. When returning merchandise for several accounts in one shipment, be sure each customer's goods are plainly tagged and write separate letters in regard to each account. Never list a number of accounts in one letter, as our files are listed under the heading of various customers.
- 95—No merchandise will be replaced to the salesman unless such merchandise was actually charged to the salesman's personal account.
- 96—Immediately discourage any customer's request that you write us to exchange goods for them. When they progress so far as to persuade you to write us, they feel we are to a certain extent committed, and do not understand it when we decline. When this request is made of you, simply state that we do not exchange goods and explain that we adopt this plan for the protection of all our customers, that they may receive clean and fresh goods on their orders.
- 97—When you receive letters from the Claim Department in regard to claims or complaints from customers, you are expected to acknowledge receipt of them promptly, indicating the approximate time you will see the customer and signifying your intention to adjust the matter without delay. A failure on your part to attend to such matters promptly is liable to cause bad feeling on the part of the customer, and could easily result in our losing a valuable account.
- 98—We furnish you an indexed "reminder" in which you can file all your papers and copies of letters you receive from the House, alphabetically, which should be referred to before you call on each customer, to see whether or not you have any unfinished business to take up with him.
- 99—Tools bearing our Trade Mark, **KEEN KUTTER**, are guaranteed against defects in workmanship or material but not abuse or misuse. Such merchandise must be returned to us for our inspection and adjustment.
- 100—Under no condition are there any guarantees whatever on Baseball Bats. All guarantees by the manufacturers have been withdrawn.
- 101—Inflated Goods. Manufacturers of inflated goods have withdrawn all guarantees. If customer insists on returning inflated goods which in their opinion is defective, we will forward it to the factory for their inspection and adjustment, and will be governed by the factory's decision.
- 102—SEINES. Are not to be returned to us for credit under any circumstances. The manufacturers will not accept their return except at a reduction of 75% in addition to the transportation charges. If a Seine is made according to order, it is not subject to return under any circumstances.
- 103—When you send in "return goods" with baggage returned to the House each piece or package must be marked or tagged "Return Goods" and give customer's name and address from whom taken. We will not be responsible for returned goods sent in with samples unless these requirements are fulfilled.
- 104—Should you pick up merchandise from any customer with the intention of reselling it, either to accommodate your customer or adjust an error made by yourself or the House, tell us immediately. We can then credit the customer's account and as a matter of record, charge the item to your memorandum account. After you resell the merchandise and make delivery, send us your order on regular order blank. In the Shipping Instructions show "Delivered." Double check the item and below item write, "Delivered from Memo Account." Be sure the customer's credit is O. K. before making delivery of merchandise, otherwise you will be held responsible. **GOODS CHARGED TO SALESMEN'S MEMORANDUM ACCOUNT MUST BE SOLD PROMPTLY.** You are held responsible for all goods placed on memo account until resold and reported.
- 105—All memorandum accounts must be liquidated promptly. A good cooperator will clear all memorandum charges every thirty days.

RULES AND INSTRUCTIONS

CLAIMS—Continued

- 106—Under no circumstances must goods which are sold and delivered to customer by you, be entered on the same sheet with goods which are to be shipped from stock. Use separate sheets and double check items delivered.
- 107—Encourage your trade to file their claims covering shortages, damaged or lost shipments with the carriers instead of us. We will, as an accommodation, handle the claims for the customer whenever requested, but we expect the customer to co-operate with us and furnish whatever information is needed promptly. Customer should not deduct the amount of the claim from any remittance until the claim is paid and they are in receipt of our credit memo.

CORRESPONDENCE

- 108—Customers frequently send orders, remittances and other House matter in envelopes addressed to the salesman, in care of the House. When a dealer's name appears on the envelope, with the consent of our salesman, we will open these letters. Letters referred to are always opened by your Sales Manager. If any salesman object to our doing this, we will ask them to let us know. If we do not hear from you, we will take it for granted that you have no objections to our opening this class of mail.
- 109—DON'T write about more than one subject in a letter.
- 110—Be sure to put sufficient postage on your envelopes. Failure to do so causes delay.
- 111—LETTERS OF INTRODUCTION. Address all letters of introduction, concerning persons coming to the House to buy goods or to visit us, to your salesmanager, mentioning any little matters of interest in connection with them, and your ideas as to how they should be handled.
- 112—USING CUSTOMER'S OR HOTEL LETTER HEADS. When it can be avoided, salesmen should not use the letter heads of their customers, for the letter may be filed under the customer's name instead of the salesman's name. This also applies to hotel stationery. If you use any stationery other than our own always cut off the printed heading.
- 113—ANSWERING LETTERS. Answer all letters from the House promptly. Write your reply on the bottom or back of our letter unless it is of such a nature that you wish to retain it as reference.
- 114—DON'T fail, when making a complaint of a price, to give the name of the firm who made the price, your reason for thinking they made it, and to whom it was made. In other words, avoid general statements in this connection. Give DEFINITE FACTS.

TELEGRAMS

- 115—Prepay all telegrams to House. Don't fail to promptly send confirmation covering telegraph and long-distance telephone orders.
- 116—If we have occasion to send a cipher telegram to our salesman we will always use the Western Union or A. B. C. Fifth Edition Codes; therefore, when receiving a cipher message, apply to the nearest telegraph operator and you will be given access to a Code book from which you can interpret the message.

SALESMEN'S EXPENSE

- 117—EXPENSE REPORT RULES. Familiarize yourself with these rules and observe them closely.
- Name and date. (Do not print name.)
 - Show if working or off duty in space provided for this information.
 - Show Towns and State in traveling order, stating how you advance by auto or name of railroad. When traveling by auto, show number of miles between towns in column so headed, and total.
 - Show either check (✓) marks or charges in spaces provided for breakfast, dinner, supper and lodging.
 - Report orders sold on back of expense sheet, showing estimate in dollars.
 - Estimating orders.
In entering orders sold, make the estimate in dollars, placing the amount of immediate shipment orders in immediate column, future shipment orders in future column.

SALESMEN'S EXPENSES—Continued

Show total of day's sales on daily reports.

Carry daily sales forward to Saturday's report under "week-end summary."

Total week-end summary at close of business each week.

- g. Expense Reports must be mailed daily whether working or off duty. Send in a report for every day in the year, Sundays, holidays and vacations included, showing where you are.

A DEFINITE REPORT IS REQUIRED WHEN OFF DUTY JUST THE SAME AS WHEN SALESMEN ARE WORKING. If any expense reports are not received, the salesman will be considered as not working on those days and the proper deductions made.

A Salesman's week begins with breakfast Sunday morning and ends with lodging Saturday night.

- h. Flat Expense Men will not be allowed expenses when off duty or when in St. Louis.
- i. Regular Expense Men.

No amount will be allowed under the head of "Sundry Expense" without being properly itemized in each separate case, and unless it is distinctly stated for what the amount is paid.

Salesmen whose homes or headquarters are outside the limits of their territory, will be required to pay their own railroad fare and all other expense incidental to the trip from last town worked when leaving territory and back to first town worked on return.

No hotel bills or other expense will be allowed when salesmen are not working. Also we will allow no expense while salesmen are in St. Louis. Salesmen will not be allowed to come into St. Louis at our expense unless instructed to report here.

- j. Special salesmen should always indicate on report, name of salesman on whose route they are working.
- 118—RAILROAD FARE. Whenever you are instructed to report in St. Louis, and travel by Train or Bus, investigate round trip R. R. and Pullman rates. We will expect you to travel in the most economical way.

- 119—Expenses will be deducted for all time lost by men on flat allowance. Time off includes any matters such as recreation, personal business, sickness or anything else that takes you away from your regular work of selling goods for this Company. If salesmen do not take any time off they are not entitled, for that reason, to a money credit.

- 120—DON'T fail to send in your expense sheet EACH DAY.

- 121—Don't fail to keep a copy of your expense sheet.

- 122—DON'T fail to keep us constantly supplied with an accurate route sheet.

SAMPLES

- 123—We urge all salesmen to carry samples. Write for Samples on regular salesman's stationery giving stock numbers and all necessary information.

- 124—Enter your applications for samples, especially for Fall and Spring lines, as far in advance as possible. This will enable us to get them up in better shape and have them ready for you when you want them.

- 125—Under no circumstances give away any samples.

- 126—With the exception of Cutlery, your sample lines should be changed often.

- 127—All salesmen's sample accounts must be checked once each year. A memorandum of any shortage will be sent you and any item which can not be accounted for will be charged to your personal account.

- 128—You may allow a discount of 0.2% or in exceptional cases a 0.5% except on such items as you are instructed to sell at the regular price. All samples are charged at regular catalog price and when sold are to be sold at price in effect at time of sale.

- 129—A discount cannot be allowed on some samples. For instance, restricted and fair trade items like Remington, Winchester, etc.

RULES AND INSTRUCTIONS

SAMPLES—Continued

130—We prepay charges on all shipments (both freight and express) to the salesman, which amount will be added to your expenses at the end of the year. It sometimes happens that the transportation company fails to mark the shipment "Prepaid," consequently the salesman are requested to pay the charges.

When such demands are made—pay the charges, take a receipt, and attach it to your expense report.

When you make shipments to us, prepay charges, and attach the receipt to your expense report.

131—When you receive samples, always check the prices on the samples with those in your Catalog and keep them posted as prices change.

132—All samples must be sold just as soon as they have served their purpose. Never allow samples to accumulate.

133—When selling samples, prices should be based on those in Catalog at time of sale.

134—All samples will be charged on a memorandum invoice. On receipt of an invoice for samples, you are to check, sign and return the receipt attached. If an error of any kind has been made, report same immediately. No shortage will be allowed unless your report has been made promptly.

135—The invoice should be kept by the Salesman and he should enter the disposition of the sample thus having a complete record for his files.

136—When you sell and deliver samples use the special pink order blank provided for that purpose. Write the order in regular way and double check each item.

137—All "Samples Sold" delivered orders must be itemized.

138—When you sell and deliver samples for cash, orders must be written up the same as if they were to be charged, attach money order or check to the order.

139—Do not transfer samples to another salesman without our permission. If permission is granted take a receipt and send it in with notice of transfer.

140—Keep your samples clean. Shabby samples are worthless for the purpose for which they were intended.

After you have been over your territory with a line of samples, sell them immediately (Cutlery samples in rolls excepted). Later on, should you desire to carry the same line again, write in for new ones. By doing this you will keep your sample account at a minimum and always have nice clean samples to show your customers.

141—The best way to sell samples to advantage is to sell a complete line to one dealer. If you sell them in little jagged lots, you break up your line and have miscellaneous items unsold.

142—In selling samples, be sure of your customer's credit. AS YOU ARE THE CREDIT MAN IN SUCH CASES, WE MUST HOLD YOU RESPONSIBLE FOR THE COLLECTION OF SUCH ACCOUNTS.

143—When you come to St. Louis, do not bring in any samples unless you have been instructed to do so. We positively will not check up or revise cutlery samples unless arrangements have been made with the sample department before your arrival.

144—Never return samples without permission. However, when samples are returned, do this:

Ship by express, if express service is available, and be sure that the express agent seals the carrying cases to insure contents reaching us intact. If only truck service is available, it will be your responsibility to have the truck company to seal the package and enter a notation on the Bill of Lading showing that the package was sealed when accepted by them.

Notify sample department.

Attach express or freight receipt.

Attach itemized list of samples and keep a copy for your records.

Show number of pieces of baggage returned.

Place tag bearing your name on each piece of baggage or box.

145—Sample cases and rolls, etc., must be returned as soon as they become empty. In sending them in, send us an itemized list of just what you are returning, and show your name and address plainly on each piece of merchandise so it can be properly identified promptly on receipt.

CATALOG AND ADVERTISING

146—CATALOG MARKINGS. In addition to the code selling price, we show a plain figure price in heavy black type which is twice the code or dealer price. Example—

	Each
F4769GK-KSAS	\$6.66
	NON

Light face figures with "Retail Each" above are Manufacturers' Fair Trade or restricted prices. Example—

	Retail	Each	Each
S1384A-6	\$3.00	2.25	
	O E Z		

Light face figures with "Suggested Retail" above are retail prices at which we suggest the item be sold. Example—

	Suggested	Retail	Each	Each
S34AK-K4/6	O A Z	\$3.60	2.85	

Light face figures with only the word "Each" above are Manufacturers' List prices. Example—

	Each
FX-5200-G	\$39.92
	O O O V

147—D-S (Don't Sell)—Items short at present. Take no orders until and when authorized.

148—The letter "N" shown before the price of an item indicates that no freight can be allowed on that item.

149—Letter "E" shown before the price of an item indicates that we will equalize freight on the item in line with the notation at the bottom of the same page.

150—Stock numbers ending with the letter "X" indicate items which are low profit or X goods.

151—A Grecian Cross (†) indicates that we do not carry these goods in stock and sell them only for shipment direct from the factory. In such cases the order must be written on a separate sheet.

152—A (■) Placed before trade name or manufacturer's name of a product indicates that this merchandise is fair traded in states that have Fair Trade Laws.

153—Double Dash (=) behind a price indicates under no circumstances must these prices be cut.

154—CUSTOMER'S CATALOG. When you find a Catalog is not being used, take it up and return to us, or—place it where it will be used and advise us.

155—DON'T fail to keep your Catalog and Snap Book posted. New Pages are sent out every week.

156—Don't fail to post your Catalog and Snap Book promptly upon receipt of instructions to make pencil changes, marking items "Don't Sell", Reinstated, etc.

157—We will furnish advertising mats same size as shown in the catalog free of charge, of our brands of goods. We will not supply them unless the dealer has bought goods from us.

When ordering mats, be sure to give the section number, catalog page number and number of the item for which the mat is wanted.

158—No salesman shall have any Stationery, Cards, Letter Heads or advertising matter printed without first submitting it to the House for approval.

159—Do not obligate us to furnish any material or items not shown in our Catalog.

MAILING LIST

It is very necessary that we have an accurate up-to-date mailing list comprised of desirable accounts. After credit has been passed on a new account order, you will receive a form letter asking you to fill in mailing list sheet for the account if, in your opinion, they should be on our mailing list and the following sample is for your guidance in properly making out this form. Do not attach mailing list form to new business order, instead wait until you receive the form letter and know that from a credit standpoint, the business is desirable.

PRINT NAMES AND ADDRESS USE REVERSE SIDE OF SHEET FOR ANY REMARKS TO YOUR SALES MANAGER															

Use (X) to indicate kind or character of business.

Use (✓) to indicate lines carried.

The above sample covers a fair size town where we have two hardware accounts. The account on line 1 is to have DE merchandise and the account on line 2 KK. Note (✓) marks indicating lines that each handle.

The account on line 3 carries an (X) mark under Lumber with General Hardware to indicate that they carry general hardware in addition to builders hardware. The (✓) mark indicates that appliances are also carried.

The account on line 4 carries an (X) mark under Affiliated, Associate or Chain store. All Firestone, Goodyear, Western, Gamble and similar chains should be so marked. If you have cases where an independent hardware firm has 2, 3 or 4 branches we do not consider this as a chain.

The account on line 5 is a member of a large line lumber firm and is primarily a branch yard handling builders hardware which we can sell regularly, therefore the (X) mark under "Lumber with builders hardware". DO NOT (✓) such accounts under "Affiliated, Associate or Chain Stores".

If additional information is desired please write to your sales manager.
